If we were I minded we might have a right expect other people to be pure m If we loved the Lord our all our heart and soul mind and strength; if we were feet husbands and perfect wives. fect parents and perfect children perfect in our love for our fe men, we might expect, others to · But what right has raven to croak because her ye have wings as black as the ni What right has the Pharise stand up and condemn the poor licin, who stood afar off and his breast, moaning. "God be ciful to me a sinner." when himself was

like a whited sepulindeed appeared beaut outward; but was within full dend men's bones and all macle And what right have you, o he. to say your neighbor is a bad. or a bad woman and should be demind when you yourself have grace of God, plucked it out? you yourself have an evil thand foot and have not yet amoutated When you yourself thave an tongue to spank or an evil dar listen against the deeds of

And the sad fact about condemnation is this: The mor ourselves have gone astray. more we ourselves have followed much the devices and the desir our own hearts, the more we selves have sinned in mind or i and not yet been found out by world, the more and are we to do in the shortcomings and nesses of others, even as Lord freys, the unjust English judge. merciless toward those who brought before him, although himself at that time was the est criminal in all England. not the good father who is h upon the daughter that has go tray; it is the bad father who ant to forgive the wayward chi is not the good brother who is willing to save the wayward sit is the sinful brother, who and does demand that his

should be morally all right whi

ndighbors?

MAY BE MORALLY; ALL WE No man should | rashly con another; because it is often im ble for him to realize what mitigating circumstance which the sin was conceived. men were born free and equal the American Declaration of pendence optimistically declares could judge them in the bulk. duld judge any two men as might test two bars of steel come from the same mold. could judge them, as you might sa that a pound of collee ought weigh as much as a pound of ter but all men are not born free and equal. We are different in he editary tendencies. Only a short tim ago at a convention of the Women Christian Temperance Union a gate read the record of a woman with criminal tendencies who died i

1827. The name of this woman obvious reasons, was not told Woman of criminal tendencies had had up to date over 800 scendants. Seven hundred of these descendants have been criminals, and all were convicted at least once and most of them more than once for crime. Thirty-six of these descend ants have been murderers. said the speaker, the blood of that one woman of criminal tendencies has cost the nation in eighty years dver \$3,000,000 for trials and exc districted." Is not the place
