HOT WEATHER AILMENTS.

Careful Mothers Should Keep, Hand the Means to Check Ailments That Otherwise May Prove Fatal.

When the weather is hot the sands of the little life are apt to glide before you know it. You can't watch the little one too carefully at this period. Dysentery, diarrhoea. cholera infantum and disorders of the stomach are alarmingly frequent during the hot moist weather of the summer months. At the first sign of any of these, or any of the other ailments that afflict little ones, give Baby's Own Tablets. These Tablets will speedily relieve and promptly cure all hot weather ailments. Keep them in the housetheir prompt use may save a preclous little life. Mrs. Herbert Burnham, Smith's Falls, Ont., says :-When my eldest child was six ing weeks old he had an attack of cholera infantum and was at death's used the Tablets for other ailments of children since and always with the happiest results. I can sincerely medicine that should always be kept in the house."
