INTURE INQUIRES

On PARAMON ON MANY THE RESIDENCE AND AND THE CONTROL OF THE CONT

the policy standistincht. In that play the policy (standistincht. In that play you let on numbers. Betting on two numbers is called a saddle." letting of three numbers is called "as "gig." betting on four numbers is called And there are thousands of our young men leading into that "saddle" and mounting that "gig" and behind that "borse," iding to perdition. There salvays one kind of sign on the down the down the down to the down t loss of health, loss of home, loss of fallilly, by s of immortal soul. Exchange sails enough and infinite enough.

The Inclination to Camble. 10, so of evil, but you want to know whith are the small threads out, of which he is quade. There is in many a disposition is hazard. They teel a delight in walking on a precipice because of the sense of adaptic. There are people who go in a Jangfran, not for the largeness of the prospect, but for the feeling that the have of thinking. "What would happer if I should fall off?" There are persels who have their blood illlipped and according to the short in the state. crated by skating very near an air ho There are men who find a positive hight in driving within two inches of the edge of a bridge. It is this disposition to hazard that finds development in gaining practices. Here are \$500. I may take them. If I stake them, I may lose their land I may win \$5,000. Whichever with thems I have the edge of the it turns, I have the excitement. Shurt the cards. Lost! Heart thumps, He At it again-just to gratify tall desire for hazard. · Then there are others who go into the sin through sheer desire for gain. It

sin through sheer desire for gambles, specially so with profession gambles. They always keep cool. They never dranough to unbalance their judgment than do not see the dice so much They always keep cool. They never drag enough to unbalance their judgment. They do not see the dice so much as they see the dollar beyond the dice, and for that they watch as the spider in the web, looking as if dead until the passes. Thousands of young men in hope of gain go into these practices. They say: "Well, my salary is fortuned to allow this luxury. I don't care ough from my store, office or shop, ought to have iner apartments. I ought to have hetter wines. I ought to have hetter wines. I ought to be able to entertain my friends inore to persively. I won't stand this any long of can with once brilliant stroke make heter wines, persively. I won't stand this any long of can with once brilliant stroke make heter with the same with the sa fortune. Now, hero goes, principle or principle heaven or hell. Who cares? When a young man makes up his my to live beyond his income, setan, i bought him out and out, and it is or a question of time when the goods are be colivered. The thing is done. I may plant in the way all the fatter of truth and righteousness-that bound to go on. When a man \$1,000 a year and spends \$1,200, young man makes \$1,000 and species 1,700, all the harples of darkness out. "Ha, ha, we have him!" And the we. How to get the extra \$500

How to get the extra \$500 or the stra \$2,000 is the question. He says there is my friend who started out the there day with but little moner, and it one tight, so great; was his luck, in the day with but little moner, and it one tight, so great; was his luck, in the out in the strain work. This adding up long the section work, this adding up long the section work, this adding up long the section of the section work this adding up long the section of the section waiting upon somebody else, when could put \$100 on the race, and plet up \$1,000.

An instation sin.

This sin works very installously. Other This sin works very insidiously. Other sins sound the drum and thann, the file and gather their recruits with will buzza, but this marches its procession is pale victims in dead of night, in sileness and when they drop into the grave there is not so much sound as the click of the dice. Oh, how many have gone lown under it! Look at those men who were once highly prespered. Now their forshead is licked by a tongue of than the will never go out. In their soul are plunged the Braks which will never the lifted. Swing open the door of that man's heart and you see that ifited. Swing open the door of that man's heart and you see a coil of addess wriggling their indescribable loss until you turn away and hide your falce and ask God to help you to force it. The most of this evil is unadvertisation of the community does not have the same that the same that the community does not have the same that the community does not have the same that the sam

The community does not hear of it. Men defrauded in gaming establishments

defrauded in gaming establish

for have been worth a farthing in that breased had he not been accompanied by the police, if he che on a Christian errand, of observation. Some of these men wont by private toy, some went in by careful introduction, some were taken in by the patrons of the establishment. The officer of the average of the police mandate or by some letter of a sarron.

wy police mandate or by some letter of a da keed char and stepped out on the protection."

While we, were there a young man hame in, put his money down on the faulette table and lost; put more money flown on the roulette table and lost; put more money down on the roulette table and lost; put more money flown on the roulette table and lost; put more money, finding none, in severe there money, finding none, in severe them a man is already feeling good all the form money, finding none, in severe the find passed out. While we stood there are no lost their property and lost their "You see how I am fixed, colonel?" said the strayger, stepping up and holding out a right hand, on which were only a thumb

Oh, merciless place! Not once in all he history of that saming house has here been one word of sympathy uttered for the losers all the same. Sir Horace Salpole said that a man dropped dead in one of the clubhouses of London. His sady was carried into the clubhouse and he numbers of the club began immediately to bet as to whether he were lead or alive and when it was proposed to test the matter by bleeding him it was unly hindered by the suggestion that it could be unfair to some of the players. In these gaming houses of our cities men lave their property wrung away from hem and then they grief in strong firink, some to ply the counterfeiter's en, and so restore their fortunes; some easer to the suicide's revolver, but all sort to the suicide's revolver, coing down. And that work proceeds

going down. And that work proceeds hay by day and night by night. That art rope, says one young man, has hever been wound around any soul. But have not some threads of that eart rope been twisted?

