Why Should I Belong to the WOTU? BY JULIA C TURNBULL Why? Because the sympathy of right man got in. We are looking for every Christian woman is needed in a sides work having for its object the protection of the home. Why? Because in her union there is strength. In union ome in Peterboro on Thursday norn- there is power. The most delicate ing after spending about ten days with threads when sufficiently multiplied her cousin, Miss Bell, of Laufiston will form the strongest cable. Forces when acting singly, says Salter, are utterly impotent, but are, when acting spent part of last week with friends in im combination, resistless in their energies, mighty in power. The home is woman's kingdom, and the Christian Temperance work must begin in the home Society is compared have this to say: gin in the home. Society is composed of households, and the woman reigns in the household. She must therefore rere brought to a close on Sabbath mould society. If woman forms society she must aid in reforming society. The To do this individual effort is not sufficient. Organization is most effectual. "Every wise woman buildeth her house, but the foolish pluckoth it down with her hands." Not only does the wise woman build her house for the present, but for the future. It is not enough to build our own walls, but we must look to the walls of our neighbor. "Think not the Lord will spare thy
