CLOTHES REBATE.

The Aberdeen tennis club surprised themselves, their admirers, and last but not least, the association from the city north of us, by administering to them a defeat so complete that it had to be seen to be fully appreciated. With the recollection, scarcely a week old, of a defeat of fourteen to four, and the team weakened by substituting a junior for a senior, the latter recently referred to by a contemporary as our "famous point player," it was no wonder they felt a little shaky when they faced a team that had all the air and appearance of winners, though subsequent events proved that the wisest of us is liable to be mistaken.

The excursion train bearing the team and excursionists arrived about four o'clock and brought about two hundred who immediately proceeded to take in the town in a way that Mark Twain could so humorously portray. A number of ladies were among the visitors, and added to the abundant supply of charm and beauty Markdale possesses.

At five-thirty an immense crowd had gathered on the grounds and the teams lined up for play. Dr. Muhan, of Durham, was in possession of the whistle and made a fair and impartial referee. The game all through was remarkably free of disputes, and only two players came under the displeasure of the referee, one belonging to each team, and though all agreed the game was a hard-fought one, they were also agreed it was fought out strictly along the line of lacrosse principles. When the ball was faced and the game commenced it was some minutes before a guess could be hazarded, but gradually the ball crept up to the visitors' flags, and by a brilliant piece of combination George Dundas secured the ball and tallied a goal. There was a look of consternation on the faces of the Owen Sounders, but they unanimously concluded it was an accident and looked for better things. Play was resumed, but the ball still appeared to have a liking for the same flags and continued to linger until again it was put in. There was now only one reason why the Aberdeens would not win. They were faster and more accurate, both in shooting and catching, but could they stand the pace? Their defeat at Durham did not create any desire for practice, and the Markdale crowd still had their doubts. The first quarter was decided without another score.

The second quarter was characterized by hard, close playing on the part of both teams, with honors about even, everyone having a share of the rubber; and both teams succeeded in tallying one. This being the first for Owen Sound it had the effect of making them feel a great deal better. The third quarter continued in a like manner, both teams playing their hardest, but neither being able to score. The ball was mostly in the neighborhood of the U.S. flags, but shot after shot was stopped before reaching the net.

The fourth and last quarter was exciting in the extreme. The Aberdeens lagged, so much so that Owen Sound by a pretty piece of combination passed the ball up the field and while the goal keeper was out, temporarily, a second goal was tallied. This made the score three-two, and it immediately dawned on the Aberdeens they were not quite safe and had to do a little more playing. The result was that three more goals were added to the home team's score in rapid succession, one by Doc Campbell, one by Milner and one by Harold Hill. Harold has just entered the ranks of seniors and when he scored was given an ovation. The game belonged entirely to the Aberdeens during the last fifteen minutes and they amazed everyone by their powers of endurance. The referee's decision was six goals to two in favor of the Aberdeens.

During the first intermission a dispute occurred between two of the players regarding a heavy check in the field, which caused a general stampede in their direction. It took some minutes to restore order, quite a number taking part in the disturbance. This was independent of the lacrosse game and was entirely attributable to the gang of "rotters" that arrived on the special. A number of them were especially impudent and it attest to the tolerance of the Markdale people that they were allowed to go unnoticed. This disturbance only lasted about five minutes, being promptly quelled by the constables and citizens. Both lacrosse teams took particular care to disclaim any connection with the affair and none regretted it more than they.

There is no doubt the landing of the pennant will be between Markdale and Durham, and if the Aberdeens would get into condition they would win in a walk. The players are all strong individually and can play combination to a finish. Campbell, G. Dimmick, Miller and G. Armstrong displayed their old time ability. Hodgson made his first appearance and played a star camp. Gibbons and Blackstock are in a whole team in themselves. C. Allen, E. Macmillan, and Hill showed up prominently, and will be missed the next time we play.
