Make Your House Cheerful During the Long Winter Months.

OUR 1896 COLLECTION OF WINDOW
FLOWERING BULBS
—AT—
STEPHEN'S DRUG STORE.

Hyacinths, Tulips, Crocuses, Narcissus & Chinese Sacred Lily
Are the most Charming, Sweet Scented and attractive.

Directions for Hyacinths in pots. Fill the pot rather losely to the brim and press the bulb down so the only ¼ of it appears above soil. Cover up the pots with 4 inches of sand in a cool cellar. Pot say about the first October. Remove from their dark quarters in 5 or 6 weeks. They should then be placed in full light and watered freely.

Hyacinths—grown in glasses are an elegant and suitable ornament for any room. (Glasses all shades in stock.) Bulbs to be placed in the glasses, keeping them in the dark until the roots are well started, after which the lightest and sunniest situation that can be had is the best. Change the water two or three times a month.

Hyacinths, single and double. Tulips, single and double. Narcissus (or the flower of the poets) single or double. Crocuses, one of the best for blooming in the house during winter cheap and pretty. They ought to be in every house. Half a dozen bulbs may be planted in a pot and will make a very pretty show. All colors.

## A HERO OF MAGDALA.

**A Chat With a Veteran Who Was in the Memorable Battle.**

[illegible] is the theme of many a thrilling [illegible] song. Mr. Geo. Kingston, [illegible] street north, is one of Hamilton's veterans. A man of martial bearing, [illegible] physique and genial personality, a splendid representative of the best type of the soldier. To our reporter Mr. Kingston readily gave an interview. "With all [illegible] a citizen of that empire on which the sun never sets, Mr. Kingston said: "I am a Devonshire man, born near the banks of the Tamar. I entered the British army at 19, and spent seven years in India. I was through the Afghan campaign, and fought at the [illegible] capture of Magdala, King Theodorus' stronghold. Here the king and his [illegible] forces fell. Napier, the Hero of Magdala, was created Lord Napier of Magdala for his splendid services. After this I returned to England, remaining about five years, when I was again sent to the sunny south. My first service was nearly up, and I took a place to get kidney and liver trouble, and I was no exception. I was [illegible] invalid to the Netly Hospital for soldiers, and for months was a great sufferer, finally being discharged as a hopeless incurable invalid. Two years after I sailed for Canada, and have been more or less ever since from the effects of that kidney trouble entails, such as pain in the back, headaches and dizziness were seldom absent, so that I tried Doan's Kidney Pill advertising. A box from Zimmerman's drug store, got from the first few doses, I had taken two boxes, the pains left my back and I felt like a new man. I used Doan's Kidney Pills a wonderful medicine, so became my complaint would baffle the skill of the best physicians in the greatest hospitals in Queen Victoria's dominions."

Mr. Kingston said: "I can recommend them as a quick cure for kidney trouble in addition. How could I do otherwise when they have given me back the health and vigor of long ago?"

A number of Standard subscribers are in arrears. To all such we would ask kindly to examine your address label and then make it a point to have it put right as soon as possible. $1 a year will satisfy this hard season provided you pay a year ahead at same time. Please do not overlook this little matter.

At a meeting of the trustees of Markdale public school held on Monday, principal Rowe was re-engaged for 1897 at $500, being an advance of $60, Miss Ford at $300, an advance of $25, Miss Ida Irwin at $250, same as this year and Miss M. Mann in place of Miss Susie Irwin, salary $225, twenty-five lower than that of this year. So we are informed. They each hold second-class certificates.

Erroneous Report.—We regret very much having published last week a paragraph to the effect that Mr. Joseph Manarey of Euphrasia had, owing to financial trouble, "gone to visit some other locality." Our information to that effect was, we are pleased to learn, quite unfounded. True Mr. Manarey is seriously embarrassed financially, but he has not been away from home, except to the Toronto Industrial, from which he returned with others from this part, and is since doing his best to satisfy his creditors. Mr. M. is much respected wherever known and tho' in deep water still retains the confidence of the community. Had he been so inclined he had ample opportunity of making off with considerable boodle, having been tax collector for Euphrasia township for several years, but he was not that kind, and the township looses nothing by his misfortune. Mr. Manarey feels keenly the mortification of being unable to meet his creditors with the necessary.

