THE MARKETS

Prices of Grain, Cattle, etc in Trade Centres.

Toronto, Feb. 4.—Wheat—Market was firmer to-day, with more enquiry. Fifty-eight D., white and red, quoted at 74 to 75c, middle freight. No. 1 spring at 72c east, and No. 1 goose at 67c east, freight to 30c g.i.t. Sarnia, No. 1 Manitoba hard, nominal at 78c. No. 1 Northern sold at 83c North Bay, and 84c Sarnia; No. 2 Northern quoted at 81c Sarnia.

Barley—Market quiet and steady. No. 1 quoted at 56c, and No. 2 at 53c; No. 3 extra at 51c, and No. 3 at 50c, middle freight.

Flour—The market is quiet, and prices are nominal at 55 to 55c, middle freight.

Butter—Market unchanged. Car lots, on track, \$5.25 in bags, and \$5.40 in wood. Broken lots, 25c per lb extra.

Potatoes—The demand for potatoes is limited, and prices easy. Cars are quoted at 60 to 63c per bag, on track here, and the jobbing price, 75c.

Dried Apples—Market is dull. Choice are worth 6c per lb. Evaporated sold at 9 to 10c.

Hops—Business quiet, with prices steady at 13c yearlings, 8c.

Honey—The market is steady at 9 1/2 to 10c, for strained. Combs, \$1.50 to \$2.25 per dozen.

Beans—The market is quiet, with fair offerings. Prime mediums, \$1.35 to \$1.40; hand-picked, \$1.55 to \$1.60.

Crabapples—Market unchanged, with stocks small. Cape Cod at \$0.50 to \$1.00 per bbl.

Hay, baled—The market is steady, with good demand. Timothy quoted at \$9.75 to \$10 on track for No. 1, and \$8 to \$8.50 for No. 2.

CATTLE MARKET

Toronto, Feb. 4.—The run was light at the Cattle Market to-day.

Business on the whole was fair to brisk for anything of choice quality. While there was enough of the medium qualities on hand, there was not enough of the better quality to supply the demand.

Some choice export cattle to-day fetched \$5.97 1/2 and more of the same kind would have found a ready market. Choice butcher cattle were also selling well, picked lots at \$4.40.

There was a fair market for heavy feeders, but not many offerings. Stockers are fairly steady. Heavy bulls for export are selling at \$4 to \$4.25.

Good year calves are wanted, and heavy export lambs and sheep are in good demand. Hogs are weak, dropping an eighth again to-day, with prospects lower. The run was 45 loads, with 794 head of cattle, 386 sheep and lambs, 345 hogs, and 15 calves.

Export cattle, light cwt., .. \$4.25 \$4.50 Bulls, export, heavy, cwt., .. 3.65 4.25 Bulls, export, light cwt. 3.00 3.25

Feeder, heavy, .. 4.00 4.25 Feeder, light, .. 2.50 2.75 Stockers, 400 to 800 lbs., .. 2.40 2.74

Butchers' cattle, choice 3.75 4.00 Butchers' cattle, good, 3.60 3.75 Butchers', common, .. 2.75 3.00

Butchers' picked, .. 4.00 4.25 do off-colors and heifers, .. 2.00 2.50 Butchers' bulls, .. 2.50 3.00

Light stock bulls, cwt., 2.00 2.50 Milch cows, .. 30.00 55.00 Sheep, export ewes, cwt., .. 3.00 3.50

do bucks, .. 2.00 2.50 Sheep, butchers', each, 2.00 3.00 Lambs, cwt., .. 3.50 4.00

Hogs, best, .. 6.00 do light, .. 5.75 do fat, .. 5.75

Enormously Rich Discovery in the Klondike. A Victoria, B.C., despatch says:—News has been received here from the Klondike of a rich mining discovery in Indian River, a tributary of the Klondike.

This river and its tributary creeks were very thoroughly prospected for gold in the early days of the Klondike rush, and many owners of claims got fair returns. Some miners who had worked in the South African gold fields were struck with its similarity to the rich 'blanks' deposits of the Rand.

Subsequent examinations showed that the ore ran from \$1 to \$200 a ton. John Hepburn, an experienced miner of British Columbia, satisfied himself to the extent and value of the deposits, and then secured options on 432 claims of the 180 that had been staked.

