provoking to be called an egg, very. es to lead the muscles along the and some brass wire to shape the At home that evening the silesia was owed over the bagging, the result being istinctly egglike and satisfactory.

scheme for the construction of Next 4 scheme for the construction of their eyes and their muscles was evolved. In the first place, two sinull halls, of a size proportional to the size of the wire eye frames, and covered with some kind of white staff were built up out of the family ragbag. A black pupil and abrown iris were painted on each ball, neatly notched as if by a gleam of reflected light. The part of the ball, quasting to the part light. as it by a kieum of redected light. The part of the ball, opposite to the pupil was then attached to a backboard by what may be described as a flexible stalk, in such a way that the type could roll over a wide angle, sideways or up and down; and a strong string was led from ball to ball so

that if one eye turned the other follow it. COMPLETING HUMPTY'S DRIVES

A collar had to be designed and cut of stiff paper, to be fastened on above belt. Arms and hands were built out of little sleeves and stuffed gloves, and stiffened by slicks that reached inside of the ened by spicks that reached inside of the barrel frame, so that manual gestures could be executed from within. Legs and feet, with little stockings and large shoes, supported on bent wires, were attached to the lowest barrel hoop; and the beginning of the end was approaching. of the end was approaching. THE MANIPULATION OF HUMPTY.

Of course long before this the question had arisen: How is he to be worked that the but this had been duly considered. Its should sit on top of a folding, screen, turned like the corner of a wall; his legs should han; over the front, and behind the screen, on a box of appropriate size. I should start with my head and arms inside of the barrel frame.

At last everything was ready. When the footlights were lighted, and the hum of the growing audience had grown to a mild ront. I was immersed in Humpty and assisted blindfold up on my box.

Alice rank in and stopped in surprise before the vall but Humpty still looked at the dinmed gaslight. Alice spoke her line: "How xactly like an egg he is!" Gradually his eyes turned around towards her; than he frowned with his eyebrows. Catching mr cue, I enunciated slowly and resentfully:

"It's very provoking to be called an egg—very!" marking each syllable with a jerk of the lower lip; and then quickly released the keys, letting the sleating his released. THE PERFORMANCE.

of the lower lip; and then quickly released the keys, letting the clastic tendons turn the eyes buck to the importurbable gaze at the gas lights. This was enough; Humpty, would act even before an audience, and and his success was accurate. and his anceles was assured.

Other amusing sentences followed one after another and the pantominio gestures of Humpty kept the Strange y enough, if you feed a horse plenty of corn and hay he is likely to "feel

A CHRISTMAS TALE OF OLD ENG-LANC.

That girl, so wayward, wild!

'Go, bring the sinner in ' he said;

"Go, bring the sinner in the same,"
If fain would see her face;"
The hall door opened, then a form,
Still wearing beauty's grace.
Walked slowly in, with drouping heat
"My child!" was all the Squire said.

"Forgive, forgive! the singer wailed

The Squire raised her, and in tears Said, "Child, I've waited many years,

To say the word that now you crave.
My triends, the bot is found.
The dove's returned, her weary feet.
Could find no schanding ground;
The ark of safety kives her rest.
The ark of safety kives her rest.

And then he clasped her to his brei

And all the guests cried out in glee

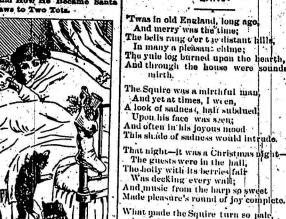

And pressed the squire's hand; This was the happiest Christmas night

In England's merric' land. th! would that all who're turned uside,

And knelt down at his feet;

The guests, amazed, all gathered To bear her to a seat;

Who disappeared one Christmas night Forever from her father's sight.

We hang up our stocking on Christmas Eve On the knobs of the foot of the bed. "We shall find them c. ammed with beautiful things in we wake in the morning." we said. led very hard to keep awake to Santa Claus when he came.

when the morning-began to break I suddenly woke up quite, and looked to see if dear Sasta. Claus Fad thought of us in the night. Vien, ah! how frightened I was I I heard A noise by the foot of the bed. Wilspered, "It must be Santa Claus." "es, it must be," Evenne suid. We waited to see what his face would be.
And my heart went pit-a-pat-pat
And Eveline said hers did the same).

Offerings of wheat in Outario are more R. H. Benson & the part of the dreas of cases they have cared; after all to their medicines have failed, thus establishing the chaim that they are a marred samong the triumphs of modern medical selence. The genuine Pink Pills are sold only in hokes, baring the full thad mysk! Dr. Williams' Pink Pills for Uale People." Protect, robreel from imposition by refusing any full that does not bear the registered trade mark around the box.

Variety of Hate. In the matter of head gear for every-day wear the English had is by far the most pepular and truly serviceable. They are shifted to the haunty, chic style of girl, and form a wonderfully

black ribbon bindings; with the leather to aweater in-ide.

It answers very well as a "rainy day" I hat, though even then some thing a trifle more, feminine would be an improvement. A cross between a turban and an Alpine shape finds considerable favor made up in any of the soft felts or

shaggy beaver.

The brim rolls considerably all around The brim rolls considerably all around with a propounced tilt at one side. The crown is encircled with a broad band of taffeta ribbon, then ends made investment loops at the side, intermingled with quills. Another fetching model is shown in black and brown cloth heavily stirched. It has a reliable believed to stitched. It has a rolling brim and a hulf-high crown dented in at the top .

For trimming, it has a wide silk ribhop, banded about the crown and made into a full, tall bow at the side.

One of the most coquettish of those walking hats shows a high, slightly pointed crown and wide, flaring brim, rolling at the sides.

It is usually made of cheviot, though it is seen in the smart new beavers and smooth felts. A cluster of tail quilts ornaments one side of the front. Cooque feathers in short, orisp que ters are used upon these hats, as as the long, drooping ones. Bunches of

Any of the plain satin-edged chiffons Mr. Popanmom-I think Annie must ave accepted young Williespoon night.
Mrs. Popanmoh—She hasu't said a word to me. What makes you think so?
Mr. Popanmoh—I ran across him several times to-day, and every time he saw me he turned as pale as a siect.

It is calculated that the earth weight bout 6,049,836,000,000,000 tous.
