"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too. \$1,00 a bottle. All druggists.

If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address, J. C. AYER CO., Lowell, Mass.

state of cultivation in every instance. Dates of Sowing.-Winter wheat sown at the College during the last varieties were badly lodged, and, owing week in August or the first; week in to the wet weather, some of the grain September yielded better than that sown at a later date in the average results of tests made in each of the past was very slight, the plots at the College | eight years. In 1902 the highest sverage yield was obtained from sowing on September 2nd, 1901. Varieties.—Ninety-five varieties of

Preparation of the Land.—In an exwinter wheat were grown at the periment conducted for four years, winter wheat grown on land on which College this year. The ten varieties a crop of field peas was used as a green manure, produced an annual average of 22,1 per cent more wheat per acre per acre, starting with the highest, than on land where a crop of buckwere as follows: Extra Early Windsor, Dawson's Golden Chaff, Imperial wheat was plowed under. In another experiment which was carried on for Amber, Pedigree Genesse Giant, Prize one year, winter wheat grown on land Taker, Economy, New Columbia, prepared for clover stubble produced 20.7 per cent more wheat per acre than on land prepared for timothy stubble. White Golden Cross, Early Ontario, In a two years' test with commercial Windsor very closely resembles the fertilizers, an aplication of 160 pounds Dawson's Golden Chaff variety. Those of nitre of soda per acre increased the varieties possessing the stiffest straw | yield of wheat 18.8 per cent.

Value of Seed from Wheat cut at were the Dawson's Golden Chaff, different Stages of maturity. For seven Extra Early Windsor, Clawson Longyears in succession, five plots of each of two varieties of winter wheat were sown at the same time in the autumn, Experiments have shown that the and cut at five different dates in the sprouting of wheat greatly injured it following summer, a week being allowfor seed purposes, as well as for flour ed between each two dates of cutting. production. All of the varieties at the Seed from each of the seventy cuttings was sown and the crop_therefrom was College this season, were more or less harvested when ripe. In the average results of these tests it is found that sprouted before they could be harvested. Those varieties which sprouted the heaviest weight of grain per the least were the Red Cross, Mcmeasured bushel and the largest yield Pherson, Wisconsin, Triumph and of both grain and straw were produced from seed taken from the crop which Reliable, and those which sprouted the had become very ripe by remaining most were the Pedigree Genesee Giant, uncut for the longest period of time.

Early Arcadian and Oregon, Fifty-Results of Co-operative Experiments. In the autumn of 1901 five varieties of winter wheat were distributed throughout Ontario for co-operative experiments. The average yields per be held at Priceville in the Presbyterian | The varieties without beards were acre of the co-operative experiments and the hard wheat was sprouted

Varieties Imperial Amber..... 3.2 Early Genesee Giant. 3.1 Michigan Amber Turkey Red 3.1

In Memory of James Hudson.

Or sup by the lamp's feeble light The seat that was his is now vacan; He will fill our plates nevermor We listen in vain for his footsteps And hear not his voice at the do

He is gone-our best friend has departed, The day of his funeral is o'er; Our home seems so sad and so dreary, Our tather, once so dear, is no more: We fancy we hear his voice speaking,
We still think we see his sweet face;
It seems all so strange and so dream-like,
We look for him oft in his place.

Our hopes for the future are blighted, And buried with him in his grave; That future that once looked so hopeful, Those feelings that once were so brave.

The years of our lives are uncertain,—
We cannot be sure of a day.
It seems as if those that we love most,
The sconest are taken away. with great care and report the result Fare thee well, dear father, from us thou art after harvest next year. This seed will Left us yes and for ever more.

> One by one we shall meet, Where sad partings are no more; Oh, with what joy we dien shall meet On that happy, golden shore. -Mrs. J. J. Peart, Traverston