He is now on his way to London to interest capital in developing his properties. He asserts that one of his claims will yield \$64,000,000 in gold. The conglomerate deposit, so far as located, is eight miles long, with a width of one quarter to four miles. Its thickness is unknown, as no sinking has been made.

THE ONTARIO LEGISLATURE

WHAT OUR MEMBERS ARE DOING AT TORONTO.

MR. BARR WANTS TO KNOW. Mr. Barr moved for a return showing the names of all license commissioners, and the name, salary, and the amount allowed to him for expenses in 1901, of every license inspector in the province.

He pointed out that in the public accounts were at present printed these facts could not be ascertained. Mr. Stratton pointed out that as the license year ended on April 30th, the return could only be given for the year ending April 30th, 1901.

Mr. Barr consented and the motion carried. SALES OF TIMBER. Mr. Jessop moved for a return showing what is the area, in acres, of timber sold by the Government since 1871, and the amount received therefrom; also, what sales have taken place during the last five years; to whom sold, and the amount received from such sales.

He pointed out that figures of the sales for the period up to 1892 were to be found in the public records; since that time, however, they were not on record, and he had no objection to granting the return, which would be prepared as soon as possible, considering the nature of the work.

CONTRIBUTIONS TO ASYLUMS. Hon. Mr. Stratton brought down a return granted on motion of Mr. Hoyle, showing that during 1901, the sum of \$65,505 was paid by private individuals for the maintenance of insane; the amount received for clothing them was \$13,184, and the amount paid by the inspectors of the Toronto General Trust Company was \$23,121; the total reaching \$101,811.

TO INSPECT VOLUNTARY SCHOOLS. Mr. Hill, of West York, will reintroduce his measure relating to voluntary schools, which was shelved last year. It provides that when requested to do so, public school inspectors, private inspect voluntary schools, shall inspect voluntary schools, private schools, and incorporated seminaries in general.

It is requested that there shall be an average attendance of 20, and that the teachers' certificates shall have been issued by the Education Department. OWNERSHIP OF GAS PLANTS. Public ownership is coming more and more to the front in the legislation introduced. Mr. Carscallen, of Hamilton, has a bill in hand to amend the Municipal Act, which will provide that towns of more than five thousand population can issue debentures, extending over 30 years in purchasing gas plants.

As the law now stands 20-year debentures are allowed for towns of more than five thousand, while those under that number have the right to issue 30-year debentures. The amendment passes then all can issue 30-year debentures.

RAILWAY BILLS PASSED. The Railway Committee of the Legislature took up the bill of the Morrisburg Electric Railway Company, which proposes to connect Morrisburg and Winchester in Dundas County and construct branch lines. The company also asked the right to construct and operate telegraph lines, electric power, and lighting plants along the line, and to acquire or erect hotels, sanitariums, and steamships in connection with the railway.

The main provisions of the bill were adopted, but the latter clauses were changed. Mr. Barber made a protest against permitting telephone companies to spring up all over the country. Mr. Connee, Dr. McKay, and Mr. Pardee thought the public should have the convenience of using the companies' lines. The clause relating to telephones was amended so as to prevent the company from selling its service to private parties, or charging for the use of its telephones. The clause relating to steamers was struck out, and that relating to hotels amended by making them subject to the regulations of the Public Health Act.

The Pembroke Southern Railway Company asked power to extend its line from Pembroke to Golden Lake through Westmeath and Ross Townships to the Ottawa River, and to amalgamate or enter into running arrangements with the Toronto, Lindsay and Pembroke Railway Company, and the Ontario and Pacific Junction Railway Company, or any other railway company. The bill was made specific mention of the lines they desire to amalgamate with.

AFTER GOVERNMENT AID. Mr. Munro, M.P.P., and Mr. Loughrin, M.P.P., introduced a deputation from Pembroke and Westmeath, asking for aid for a 15-mile extension of the Pembroke and Southern Railway from Pembroke to the Ottawa River. They wanted \$4,000 a mile. The Premier promised consideration. Messrs. Hugh Blair, Hon. S. C. Wood, W. G. McWilliams, and John Platt waited on the Government to ask an extension of the time for commencing and completing the proposed railway from Georgian Bay to Toronto.

