THE TAXABLE PARTY OF THE PARTY Agricultural

DISTRIBUTION OF SAMPLES SEED GRAIN.

Under instruction of the Hon. Minand most productive sorts of cereals. tral Experimental Farm, Ottawa. The distribution will consist, as heretofore toes. Erch sample will weigh three grounds. The quality of the seed will be of the best. The varieties true to name, and the packages will be sent free to applicants, through the mail. The object in view is the improvement of the character and quality of the grain, etc., grown in Canada, an effort widely appreciated, and the choice of varieties to be sent out will be confined to those which have been found: to succeed well at the Experi-

mental Farms. These samples will, be sent only to those who apply personally, lists of names from societies or individuals cannot be considered. Only one sample of one sprt can be sent to each applicant, hence if an individual receives a sample of oats he cannot also receive one of wheat or barley. Applications should be addressed to the Di rector, of Experimental Farms, Otta wa, and may be sent any time before the 15th of March; after which date the lists will be closed, so that the simples asked for may all be sent out in good time for sowing. Parties writing will please mention the sor of grand they would prefer and should the available stock of the variety named be exhausted, some other good sort will be sent in its, place. Letters may be sent to the Experimental Farm free of postage:

OILING WAGON WHEELS. Oling wagon wheels to preserve the

Canada and England

THE SERVICES CANADA HAS REN DERED FULLY APPRECIATED.

Prominent Brechville Business Man Unhadlan Institution in England. From the Brockville Recorder.

One of the most successful busines men in Brockville, is Mr. Thomas Nappy, the well known Perth street great Mr. Nappy is an Englishman ly birth and the success he has achieved in business here, has enabled im for some years past to make an sumbal hol day trip to the Motherland, friends in the Bunk of Montreal, rel \$25 from the value of the horse. A by bud that if the pills effected many con , under his notice, he was not sur-I'ms dithat they were so frequently of the Recorder to give the story, Mr. Nappy readily consent dato do so, and we give it practirally in his own words. "Don't be suppointed when I tell you that the del not occur in this country,! said Mr. Nappy. "As a matter of fact courred in England, and came under me of servation on the occasion of two sits made to that country. Dur-ing the summer of 1898 I paid a viso my old home in England, and tiere visited William Ledger, on of mine, living at: 45 Fitzwilliste serget, Doncaster, In Ledger's family was a little girl, Lilly, about six wers of age who was absolutely heights with what the doctors said wis " Vitus dance, but really seem ed to see more like paralysis. This child wis of the most pitiful sights I

ever wiw: more helpless than a new born labe. She could not move a single limb and if the head were turned to one side of the other it remained in that ion until someone changed it poor child had to be fed and after like an infant, and as stors had not been able to do ng to relieve her, recovery was bought possible. Indeed, I said he child's grandmother that I thought its early death would be a not only to the child, but to This was the condition the child when I left for Canada

Agair, in the summer of 1899 I made thay trip to England and to my amir ment when I visited my friend Le ger I found Lilly as bright and ac is a child as one would find any when with absolutely no trace of the rouble that had made her a burden the year before. I had never exsee her alive again and bok what had effected her cure He further said that reluming from work one night, he in the house a little book desthe the tills, left during the day,

mer reading it decided to use in lary's case. | After supper he bought some of the pills and gave the first to the child that night. In few days they saw they were helpher and in less than two months time here was not a child in the neighbo hood, brighter, healthier or more scrive. I have heard a great feel concerning what Dr., Williams Pak Pills have done in this country, but this case coming under my own observation is as near a miracle as "" "In look for in these days, and shows why Dr. Williams' Pink Pills much talked about every-

Dr. Williams' Pink Pills are just as valuable in the case of children as with adults, and puny little ones weuld soon thrive and grow fat un-der this treatment, which has no count for building up the blood and giving, renewed strength to brain, body and nerves. Sola by all dealers or sent post paid at 50c. a box or six to \$2.50, by addressing the Dr. ms' Medicine Co.; Brockville, Do no be persuaded to try som thing else said to be "just as

felloes and prevent the tires from becoming loose has been practiced by many for a long time. It is better as a preventive than a cure for loose tires. Stop the swelling and shrinking of the felloes, the rusting of the underside of the tire next the felloe by a coating of oil. Fill the tenons of the spokes also with the hot oil and ster of Agriculture another distribu you have at least doubled the life of tion of sample packages of the best your wheel. If it is well done; a tire will never have to be reset. The tenons etc., is now being made from the Cent of the spokes cannot swell and split the felloes. The m.stake made is that people do not begin with their wheels of samples, of oats, spring wheat, bar sound. Have it well dried out, give goes up. But, curiously, there is a throat soon lessened and the masal gallon. Devote at least one hour to the reason being that when the moing will remain upon the surface. A portion of this will gradually be absorved into the wood and the remainder will dry hard upon the surface. The oil should not boil, but must be quite hot-hot enough to expand the

CULTURE OF VIOLETS.

grown entirely from cuttings. Young "boulets." offshoots' taken early in the spring give the most satisfactory results. In some cases the old plants are allowed watched. Dead leaves and runners with each meal." should be taken off and the plant made to contract, each forming a bushy ed, these plants should cover the enground. By Oct. 1, they begin to blossom. At first the flowers are go back to the ones we were engaged very small and consequently of lit- to before, Pays a leibute to the Good Work of a tle or no value and are thrown away. By Oct. 15, they are sufficiently large, however, to send to market.

