Let the finest operatic air that ever went up from the church of Christ get many hours the start; it will be caught and massed by the Hosanna of the Sabbath school children. I know a church where the choir did all the singing, save one Christian man, who, through 'perseverance of the scints,' went right on, and afterward a committee was appointed to wait on him and ask him if he would not please, stop singing, as he bothered the choir.

He goes on and gives plates of the machinery by which this work is to be done, and he says he only needs at the start a company in which the shares shall be \$20 each, and \$100,000 or \$200,-000 shall be raised just to make a spect-men community, and then, this being formed, the world will see its practical hility, and very soon \$2,000,000 or \$3,000,000 can be obtained, and in ten years the whole earth will be emparadised. The plan is not so proposterous, as some I have heard of. But I will take no stock in that company. I do not believe that it will over be done in that way. by any mechanical force on by any mainto play. It is to be done by the gospet-of the Son of God—the omnipotent ma-chinery of love and grace and pardon and salvation. This is to emparadise the nations. Archimedes destroyed a fleet of ships coming up the harbor. You know how he did it. He lifted a greatsunglass, how he did it. He lifted a great sunglass, history tells us, and, when the fleet of ships came up the harbor of Syracuse he throught to hear this slunglass, and he feoused the sun's rays upon those ships.
