heart of Africa with a single line of ommunication extending over ery different, and the lines of comminication especially will be a far nore difficult problem According to fach, Mr. J. T. Fairbank, M. P. for and thirty-two drivers. As the plant is iffull, has contributed 50 guineas, and already about £250 has been re- of campaign is not yet fully revealed, An extraordinary affair occurred in what will be the exact plans, routes, a train conveying volunteers to Yar- etc., for the supply, transport and

communication. The general character men wene playing, when one of them, of the scheme has, however, been dea single line of communication through THE RESULT IS OFTEN A LIFE OF Natal to the Transvaul frontier, Dut-Sir Edward Chichester is respon

racks, and are likely to become quag-

mires in the rainy season, which, in Natal, is already upon us. Wagon transports will be by MULE AND TREK-OX. Owing to the rinderpest, these animals are rather scarce in South Africa, and large purchases of mules have been made in Spain, the south of France, Chicago, and elsewhere. Fifteen thousand mules have been requisitioned, and will be used for drawing wagons of American pattern. These vehicles are strongly built, and weigh from sixteen to twenty-two hundred port will be worked in sections of twen-ty wagons. Mules do well on crushed

regimental fransport, will be used on the line of communication. They have only two recommendations: They can find their food on the veldt, and when no longer able to walk or to carry anything you may eat them, as our men did when shut up in Lucknow and the Alumbagh. The disadvantage of this method of transport is its extreme slowness and the liability of the animals to sickness. Great care has to be taken in feeding the oxen, and in regulating their hours of work, Fifteen His You acknowledge that you—er miles is a good day's march, and in the mainy season it is doubtful whether ten miles can be exceeded. Trek-oxen thirteen is an unlucky number.

Eh? You acknowledge that you—er miles is a good day's march, and in the mainy season it is doubtful whether ten miles can be exceeded. Trek-oxen are never inspanned for more than low are the thirteenth man who has
