### NOTES.

Captain Nissin, of Chicago, and his  
boat the "Fool-killer" is at Niagara  
Falls, and intends to make another trip  
through the whirlpool rapids about the  
21st.

The largest grain elevator in the  
world, capacity 4,000,000 bushels, is to  
be built at Weehawken, N. J., for the  
New York Central and Hudson River  
Railroad.

An exhibition game of lacrosse was  
played in Owen Sound on Friday last  
between the team of that town and the  
Daundless, of Shelburne, and resulted  
in a victory for Shelburne by 5 goals  
to 3.

An Indian Fall Fair is to be held at  
Cane Croker, this fall. The articles for  
exhibition will be purely Indian manu-  
facture and a large array of Indian  
relics will be exhibited. It will be  
quite an interesting show.

The launching of the new steamer,  
Huronic, the first of a series of large  
vessels to be built at Collingwood Harbor,  
took place Friday in the presence of  
a large crowd, and later the keel of  
another boat was laid. A luncheon  
was served and speeches were made by  
Hon. J. Israel Tarte and Mr. F. H.  
Clercue and others.

A third attempt to secure oil at  
Heworth has begun, the drilling  
plant having been set to work on the  
Thorn farm, west of the village. Mr.  
Rowe, the manager of the local syndicate,  
has great faith in the project. The  
two wells already sunk have re-  
sulted in a considerable flow of gas,  
which is being laid on for fuel purposes  
in the grist mill and planing factory.  
The Standard Oil Company drilled a  
well at Park Head, but allowed no  
details of the result to leak out. The  
Owen Sound Cement Company put  
down a well at the works at Shallow  
Lake, and struck a small flow of gas,  
not sufficient for fuel purposes, and  
made no further attempt. Another well  
was drilled on the farm of Mr. Morri-  
son, of Royston Park, near Owen  
Sound, who succeeded in interesting a  
few of its citizens in the venture. A  
small flow of gas was the only result  
here also, and nothing further has  
been done. There is a sort of floating  
belief among experts that oil is to be  
found somewhere in the district.

### Cement Notes.

Mr. Walker completed his contract  
for crushing 700 yards of stone.

The work on the railway grading is  
progressing rapidly, and the ties and  
rails may soon be laid.

A number of 2½ foot tiles were de-  
livered on the grounds the latter part  
of last week.

Cement blocks are still being made  
at the rate of 150 per day. Everyone  
thinks them an A 1 building material.

The sand here seems to have some  
peculiarity which makes it better than  
hitherto used for the manufacture of  
blocks.

A meeting of the Directors is held  
in Toronto this week—Durham  
Chronicle.

Died.—At the home of her son-in-law, Mr. James Watson, Cheboygan, Mich., on Sept. 13th, Mrs. David Henderson, aged 81 years. The remains were brought here for interment.

The funeral took place from the Methodist church Sunday morning at 10:30. Mrs. Henderson has been a resident of the O.D.E. for nearly forty years. Mrs. J. Watson, of Cheboygan, and Mrs. George Moore, of Ingersoll, attended the funeral of their mother Sunday morning.

### Berkeley

Owing to the heavy rain on Thursday evening last week the attendance at the lecture and concert in the Foresters Hall was not as large as it would have otherwise been, however, a very enjoyable evening was spent. Mr. John Lyons, of Markdale, occupied the chair. The Rev. Frank G. Foster, of Toronto, delivered his lecture on Ireland in his usual vigorous style. Mr. W. G. Logan was unable to be present, owing to the serious illness of one of his children. The musical part of the program was in the hands of Miss Nora Drinkwater and was attended to in a most acceptable manner. Miss Jones, of Chicago, gave a recitation which was well received.

Since my last letter one more has been added to our population, Mrs. Thomas Rows having presented her husband with a young son.
