FIRE.—On Monday night the barn and contents of Mr. John Gibson, 2 miles south of this village, was destroyed. The season's crop together with farm implements were consumed. STANDARD readers will kindly overlook any errors or omissions that may occur this week as will be seen by the personal column that "The Boss am away to Toronto," and has left the writing to be done by the devil and ad. setting, &c., to the foreman, although this is not the first time we have been left at the helm. We feel a little shakey at taking the lines for it is hard to say whose corns we may tramp at any rate we will try and pull through as best we can under the circumstances, so if any of our agricultural friends have any big potatoes, turnips, or any thing of the sort they would like us to puff up, kindly bring them in next week when the agricultural editor will be at home and will be able to attend to your needs.

Hair Restored to Natural Color.
I have used many preparations for restoring hair to natural color, but none ever had satisfactory results till I used Zulu Vulier; it will restore any hair or beard to its natural color in three weeks If it does not they return your money, so you take no risks. People who have never tried it can get a sample package which contains enough to restore any one's hair to natural color, by sending 2 two-cent stamps to pay postage, etc., to Wilson & Co., New Concord, Ohio.
The regular price is $2.50 per package. If it does not restore your hair to natural color, or make any color of hair darker in three weeks, they will return your stamps. This proposition is so fair that thousands are using it. It is harmless, but never fails. Why can't big money be made by selling Zulu Vulier from house to house?

A Churn that Churns in One Minute
I have been in the dairy business all my life and have many times churned for an hour before butter would appear, so when I heard of a churn that would churn in a minute, I concluded to try it. Every day for a week I used it, and not only could I churn in a minute, but I got more and better butter than with the common churn. This is very important information to butter makers. The churn works easily, and will churn an ordinary churning in less than 60 seconds. I have sold two dozen of these churns in one month. Every butter maker that has seen me churn in less than a minute has bought one. You can obtain all desired information regarding the churn by addressing J. F. Casey & Co., St. Louis, and they will give you prompt and courteous attention.

Undying Fame,

"The Orphan's Prayer" is creating a genuine sensation among artists. It is that beautiful masterpiece by a celebrated English artist, who was offered any amount, up to ten thousand pounds if he would paint another picture as good as "The Orphan's Prayer." The gifted artist tried and tried again, labored and worried and yearned, but gave up the attempt, freely acknowledging that "The Orphan's Prayer" was an inspiration, and no thought or study, or any sort of meditation could get from his brush a picture fit to be called a companion piece. The great artist met his death through accident in climbing the Alps and "The Orphan's Prayer" remains as his monument. It was a great stroke, worthy of their great paper, by which the publishers of the Family Herald and Weekly Star, of Montreal, secured at enormous cost, "The Orphan's Prayer," for this season's premium for the Family Herald and Weekly Star. In all conscience the Family Herald was good value before, we might say the greatest value to be had in newspapers. What this gem of a premium will do for the great paper it is impossible to form even an estimate, it is a wonderful combination.

Money, Make it Yourself.
I have never seen anything in the papers about the People's Wash Mill, we call it the "People's," because the inventor never patented it, but let everybody make it free. Any farmer can make a mill himself, and all the material to complete will not cost over $9. It is a splendid mill, will smash the deepest wells, and will last longer than any mill I ever had. Any person can get diagrams and complete directions free, and I did, by sending 2 letter-stamps to pay postage, etc., to E. D. Wilson & Co., Allegany, Pa. Wilson & Co. sell pumps, and when you get your wind mill going would be glad to sell you a pump if you need it. It is certainly no less to pay 50 or $60 for a wind mill, when you can make one just as good for $9. I think there could be big money made putting up these mills up through the country as everybody would like them.

A Chance to Make Money.
I have berries, grapes and peaches, as fine as ever put up fresh as when picked. I use the California Cold Process, do not heat or seal the fruit, just put it up cold, keeps perfectly fresh, and costs almost nothing; can put up a bushel in ten minutes. Last week I sold directions to over 120 families; anyone will pay a dollar for directions when they see the beautiful samples of fruit. As there are many people poor like myself, I consider it my duty to give my experience to such, and feel confident anyone can make one or two hundred dollars round home in a few days. I will mail a sample of fruit and complete directions to any of your readers for eighteen two-cent stamps, which is only the actual cost of the samples, postage, etc., to me
