WEAK AND HELPLESS.

THE CONDITION OF MRS. WM. WESCOTT, OF SEAFORTH.

Suffered From Headaches and Dizziness — Could Not Stand the Least Exertion.

From the Sun, Seaforth, Ont.

Mrs. Wm. Wescott is well known to nearly all the residents of Seaforth. It is also well known to her neighbors and friends that she passed through a trying illness, but is now happily, in robust health. To the editor of the Sun, Mrs. Wescott recently gave the particulars of her case for publication, merely in the hope that her experience might be of some benefit to some other sufferer. She said:—"For some time past my health was in a bad state, my whole system being badly run down. I was troubled with headache, much dizziness, my appetite was poor and I could not stand the least exertion. I consulted different physicians, but their treatment did not seem to benefit me, and I gradually became so bad that I was unable to attend to my household duties. I then tried several advertised medicines, but without any beneficial results, and I began to despair of getting better. One of my neighbors strongly advised me to try Dr. Williams' Pink Pills, and somewhat reluctantly I consented to do so. After I had taken a second box I began to notice a great improvement in my condition, and by the time I had used five boxes, I was fully restored to my former good health, much to the surprise of my neighbors and relations. I do not suffer the least now from those headaches and dizzy spells; my appetite is good and I can attend to my household duties with the greatest ease. In fact, I feel like a different woman, and all this I can say is due to the use of Dr. Williams' Pink Pills. All who suffer from a run-down constitution should give these pills a trial."

When the vitality is low; when the blood needs to be replenished, enriched and purified; when the nerves are weak and require strengthening, there is no other medicine can take the place of Dr. Williams' Pink Pills. It is because of their direct specific action on the blood and nerves that these pills cure such troubles as anaemia, nervous headache, dizziness, palpitation of the heart, rheumatism, sciatica, partial paralysis, St Vitus' dance, kidney and liver complaints and the functional troubles that make the lives of so many women a source of almost constant misery. Do not take any but the genuine, which have the full name "Dr. Williams' Pink Pills for Pale People," on the wrapper around every box. Sold by all dealers, or sent postpaid at 50 cents a box or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

ROYAL POULTRY KEEPERS.

Poultry keeping is one of the modern delights of society. That it should be so may puzzle those who base their ideas on some disreputable type of farmyard hen, and who have never visited a big poultry show where fancy fowls are staged in all their glory. No lover of the beautiful in nature can fail to be impressed by the delicate coloring of some of these aristocrats of the poultry world, the exquisite markings and the quaint eccentricities of others. The arts and sciences of breeding may remain a closed book to us. But the wonderful products of modern fanciers demand admiration. The Queen is the first poultry keeper in the Kingdom, and a regular exhibitor and prize winner at all the great shows. One of her favorite varieties is the Silkie, a quaint little fowl with white plumage of a silky texture. The King, if he is not actually a poultry fancier, has a sincere respect for the Silkie fowl, for they are wonderful mothers for rearing pheasants and are much in request at Sandringham. The Queen also has some of the tiniest and smartest bantams in the country, and their excellence from a show point of view is proved by the number of prizes they win.

Litigant: "You take nine-tenths of the damages? Outrageous!" Lawyer: "I furnish the skill and eloquence and learning for the cause." Litigant: "But I furnish the cause." Lawyer: "Oh, anybody could do that."

BRIGHT BABIES.

Are a Joy to Mothers and a Treasure in the Home.

All babies should be bright, good natured and well. If you have a child that is sickly, fretful, nervous, restless at night, or suffers from stomach or bowel troubles of any sort, give it Baby's Own Tablets and it will soon be well. There is no other medicine in the world will so safely and speedily cure indigestion, sour stomach, colic, constipation, diarrhoea and teething troubles. Thousands of grateful mothers speak of this medicine in words of warmest praise. Mrs. Fred. Power, 18 Scollard street, Toronto, says: "My baby suffered greatly from indigestion. She was pale and very thin and would cry with pain in the stomach, and sometimes would not sleep either day or night. I got a box of Baby's Own Tablets and they have made a great change in my little one. She now digests her food readily, is not troubled with the pain in the stomach, and has grown quite plump. I do not know of any medicine that can equal Baby's Own Tablets for little ones."