The Premier and Hon. Mr. Letchford were waited upon by Reeve Favett, of Wolfe Island, and H. J. Wolfe of Toronto, asking that the municipality of Wolfe Island be allowed to devote any money due it under the Road Act to the improvement of the ferry service between the Island and Kingston, the nearest market.

Speaker Evanturel has received a petition signed by many hundreds of people in Prescott and Russell counties, urging the Government to assist in food preventative measures. WOMAN'S RESIDENCE. Hon. Mr. Harcourt will introduce a bill relating to the Toronto University, permitting the erection of a woman's residence on the property of the university. Mr. Harcourt states

Telegraphic Briefs From All Over the Globe.

CANADA. London's Normal School is crowded by trains. Sault Ste. Marie needs a new High school. Kingston may have a new \$150,000 summer hotel. Shipments of bituminous coal from Canada to Europe have proved successful.

Andrew Carnegie's offer of a public library to Sault Ste. Marie is likely to be accepted. Ottawa City Council has adopted a resolution in favor of abolishing the property qualification of aldermen. The railway works being built at Hochelaga, near Montreal, by the C.P.R., will be the largest in the world.

In the eleven months ending November 30th, there were 127 deaths, 70 births and 99 marriages in the Yukon. Twenty-three moose have been killed by trains this season between Minnetakias and Flat Portage, a distance of 70 miles. Muskrats are unusually numerous in Ponaka, this season. One merchant alone has purchased over 8,000 skins this season.

The six or eight military staff clerks in the Militia Department are to wear the uniform of the army service corps. The uniform will be made after the British pattern. The old Montreal office of the C. T. R. may be turned into an immense Railway Men's Christian Association headquarters, with lodgings and boarding accommodation. The Coast Yukon Railway will seek authority to construct a line from Kitimert Inlet, Douglas Channel, to a point on the Ottawa River, thence by the most feasible route to Dawson.

The official invitation to the King's coronation is to the Premier and the Imperial Privy Councillors in Canada, which is strictly interpreted means Sir Wilfrid Laurier and Chief Justice Sir Henry Strong. GREAT BRITAIN. The British Government may buy the dockyards at Barrow. In the proposed English freight pool 177 steamers are involved. Mr. Carnegie will establish a \$50,000 library at Skibo Castle. Another large turbine steamer has been ordered by the British navy. England will not allow Russia to obtain a port on the Persian Gulf. Tobacco companies of England are rapidly combining to boycott American trade.

The London medical fraternity is investigating the cause and treatment of cancer. The Disley meeting of the National Rifle Association is fixed from July 14th to the 26th. The new mayor of Sligo has pledged himself to take part in the coronation festivities. Walter H. Wilson has retired from the directorate of Messrs. Harland & Wolff, the great Belfast shipbuilding firm. An American company is refused a 99 years' lease of property in London on which to erect a \$2,000,000 office building. In England there is an agitation for the establishment of safeguards against national starvation in the event of war with some great power. It is reported that the design of the new postage stamps, recently issued in Great Britain is highly in several respects, and another issue will be made. Dr. E. R. L. Gould, eldest son of J. T. Gould, Ottawa, has been appointed to the position of City Chamberlain of New York by Mayor Low, in whose interests he has zealously worked in the recent campaign. The position is worth \$25,000 a year.

UNITED STATES. A gold mine has been discovered near Prairie du Chien, Wis. A good vein has been discovered under the city hall at Denver, Col. H. C. Frick, steel magnate, will erect a \$5,000,000 hotel in Pittsburgh, Pa. Mrs. Winifred, the oldest woman in Montana, died at Helena, aged 104 years. In Manchester, N.H., a dog stopped a runaway horse by catching the reins in his mouth. U. S. revenues will be reduced \$35,000,000 a year by reducing war taxes on fat and beer. Union and non-union neighbors at Omaha had a terrific fight and many were badly hurt. Clem Dichter has been sentenced to life imprisonment at Louisville for murdering his daughter. G. S. Dexter, aged 68, died at Fairbury, Ill., without having taken a drink of water for 40 years. Two thousand Indians on the Oneida reservation, Wisconsin, are in danger of a smallpox epidemic. Samuel Mather, of Cleveland, who has given thousands to the Lakeside Hospital of that city, has offered another donation of \$40,000. Chicago anarchists are becoming restless over the coming visit of Prince Henry of Germany, and are making bitter attacks on royalty. At the St. Louis Exposition the buildings will have an aggregate floor space of 200 acres, and the grounds a total area of 1,000 acres. A bill in Congress provides the death penalty for an attempt to kidnap or assault the President of anyone in line of succession for the Presidency.

