

The lacrosse fever and the morning train entered Shelburne at the same time. Quite a dispute arose concerning the colors of the two teams. Shelburne wanted their team to change their uniform from red and white to all white, but our boys stood firm to their colors and wore them too; moreover, we have learned a thing or two about color, and next time our defence may also "accidentally" wear the same colors as the visiting team in order to spoil their combination.

The crowd began to gather on the exhibition grounds at about 2 p. m., the attendance being one of the largest ever seen at a lacrosse match in that town.

After the usual preliminaries referee Shaker of Fergus faced the ball and the game started with a rush, Shelburne showing that they meant to win by hook or crook. After some hard playing our antagonists succeeded in placing the rubber between the flags; time 9 min. This was the only goal during the two-hour play that Shelburne had any right to count.

Again the play began and after 6 minutes had elapsed, the ball struck Tuck's knee in front of the flags and bounced out, but as it was within a yard or so, the Shelburne umpire did not waste much time in getting his hand up. Score 2-0.

The Shelburne team seemed to think they had it all their own way, but the Abertons were just warming up to their work, and in 7 minutes after the ball was faced, Mathews scored for Markdale. Score 2-1. Markdale was now in form and after the usual rest they settled down to play their game. After some clever passing Campbell again scored for Markdale in exactly 1 minute. Score 2-2.

Now the fight began in earnest and for 65 long minutes both umpires kept their hands in their pockets. The Shelburne hoodlums tried hard to intimidate umpire Richards but although
