Every line of goods represented

in this space must be cleared out

during the present month. To do

this nearly all prices have been

cut in half—some are even less—

tunity that has come your way in

a long time. Our only excuse

for price-cutting is this:—We

positively will not carry the goods

over for another season's selling.

We would much rather sacrifice

them now and give customers an

opportunity of utilizing them for

the present season's wearing.

Remnants of every conceiv-