I arraign before tool the liter dency to make this nation of gambles. What were not some threads of the liter dency to make this nation of gambles. What where the sounget, young man, such a since as that, without giving a proper equivalent, is a robery of your own soul and a robbery of the community. Yet how we are appalled to see men who have failed in other enterprises go into gift concerts, where the chief attraction is not music, but prizes distributed among the airlience, or to sell books where the chief attraction is not the mook, but the package that goes with the book, but the package that goes with the book. Telepicco dealers advertise that on a certain day they will put money into their papers, so that the purchaser of this robacco in Cincinnati or New York may timexhectedly come upon a magnificent gratuity. Boys hawking through the ears packages containing nebody knows what until you open them and find they contain nothing. Christian men with plotters what will contain in a lottery intil you open them and find they contain nothing. Christian, men with plotures on their wall gitten in a lottery, and the brain of community taxed to find out some new way of getting things without paying for them. Oh, young men, these are the threat rope, and when a young man consents to these practices he being bound habit which has already destroyed. 'a great multitude that no man can number?' Sometimes hose gift enterprises are carried on in the name of charity, and some of you remember at the close of our civit war now many gift enterprises were on foot, the proceeds to go to the orphans and widows? Why, they would have allowed them to freeze to death upon their stops. I have no faith in a charge of those gift enterprises care for the orphans and widows? Why, they would have allowed them to freeze to death upon their stops. I have no faith in a charity which, for the sake of relieving present suffering, opens a gaping jaw that has swallowed down so much of the virtue and good principle of the community. Young man, have nothing to do with these things. They only sharpen your appetite for games of chance. Do be honest or die.

I have accomplished my object if I put you on the lookout. It is a great deal easier to fall than it is to get up again. The trouble is that when men begin to go astray from the path of duty they are

The trouble is that when men begin to on astray from the path of duty they are apt to say: "There's no use of my trying to get back. I've sacrificed my respectability. I can't return. 'And they go on until they are utterly destroyed I tell you, my friends, that God this moment, by his Holy Spirit, can change your entire nature, so that you will be a differ

drill all hoes a work at rate of two bushels per acre. Beside the corn rape was sown broadcast at the rate of six pounds per acre, and beside the rape of six pounds per acre. All were sown the last of May. Corn came up almost immediately, grew rank and well all season. Rape and sorghum were slew in germinating and growth was rather limited at first, but later the sorghum made rapid strides, producing so much feed at a time when producing so much feed at a time when experienced yeterinarian. If the bowels the drought did not show itself that the question already as so what to do with it. The rape apparently was sown too tlick and did not make the growth that it otherwise would, but it was sufficient to test the incrits of the plant. We commenced cutting seighum when about 18 inches high, stock eating it well and with a relish, but as soon as the stalk of the plant became any size sheep refused to set the marking but the linder. The foal should nurse as soon as soon as the stalk of the plant became any size sheep refused to set the marking but the linder. , the drought did not show itself that the fused to cat anything but the blades. The rape was the ideal forage for sheep,

cattle and hogs too.

The corn was tested also as a green feed, with results similar to the sorghum. If anything, sheep ate the corn better than the sorghum.

It seems to be undisputed that, the second growth of sorghum is poisonous at certain times, and when we cannot This is very important.

tell when these conditions exist is it not wisdom to discard it entirely? In sowed corn we have this advantage, that in case we do not need the green feed it is not difficult to save and cure for winter feed. In our case the corn grew quite rank, having lots of nubbins—in fact, small cars. In the future, when in need of roughage for winter or soiling for summer, we shall make use of corn in preference to sorghum.— J. C. Siele in National Stockman.

Questions and Answers.

1. I threw some rubbish containing stove coul into the hospen, and the pigs ato it greedily. I have frequently thrown some intainer to see how greedy thrown some in since to see how greedy they were for it. So they need some hard substance to seen their teeth right and is coal good for them or otherwise? 3. I can sell rye straw at \$10 per ton and timothy hay at \$15; but can't spare both. Which shall I sell or feed to milk cows when I am feeding wheat bran and buckwheat middlings at \$12 each per ton and crushed corn ears at \$9 per

on? Adswers.—We have often fed coal screenings to hogs. They are particularly fond of soft coal, and it will help them. So will ordinary charcoal. Charcoal, wood ashes and salt are excellent for hogs. Probably tons of such a mixture have been sold as "hog cholera cure." 2. Neither timothy hay nor rye straw is profitable for feeding cows.

Of the two, we would sell the straw.—
