It is rumored that Rev D'C Hossack Who has resigned the pastorate of the Parkdale Presbyterian church is about to abandon the pulpit for politics. De fore entering the ministry Mr. Hossack had some training in law. He is of a fearless turn of mind and affluent and forceful speaker. Mr Hossack's first charge was in the Presbyterian church in Orangeville and of him the Advertiser says. He is, or was, a Littera but is said to have wearied of the Autocratic Arthur Sturgis Hardy and his choice collections of pure politicians and contemplates coming out as a full fledged Conservative and running as Minister of Education in the prospective Whitney Cabinet." The Tiger thinks if this be true that he will have found his sphere and that he will make a first class politician. Men with such talents as Mr Hossack possesses can well be done with in the political arone, but with proper conservation of, and liver cure has an enormous sale in sheart they can as ill be spared from all parts of Canada and the United injured persons are all progressing fine toothsome bunch of it on Saturday

The latest reports from the Philippines show that among the American soldiers there is a heavy sick list and they pave suffered severe losses. In consequence of their hard campaigning the volunteers are greatly debiliated. For two months past no volunteer regiment has had a sick list of less than, 20 per cent. Most of them at present have 25 per cent ill, and a few of the regiments have less than one-third of their number on duty. There is almost constant brushing at some point with the enemy but while the enemy is being repulsed the Americans are losing some of their best men. The redistribution bill passed its third reading in the Dominion House and according to the provisions of the bill three judges were to be impointed to rearrange the Dominion constituencies. These judges have been appointed, viz: Chief Ju ic Sir Geo Burton, Chancellor Sir A Loyd and Justice Falconbridge. Two of these were Conservatives and the third Re-

mer. Referring to the redistribution bill the Weekly Sun says : "We have no feeling on one side or the other, but o us the measure seems a very fair one: Certainly it is a party measure, and a party is not likely to introduce a bill to its own injury, but, as redistribution bills go in Canada, it is open to little objection. Any measure changing the boundaries fixed by the Redistribution boundaries fixed by the Redistribution Act of 1882 gould hardly fail to be of some advantage to the Liberals, but that the Liberals should derive some advantage from the change rises from the unfairness of the act of 4882 rather than from any unfairness in the pending bill. The bill now gods to the Senate where its fate depends upon the action of Sir McKepzie Dowell and his Conservative colleagues. The opinion frows that it will become love.

A Peculiar Punny. There is a strange wild plant in Guadeloupe called the "life plant." If t leaf be broken off and pinned by the tem to the wall of a warm room, each of the angles between the curves of the leaf margin soon throws out a number of very white tentacles, or roots, and soon a tiny new plant begins to sprout, and in the course of a week cr two attains a height of two or three inches. When the old leaf shrivels, the new dant is cut off. and planted. When carefully cultivated, the life plant proluces curious red and yellow blossoms. While the plant is native only in a warm country, there is no doubt that it could be successfully grown in any ree, ouse, and as a plant frenk it certain is as interesting as the everlasting ant of Mexico.—Cincinnati En-