AT PITTSBURGH, Pa., Wm. G. Lenn died for grief of his son, Frank G. Lenn, the bicyclist, who was killed by the Kurds in Asiatic Turkey in 1894. Miss Vivian Sartoris, the beautiful granddaughter of General U.S. Grant, has decided to retire from the social world and devote herself to art and music. GENERAL. Uganda is to build a cathedral. Emperor William will visit Russia next July. Paris will spend \$60,000,000 to improve itself. China takes no steps to suppress murder of missionaries. In India there are rumors of trouble in Afghanistan. A revolution in Spain is predicted when King Alfonso is crowned. Ten prisoners were killed and 13 wounded in a riot at Alsodacs, Hungary. The Russian Government is petitioned to open all universities to women. The Notre Dame Cathedral, Paris, is now heated throughout and electrified. The American Tobacco Company has absorbed four of the large cigarette factories of Germany. At Chilpancingo, Mexico, 614 houses, not including public buildings, have been destroyed by earthquakes. It is reported that the Shah will visit the French capital on his return from the coronation of King Edward. It is the opinion at Cape Town that Cecil Rhodes is certain to receive a call as Premier of the colony in the near future.

BIDDLE BROTHERS ESCAPE. Both Were Under Sentences of Death at Pittsburgh. A Pittsburgh, Pa., despatch says:—Edward and John Biddle, under sentence of death for murder, overpowered the guards at an early hour Thursday morning and escaped. With saws provided by some outside friends, who also furnished them with revolvers, they cut the bars, and were ready at any moment to make their way through the stone wall. The two men occupied adjoining cells and planned the affair jointly. Shortly before four o'clock one of the Biddles called to James McGeary, who had charge of the outside gates, and asked for some cramp medicine in a hurry, saying his brother was dangerously sick. McGeary hastened to the cell with the medicine when John Biddle sprang through the opening in the wall, pulled him over the railing to the stone floor beneath, a distance of sixteen feet. Edward Biddle joined his brother immediately and both, with drawn revolvers, hurried to the first floor, where they met Guard Reynolds and shot him.

THREE MEN ON DUTY. They were but three men on duty and the third was on one of the upper hinges. He was ordered down at the point of the revolvers, and the three guards were put in the dungeon. The keys were taken from Keeper McGeary and the two desperate prisoners had a clear field. The only person who witnessed the escape were prisoners who could not interfere or give an alarm. The prisoners went to the ward-robe where the guards keep their clothing, and each put on a new suit. They then unlocked the outside gates and passed out into the street. The escape was not discovered until the daylight guards came on duty at six o'clock. They were informed by prisoners where the night guards had been put and they were soon released from the dungeon and sent to the hospital.

THE ROMANCE OF IT. The escape of the Biddles was subsequently explained in a statement issued by Warden Peter K. Soffel. The warden asserts that his wife is responsible for the furnishing of the revolvers and saws to the Biddles, which enabled them to escape. In his infatuation for Edward Biddle, she alleged that she has left her husband and her four children, and, as he supposed, is to meet the escaped convicts at a place agreed upon. The history of the matter is brief. Mrs. Soffel was the only person admitted to the jail since last Sunday, Wednesday afternoon. She visited them during the warden's absence Thursday evening she rifled at 9 o'clock. She told her husband that she was going to visit a sister at McDonald, and that she would return early so that she could get an early start. Warden Soffel was about to fill his own room, which is separate from Mrs. Soffel's shortly before the clock. When he awoke this morning he asked for Mrs. Soffel, and was informed that she was absent. Later, when the details of the escape became known, he telephoned to McDonald, and was informed that Mrs. Soffel was not there. Warden Soffel immediately made a frank confession of his suspicions. The two guards injured will probably recover.

