The electors of Ontario know how that the alleged surplus, composed mainly of debts, awell by the province debt contracted by the Mowat Government, means nothing at all. They know that the province is living from hand to mouth. And they wil show Mr. Hardy that they can no longer be hoodwilked by sleight-di-hand bookkeeping. It will menace the commercial intensits because, under the provisions, the Liberal Government can at will ruin the business of any political enemy. We all know that combines exist in every country. Statesmen seem to be thable to extirpate them. Take our own case: Supposing half of the firms engaged in the manufacture of a certain protected article onter into a combine.