Mr. Jas. Hamilton, photographer, of Muskegon, Mich. is visiting his old home and friends here. Mrs. H. and children have been visiting in Detroit and Thornbury, and join him here this week and return home next week.

**Churning Done in One Minute.**

I have tried the Lightning Churn, you recently described in your paper, and it is certainly a wonder. I can churn in less than one minute, and the butter is elegant, and you get considerably more butter than when you use a common churn. I took the agency for the churn here and and every butter maker that see it buys one. I have sold three dozen and they give the best of satisfaction. I know I can sell 100 in this township, as they churn so quickly, make so much more butter than common churns and are so cheap. Some one in every township can make two or three hundred dollars selling these churns By addressing J F Casey & Co., St. Louis, you can get circulars and full information so you can make big money right at home. I have made $20 in the past two weeks and I never sold anything before in my life. A Farmer.

## Village Fathers.

The regular monthly meeting of Markdale council was held in the council-chamber on Wednesday night, Sept. 31, all the members present.

Minutes of last meeting read and confirmed.

On motion of Messrs Benson and Jackson an ac. for $1.10 from Mr. A. Fogerty for accomodation for the man Howard who had his leg broken was ordered to be paid.

| A. Smith, work on sewer | 2 40 |

—carried.

Council adjourned at 10 p. m.

**A Good Wind Mill—Make it Yourself.**

I made one of the People's windmills, which I saw recommended in your paper recently, it only cost me $3 and is a splendid mill, my wife is pleased, but it pumps it all right and with very little wind; the neighbors all like it, and as I am a bit of a carpenter, I have agreed to put up nine mills already, on which I can make a nice profit, and there are many others for whom I can put up mills on the same terms. I don't see why every farmer should not have a wind mill, when they can make it themselves for $3 or less than $10, any one can get diagrams and complete directions for making the wind mill by sending in two-cent stamps to Jay postmaster, to E. D Wilson & Co. Allegheny, Pa., and there can be dozens of them put up in any locality by any one that has the energy to do it. A Farmer.

## A Great Event.

We see it announced that the Family Herald and Weekly Star of Montreal has secured that magnificent picture, "The Orphan's Prayer," which is to be presented this autumn to renewal and new subscribers of the Family Herald. The picture is said by those who have seen it to be the most catching thing of the century, and a work of art which no publication has heretofore approached unto. Prang & Co., of Boston, the great makers of the Christmas cards, write of, "The Orphan's Prayer" as follows: "It is full of pathos. It tells its own story in its own way. We have not seen anything like it. We anticipate the Family Herald of Montreal will have a large demand for it." This is praise indeed from a house that scarcely ever praises anything. Those who are fortunate enough to be on the Family Herald's list are evidently in for a grand thing, besides getting their paper, which all must admit is indeed a most wonderful production in itself.

## Missionary Convention.

The Toronto Conference branch of the Woman's Missionary Society of the Methodist church met in convention at Collingwood Tuesday, Wednesday and Thursday of last week. The sessions throughout was extremely interesting, one including a lecture by Dr. Hart of China, who has labored in that country for thirty one years. He considers a christian press the greatest need in that mission field to-day. He is working for and eagerly looking forward to the establishment of a printing house in China from which christian literature will be scattered broad cast over the land.

The financial report was a very gratifying one, over $5000 has been raised of which Mission Bands have raised over $500.

The report of the Supply Committee is always interesting. This year sixty-five missions have been sent boxes or bales of clothing, books, etc., to the value of about $4000. They are sent of course only to domestic missions.

The work continues to greatly widen.

Eighty-four delegates were present. Mrs. Boland, Mrs. Bertrand and Miss Boardman attended from Markdale.

## The Central.

This Society did not meet with its usual luck this year, as can be vouched by those who were out on Tuesday or Wednesday, but in spite of the weather the exhibits were there, the hall being well filled while the outside exhibit though only about one half of what was entered was large enough to attract attention and admiration.

The races on Tuesday were equal if not superior to anything ever held on the Central track. The following is the report of races.