LATER. A reward of \$5,000 has been offered for the recapture of the Biddle murderers. No trace has been found of Mrs. Soffel. An investigation disclosed the fact that she had taken all of her best clothes with her. It has been known for several weeks that Mrs. Soffel was taking an interest in the Biddles and it is said that she frequently furnished them with faints outside their usual prison fare. It is reported that the Biddles took a train at the Fourth avenue station of the Panhandle Railroad, which is within a block of the jail, and left for the west.

NEW ELDORADO.

Enormously Rich Discovery in the Klondike.

A Victoria, B.C., despatch says:—News has been received here from the Klondike of a rich mining discovery in Indian River, a tributary of the Klondike. This river and its tributary creeks were very thoroughly prospected for gold in the early days of the Klondike rush, and many owners of claims got fair returns.

Some miners who had worked in the South African gold fields were struck with its similarity to the rich 'blanks' deposits of the Rand. Subsequent examinations showed that the ore ran from \$1 to \$200 a ton. John Hepburn, an experienced miner of British Columbia, satisfied himself to the extent and value of the deposits, and then secured options on 432 claims of the 180 that had been staked.

He is now on his way to London to interest capital in developing his properties. He asserts that one of his claims will yield \$64,000,000 in gold. The conglomerate deposit, so far as located, is eight miles long, with a width of one quarter to four miles. Its thickness is unknown, as no sinking has been made.

The new Eldorado is twenty-eight miles from Dawson, the Klondike capital. A wagon road traverses the Indian River Valley. This wagon road will be replaced by a railroad during the coming summer, all arrangements for which are in the hands of E. C. Hawkins, who was one of the builders of the White Pass and Yukon Railway.

ANOTHER DISCOVERY. No little excitement exists here, in New Westminster, and near the Town of Sumas, B.C., over the alleged discovery of alluvial gold in considerable quantities near Sumas, which is situated a few miles from the international boundary line, and 50 miles from Vancouver. An old Klondike miner named William Davis made the first discovery while sinking a hole for staking a quartz claim. In the bottom of the hole he states that he found a number of nuggets, and also found other traces of gold in the vicinity. The find is supposed to be in the former bed of the Fraser River.

Claims were immediately staked in the vicinity of the find and many Vancouver people, business men as well as miners, are staking more claims as near the original as possible. On the mountain side near by free milling gold quartz has been found worth, it is claimed, \$500 to the ton. This find, too, is attracting large numbers of people armed with mining stakes. Experts have hastened to Sumas to ascertain precisely the value of the alleged discovery.

HOSPITAL QUARANTINED. Smallpox Spreads to Notre Dame in Montreal. A Montreal despatch says:—Smallpox of a mild type is apparently spreading very fast in Montreal, and many new cases have been reported. A peculiar incident in connection with the epidemic is the quarantining of the Notre Dame Hospital, owing to one of the servants being attacked with the disease. The institution is one of the largest hospitals in Montreal, and the quarantine means that until February 12th, the 200 men, women and children who are within the walls of the hospital will have to remain there, and that the only communication they will have with the outside world will be through the telephone.

NEW SUBMARINE BOAT. Thirty Feet Long and Have Several New Features. A Barrow despatch says:—Vickers, Sons and Maxim have contracted with the Government for the construction of a new type of submarine boat. It will be 30 feet longer than the other boats built by the firm, and will have several novel features.

Boer Leader Trying to Break Surrounding Gordon. A despatch from Pretoria says:—Gen. Bruce Hamilton's march has resulted in 112 of the enemy being accounted for, including five who were killed. About ten of the number surrendered. Twelve were driven into the constabulary line at Valburg Spruit. When first surprised between Bethel and Ermelo the Boers fled. Later they split into two bodies. Gen. Hamilton chased both. One went to the main laager, which was captured. In the northern part of the Orange River Colony Col. Garret has had several fights, killing a few Boers. The burghers always cleared out in front of him. Gen. De Wet is being kept in unwilling activity. At present he is arranging combinations against particular spots in Bloemfontein, which now nearly surround his lines, and of operations.

