### Walters Falls

A number of our citizens celebrated the 12th in Renora, Thornbury and Dundalk.

What might have resulted in a serious accident happened at Mr. John Sunde's place, 18th Line, Holland, on Wednesday afternoon last. While raising an addition to his barn, in some way, part of the frame work came back and fell to the ground, nearly catching a number of the men. As it was, Mr. John Sutherland, jr. got his hip hurt, and another man, we understand, was on the framework when it came down and had his ear badly cut. The great wonder is that a number of the men were not killed. It will be quite a loss to Mr. Sutherland as the timber was broken up badly so that it will be necessary to get out new timber.

### Eugenia

July 17—A few days ago some farmers were saying that early sown oats would be short in the straw but if we had a good heavy rain the later oats would be both longer in straw and a heavier crop; now we have got the needed rain and all will be well.

It was an Albert chain that was presented to Mr. Hogg, not an album as in your last issue.

We had not such a large crowd on the 12th as was expected. It seems some of the lodges had divided and part went to one place and part to an other. We are sorry that divisions should get into Loyal Orange Lodges. In all such organizations we think the minority should give in cheerfully to the majority. There was a good many however favored Eugenia with their presence. McKee's lodge from the 4th was the only one who came as a lodge. Our local lodge is now strong and can make a good turn-out alone, and taking all together there was a good crowd and all went well except an accident which happened to a 12 year old girl of Mr. James Fisher. She was going to ride home in Mr. Walter Simmons' democrat and was seated with two other girls on the back seat and when the team started the seat toppled back and all three were thrown out. The others escaped with slight bruises but Miss Fisher was seriously injured and remained unconscious for some time, but we are glad to say she is mending. The girl was taken to the hotel where she was carefully attended to. She is now under the care of Dr. Carter. Mr. Simmons is a careful man and cannot understand how the seat became loose, unless some one in mischief took off one of the nuts. The provision made by Mr. Munnshaw and the ladies of the two churches was ample and we under-