CUTTING FORELOCKS.

cutting forelocks is becoming a great nuisance. It is foolish because it does not add to the looks of the horse, and

Igned to be mentioned and Mr. Nap- large number of the best horses in this country, are bought for export. cures as marvellous as one that had and there can be no greater "crab" for a good export, horse than to have sentation was caused in this place and fis forelock cut off. This practice should be stopped, as to his cure. There seems to be a and dealers who buy in the country univer al surprise that Dodd's Kidney should try to educate the people to the Pills should be able to cure a trouble fact that this ruins the sile of the like Gravel, which is situated in the horse. This can only be done in one Bladder. Therefore the following exway, and that is to buy the horse for planation is in order. less money, as he brings less on the Gravel is directly the result of kid-market with his forelock dff, and if ney disorder. It is caused by the failthe producer finds he cannot sell his ure on the part of the kidneys to do soon quit this nuisance.

THE FOWLS IN WINTER.

Keep your nesting and scratching material and your bathing dust perfectly dry. Supply fresh material as supply of this sediment and the bladsoon as needed. Have the dust box der and urinary organs, recovering wide and deep enough.

Put all table scraps, vegetable parings, meat scraps, etc., in a kettle, place on the stove, while cooking supper with enough water or broth to keep from stone which, he says, is as large as burning. Leave on the stove until a bean. In a few days he passed anrather warm in the morning, thicken of her smaller one. He has relained with wheat bran until it is crumbly, both and many people of the neighthen feed in troughs. Give all they borhood have seen them. There will eat up quickly, then set them to therefore, no room to doubt that scratching for grain that has been Dodd's Kidney Pills do actually cure raked into their litter.

Give milk or water to them warm. Pepper is a good thing for laying hens if fed judiciously; too much will result in harm.

If no other way presents itself, buy rabbits of your neighbor's boys and chop them fine with the ax, after removing skin and entrails. Feed. all they will eat at one meal twice per

Dr. Williams, Pink Pills," said the DIFFICULTIES OF ARTILLERYMEN deley which he had to absent minded. Although many wonderful rangefinders have recently been invented, was helping them to fish from a they cannot always be trusted, and platter, he took a plate bottom side the gunners have often to trust to up, put a fish on the bottom of the

their judgment of the distance. But the same distance seems different under different circumstances. When the sun is at your back things you are serging people food on the botseem nearer than they are; when it is in your eyes they seem farther. resigning your professorship. She did Looking over level ground, water, or insist on it, and he resigned and went snow, they been much nearer than into another and more general field of when looking over broken ground. In teaching. He is still a little inclined misty weather and in the dusk of to be forgetful — like some of the rest evening they seem both larger and of us—but he has never since served farther than they really are.

Here are some of the distances at which certain objects can be seen with good eyesight, as meas-ured by the military authorities. On an ordinary clear day you can distinguish:

Roof-tiles ct 250 yards. Window-panes at 500 yards. Single-posts at 1,170 yards Chimneys at 3,500 to 4,000 yards, or 2 to 21-2 miles. Men's features at 200 yards.

Soldiers' head-dress at 600 yards. Movement of legs and arms at 1,000. A good artilleryman ought to be able to judge accurately how far any of these things are up to 4,000 yards. HAVE YOU TASTED

CEYLON GREEN TEA? It's far more delicious than Japan. Sold only in Lead Packets.

WHEN BULLETS FALL. Falling bullets kill many men, even when they are lying sheltered behind Catarrhozone will produce a positive trenches. If a bullet is fired in the cure for Catarrh. After using it in time. Treat the wheel while it is air it falls with as much force as it sound. Have it well dried out, give goes up. But conjugate there is the disagreeable dropping in the Use the best boiled linseed oil, with certain limit of height, beyond which passages became tolerably free and the about one-half pint liquid drier to the a bullet gains no more falling force; breath became less disagregable. Cata wheel. The o.l should be kept up tion is very rapid the resistance of the hands of many affected dnes." Catslower the wheel is revoluted the more air balances the attraction of gravity. | arrh-o-zone is a guaranteel cure for oil will get under the tire where it is In the siege of Sebastopol-and, in fact, Catarrh and Asthma. Sold everymost needed. Iwo revolutions of the during every campaign—a great many wheel is about right. Revolving slow-ly heats the wood through. This the terrific force with which they come drives out any moisture, the pores down is shown by a case in which the readily drink their till of hot oil, and builet entered the shoulder of a cavond revolution some of the last coat-body, and penetrated several inches into his horse's back.

A curious instance occurred not long ago in India. While a native was cleaning boots in the open air, he was seen to drop dead without a cry. On tire so that the oil will get under it let had entered the top of his head No shot had been heard, and the person who fire it must have been a very long way off. The French reverse our names, and while they call rifle-Violets to the successful must be bullets "balles," they call cannon-balls

WE NEED MORE GRIT.

In a paper read before the Society to remain year after year, but this is for the Promotion of Health, we are American publics a Ceylon Green Tea unsatisfactory, as each year's crop assured that pure sand is recommend, which is meeting with great favor shows a decrease in the number and ed to dyspeptics. The article says: from Japan Tea drinkers. It is simisize of the flowers.
