HAPPY THANKSGIVING.—The happiest Thanksgiving is that which retains the spirit of primitive good cheer, simplicity and good fellowship. Dinners of style are not consistent with the occasion. There used always to be snow at Thanksgiving and roaring fires in the old big fireplace and hosts of gay relations coming from the country or town.

DR. TALMAGE, speaking of the country newspapers, says: "A newspaper whose columns overflow with advertisements of business men has more influence in attracting attention to, and building up, a city or town, than any other agency that can be employed. People go where there is business. Capital and labor will locate where there is an enterprising community. No power on earth is so strong to build up a town as a newspaper well patronized, and its power should be appreciated."

At the convention of the Western Association of Congregationalists, held in Hamilton last week, the report of a special committee recommending that the Rev. J. C. Madill, the present pastor of Hope Congregational church, Toronto, be expelled from the membership of the association, was adopted. The above action was taken on account of the Rev. Mr. Madill having refused to attend an investigation to hear charges against him made by a member of his church while he was stationed at Sarnia.

A DASTARDLY ACT.—The whole community has been stirred with feelings of intense indignation on account of the poisoning, on Wednesday night of last week, of a pair of valuable and favorite young horses belonging to Mr. R. J. McAfee of Euphrasia. One of the animals died early Thursday morning and the other the following day after suffering intense agony for over thirty hours. Paris green mixed with oats was the drastic means used. Mr. McAfee is a prosperous farmer and a most respected and esteemed citizen, and didn't suppose for a moment he had an enemy in the world, but some fiend in human form did the dastardly deed, and it is to be hoped that justice may speedily overtake the culprit.

A Good Wind Mill Make if Yourself.

I made one of the people's windmills which I saw recommended in your paper recently, it only cost me $8.40 and is a splendid mill; my well is deep but it pumps it alright and with very little wind; the neighbors all like it, and as I am a kind of a carpenter, I have agreed to put up nine mills already, on which I can make a nice profit, and have as many others for whom I can put up mills this fall. I don't see why every farmer should not have a wind mill, when they can make it themselves for less than $10, any one can get directions and complete directions for making the wind mill by sending 24 two-cent stamps to pay postage ect., to E. D. Wilson & Co., Allegheny, Pa., and there can be dozens of them put up in any locality by any one that has the energy to do it.

The New Hook Spoon Free to all.

I read in the Christian Standard that Miss A. M. Fritz, Station A, St. Louis, Mo., would give an elegant plated hook spoon to anyone sending her ten 2 cent stamps. I sent for one and found it so useful that I showed it to my friends, and made $13.00 in two hours, taking orders for the spoon. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in the place by a hook on the back. The spoon is something that housekeepers have needed ever since spoons were first invented. Anyone can get a sample spoon by sending ten 2-cent stamps to Miss Fritz. This is a splendid way to make money around home.
Very truly, JEANNETTE S.