**Money Made in a Minute.**

I have not made less than sixteen dollars any day while selling centrifugal ice cream freezers. Any one should make from five to eight dollars a day selling cream, and from seven to ten dollars selling freezers, as it is such a wonder, there is always a crowd wanting cream. You can freeze cream elegantly in one minute and put it so tempting as people say they all want to taste it and then many of them buy freezers as the cream is smooth and perfectly frozen. Every freezer is guaranteed to freeze cream perfectly in one minute. Anyone can sell cream and the freezer with it sent. My sister makes from ten to fifteen dollars a day. J. F. Casey & Co. 113 St. Charles st., St. Louis, Mo. will mail you full particulars free, so you can go to work and make lots of money anywhere as with one freezer you can make a hundred gallons of cream a day, or if you wish they will hire you on a salary. Mary A.

## Caution.

Dried apples will be almost unsaleable this year unless the farmers and merchants give the strictest attention to Cut, Color and Condition. Requirements are large quarter-cut fruit, bright color and dry. Discourage all small-sliced and chippy stock. Positively reject everything dark, burnt or wet.

With careful attention given to these requirements there is hope for a considerable trade at vastly higher prices than the U. S. fruit returns. By neglecting them, Canadian fruit will be reduced to the U. S. level in quality and price.

It is quicker to cut fruit large (in quarters) than small, and as easy drying bright as dark, it only requires, therefore, care on the Farmers' part and firmness on the merchants' to ensure them both, a profit as against a loss, besides creating a superior reputation for Canadian Dried Apples.

**Gray Hair Made Dark.**

I saw in your paper a statement that Zulu Vuller would restore any head of hair to its natural color in three weeks. As I was very gray I sent for a sample package, and in less than three weeks my hair was perfectly restored to natural color. My wife's hair was a light red, and by using Zulu Vuller, her hair is now a beautiful auburn. Any one can get a sample package of Zulu Vuller by sending 21 two-cent stamps to Wilson & Co., New Concord, Ohio, and if it does not restore the hair to natural color in three weeks they will return your stamps; if not only restores the hair to natural color, but will stop the hair falling out immediately and is one of the best hair tonics made, and you take no risk, and if it does not satisfy you perfectly they will return your stamps. ## English Demands.

A great tribute has just been paid to an eminent authority in the Family Herald and Weekly Star of Montreal. The English publisher writes: "If you will publish a special English edition of the Family Herald and Weekly Star, I will undertake to secure for it an enormous circulation throughout England, Scotland and Ireland." This is a complimentary indeed and it is a compliment to merit. We should think there would be a temptation for the publishers of the Family Herald to branch out in new fields but we see it stated they have got to a point where they find it difficult supplying the demand in Canada alone. It's a great paper.

**Did You Ever Make Money Easy.**

Mr. Editor.—I have read in your paper how I made money and thought I have been very successful but little did I know how much easier I could make money. I am in the stock selling business now, and I have found out how to make it easy. Any one can have it as easy as I do. Just write to them and you will get particulars.

I think I can safely say that I am making as much money as any man in the country. Try it and publish your success to others.

## Butchering Hogs.

Dear Sir.—We are frequently asked by farmers and stock men, for instructions regarding the killing and handling of dressed hogs, and knowing that your valuable paper reaches a large class who are interested, we take the liberty of using it as a medium for this purpose.

During this season of the year, it is well to select, if possible, a cool day for slaughtering. The hogs should be starved at least twelve hours before killing. A great many farmers are experienced butchers, and the number of shoulder stuck hogs is very much less now than some years ago; however, we strongly advise that none but experienced hands should be allowed to stick hogs.

Instructions as to the scalding and removing of the hair, we think, are unnecessary. What we wish to call special attention to is the treatment of the carcass after it has been hung up. The bone between the hind legs, also the breast bone should be cut through, so as to allow the removing of all the entrails, along with the gullet. This being done the carcass should be well showered with cold water, and allowed to hang up twelve to twenty-four hours, according to the state of the weather; if very warm then more cold water should be used, and a longer time allowed to hang. If the hogs are very fat, (which, by the way, is not desirable especially in the light weights) they should be split open through the backbone, to allow the animal heat to escape, which, if not attended to, the chances are you will have tainted meat. These openings do not, in any way, interfere with the price in selling, as all hogs have to be divided in the middle when being prepared for curing. We wish to impress this point in regard