KEEPING DE WET ON THE RUN. Boer Leader Trying to Break Surrounding Gordon. A despatch from Pretoria says:—Gen. Bruce Hamilton's march has resulted in 112 of the enemy being accounted for, including five who were killed. About ten of the number surrendered. Twelve were driven into the constabulary line at Valburg Spruit. When first surprised between Bethel and Ermelo the Boers fled. Later they split into two bodies. Gen. Hamilton chased both. Emperor William will visit Russia next July. Paris will spend \$60,000,000 to improve itself. China takes no steps to suppress murder of missionaries. In India there are rumors of trouble in Afghanistan. A revolution in Spain is predicted when King Alfonso is crowned. Ten prisoners were killed and 13 wounded in a riot at Alsodacs, Hungary. The Russian Government is petitioned to open all universities to women. The Notre Dame Cathedral, Paris, is now heated throughout and electrified. The American Tobacco Company has absorbed four of the large cigarette factories of Germany. At Chilpancingo, Mexico, 614 houses, not including public buildings, have been destroyed by earthquakes. It is reported that the Shah will visit the French capital on his return from the coronation of King Edward. It is the opinion at Cape Town that Cecil Rhodes is certain to receive a call as Premier of the colony in the near future.

BIDDLE BROTHERS ESCAPE. Both Were Under Sentences of Death at Pittsburgh. A Pittsburgh, Pa., despatch says:—Edward and John Biddle, under sentence of death for murder, overpowered the guards at an early hour Thursday morning and escaped. With saws provided by some outside friends, who also furnished them with revolvers, they cut the bars, and were ready at any moment to make their way through the stone wall. The two men occupied adjoining cells and planned the affair jointly. Shortly before four o'clock one of the Biddles called to James McGeary, who had charge of the outside gates, and asked for some cramp medicine in a hurry, saying his brother was dangerously sick. McGeary hastened to the cell with the medicine when John Biddle sprang through the opening in the wall, pulled him over the railing to the stone floor beneath, a distance of sixteen feet. Edward Biddle joined his brother immediately and both, with drawn revolvers, hurried to the first floor, where they met Guard Reynolds and shot him.

THREE MEN ON DUTY. They were but three men on duty and the third was on one of the upper hinges. He was ordered down at the point of the revolvers, and the three guards were put in the dungeon. The keys were taken from Keeper McGeary and the two desperate prisoners had a clear field. The only person who witnessed the escape were prisoners who could not interfere or give an alarm. The prisoners went to the ward-robe where the guards keep their clothing, and each put on a new suit. They then unlocked the outside gates and passed out into the street. The escape was not discovered until the daylight guards came on duty at six o'clock. They were informed by prisoners where the night guards had been put and they were soon released from the dungeon and sent to the hospital.

THE ROMANCE OF IT. The escape of the Biddles was subsequently explained in a statement issued by Warden Peter K. Soffel. The warden asserts that his wife is responsible for the furnishing of the revolvers and saws to the Biddles, which enabled them to escape. In his infatuation for Edward Biddle, she alleged that she has left her husband and her four children, and, as he supposed, is to meet the escaped convicts at a place agreed upon. The history of the matter is brief. Mrs. Soffel was the only person admitted to the jail since last Sunday, Wednesday afternoon. She visited them during the warden's absence Thursday evening she rifled at 9 o'clock. She told her husband that she was going to visit a sister at McDonald, and that she would return early so that she could get an early start. Warden Soffel was about to fill his own room, which is separate from Mrs. Soffel's shortly before the clock. When he awoke this morning he asked for Mrs. Soffel, and was informed that she was absent. Later, when the details of the escape became known, he telephoned to McDonald, and was informed that Mrs. Soffel was not there. Warden Soffel immediately made a frank confession of his suspicions. The two guards injured will probably recover.

LATER. A reward of \$5,000 has been offered for the recapture of the Biddle murderers. No trace has been found of Mrs. Soffel. An investigation disclosed the fact that she had taken all of her best clothes with her. It has been known for several weeks that Mrs. Soffel was taking an interest in the Biddles and it is said that she frequently furnished them with faints outside their usual prison fare. It is reported that the Biddles took a train at the Fourth avenue station of the Panhandle Railroad, which is within a block of the jail, and left for the west.