This medicine is guaranteed to contain neither opiate nor other harmful drugs. Children take the tablets as readily as candy and crushed to a powder they can be given to the smallest, weakest baby. Sold at all drug stores, or sent post paid at 25c a box by addressing The Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

PEACE PROCLAMATION.

The Boers seemed but a feeble people when the war started, yet they cost a great empire much trouble to overcome them.

The bores in a woman's life caused by soap adulteration may seem scarcely worth taking into account; but the women who have overcome them by the use of Sunlight Soap know now how real the bores were. Try Sunlight Soap, Octagon Bar, and you will realize a relief from boredom like that experienced by the nation on the announcement of peace.

HINTS FOR HOUSE-CLEANING.

Furniture needs cleaning as much as other woodwork. It may be washed with warm soapsuds, quickly wiped dry and then rubbed with an oily cloth.

Unsightly finger marks disappear from varnished furniture when rubbed with sweet oil, and from oiled wood if kerosene is rubbed on the spots.

A teaspoonful of good cider vinegar added to one gill of pure raw linseed oil is said to make an excellent furniture polish.

Rub white spots on furniture with essense of peppermint or spirits of camphor, or hold a hot plate from the stove over them.

For cleaning out the corners in furniture and window sashes use hardwood pointed skewers, such as butchers use.

Grained wood should be washed with cold tea.

New paint stains can be removed with turpentine; old stains must be first softened with butter and then rubbed with benzine.

If a bedstead creaks at each movement of the sleeper, remove the slats and wrap the ends of each in old newspapers. This will prove a complete silencer.

If feather pillows have an unpleasant odor, give them a thorough drying before a clear fire.

Strong brine may be used to advantage in washing bedsteads.

Hot alum water is also good for this purpose.

Carpets should be thoroughly beaten on the wrong side first, and then on the right side, after which spots may be removed by the use of ox gall or ammonia and water.

A tablespoonful of ammonia in a gallon of warm water will often restore color in carpets.

It will also remove whitewash from them.

If oilcloth is laid down where the sun will shine on it, much of it will stick fast to the floor unless paper is laid under it.

Do not wash oilcloths or linoleum in hot soapsuds.

Wash them with tepid water and wipe with a cloth dampened in equal parts of cold milk and water.

Manilla paper pasted over the backs of pictures will exclude dust perfectly.

Foreigner—"What are they chasing that innocent-looking couple out of that house for? See, they are throwing things at them! There, a boot has just caught him under the ear! What does it mean?" Citizen—"Why, that's the bridal pair starting on their honeymoon."

STILL THEY WONDER.

PHYSICIANS AND SCIENTISTS WERE NEVER SO BEWIL-

The Ottawa Miracle is Still Being Discussed at the Regular Meetings of the Doctors of the Capital City.

Ottawa, Ont., June 2.—(Special)—To say that the miraculous case of George H. Kent, of 809 Gilmore street, had shaken Medical Circles to their very foundation, is putting it mildly.

The facts of the case have been so thoroughly and satisfactorily established by Mr. Kent's sworn statements as to leave no room for misunderstanding or mistake in the matter.

Mr. Kent had Bright's Disease; he had been in bed for months, gradually getting worse; physicians could do nothing for him.

His case had reached that stage when his body was terribly bloated.

He was so low that he had convulsions, which were rapidly growing more frequent.

In the interval between these convulsions he was almost entirely unconscious.

In this extremity the physicians at last told his wife one evening that he could not live until morning.

While watching by his bedside Mrs. Kent chanced to pick up a paper containing an advertisement of a cure of Bright's Disease by Dodd's Kidney Pills. It was then midnight, and all the drug stores were closed, but the devoted wife determined, that even at this extremely late hour she would make one more effort to save her husband's life.

Accordingly she despatched a messenger, woke up the nearest druggist, procured a box of Dodd's Kidney Pills, which she commenced to administer at once.

Mr. Kent did not die that night, for from the first dose of Dodd's Kidney Pills he commenced to improve. All other treatments and medicines were discarded, and the use of this remedy carefully continued.

Gradually, yet surely this wonderful remedy arrested the progress of the dread Bright's Disease.

It took Dodd's Kidney Pills about six or seven weeks to restore Mr. Kent to good health. This is seven years ago, and he has never lost a day's work through illness since.

Little Janie: "Mamma, my birthday comes this year on a Monday, doesn't it?" "Yes, dear." "And last year it was on Sunday, wasn't it?" "Yes," replied the mother. "Did it come on Saturday the year before last?" "Yes, dear." "Mamma, how many days in the week was I born in?"

HER FEARS WERE RELIEVED.

The form of Beryl Berryman shook with suppressed emotion. Her head swayed until her perfumed tresses brushed Geoffrey Gordon's face.

"Tell me that it is not true, Geoffrey," anxiously inquired the maid.

"That what is not true?"

"That dreadful report about you."

"What on earth was it?"

"I heard that you—er—er—are a coward."

"Ah, Beryl, I'll die for you!"

"Yes, I know, but——"

"But what?"

"They say you dare not kiss a girl for fear of microbes."

"Beryl!"

"Geoffrey!"

WAS A GIDDY FAD.

All Have Found Out What a Good Thing Wheeling Is.—Popular Everywhere.

Several years ago bicycling was a giddy fad, and the craze for it swept over the country like a wave, swallowing everybody in its track. The rich and fashionable took it up for a season or two, and everybody followed their lead, especially the women. But everybody did not drop it when the rich tired of wheeling. On the contrary, we all found out how much utility as well as enjoyment there is in a bicycle. Truth it is that there is practically nothing on the catalogue to take its place, especially in the country districts where means of transportation are very limited, and now that the price of the very best wheel is within easy reach of any pocket-book, it is safe to say that very few Canadians in the cities or beyond their walls will pass the season without one of these useful vehicles.

GREAT CANADIAN BICYCLES.

It is no small compliment to the Canadian artisan that Canadian made bicycles positively control the market here and in the other colonies. They have the good lines and finish of the best American wheels, but are more solidly and carefully built. The "Cleveland," "Massey-Harris," "Brantford," and "Perfect" wheels are famous the world over. Write to the Canada Cycle & Motor Co., Limited, 34 King St., West, Toronto, for catalogues.

COOKING DRIED FRUITS.

Dried California fruit is usually cooked the wrong way. Even the very best cook books tell you to soak the fruit before cooking, which is to spoil it at the start. Instead, have plenty of warm, not hot, water, and wash each piece separately. Use two bowls: Put the fruit in one with the water, and have the other empty, to receive it as it is washed. Rub each piece of fruit between your fingers, manipulating it and pulling the edges into shape. You want it to look as much like fresh fruit as possible. When all the fruit has been transferred from one bowl to the other, pour on fresh warm water and repeat the process. If the apricots are comparatively fresh, three or four waters are sufficient; if they have become dry and hard you will need five or six. When the fruit becomes flexible, and not until then, it has been washed enough. Peaches must be washed until no scum rises to the top of the water left in the bowl. This scum is the fuzz from the peach skins, which are invariably left on in drying the fruit. Prunes need but little washing, and very gentle handling. Washing the fruit in this way softens it without extracting the juices, as is done by soaking.

After the fruit is washed, put it into a porcelain kettle, with enough hot water to cover it fully, and granulated sugar. The quantity of sugar must be regulated by the tastes of your family—tastes differ greatly in this respect. A heaping tablespoonful to a pound of fruit is the minimum quantity, a teacupful is the maximum. The last named quantity produces better results in the appearance of the fruit; a talespoonful is too little to make the fruit quite clear. Cover the kettle and stew steadily, taking care not to boil hard, until the fruit is clear; about fifteen minutes from the time it begins to stew.

Husband (to wife, who is singing)—"My dear, you are a marvellous singer. You ought to be with Carl Rosa, the great singer." Wife (flattered)—"Do you really think so, John?" Husband—"Yes, my dear. I wouldn't flatter you for the world." Wife (after a minute of thought)—"But Carl Rosa is dead!" Husband—"I know that."

Page Woven Wire Fence

Owing to the variations of the Canadian climate, considerable allowance must be made in all fences for contraction and expansion; which makes an ordinary wire fence unserviceable, as when it expands it becomes so loose as to prove of little value. Note this has is elastic and self-regulating. The Page is twice as strong as ordinary wire. Prices are particularly low this season. 50,000 miles of Page fences now in use.
