FLESHERTON HAPPENINGS

(By our own Correspondent.)

Division Court was held here on Monday last week, Judge Morrison presiding. Only two or three cases were of any importance. Ernest Vort was a P. Loucks, was an action for damages rising out of mare not proving... The plaintiff from the defendant. The latter denied warranty, but judgement was given for \$20.00.

Mr. Sullivan, of Osprex, vs. George J. Clifford, poundkeeper, of Maxwell, an action to recover 90 cents, fees paid to poundkeeper. Nine head of cattle belonging to A. Sornberger were impounded by Sullivan from whom ten cents a head was collected for fees. Subsequently Gladford released the cattle to their owner without collecting fees and refused to return to Sullivan the amount collected from him. Judge-ment was given for the plaintiff.

The Shelburne Marble Co. sued the Walter Broughton, of Proton, for the contract price of a monument erected for him. Broughton refused to pay on the ground that the stone is not the quality agreed upon. The plaintiffs held that it is, and is true to the name by which it is known to the trade. That they may have an opportunity of further proving their allegations an adjournment of the case was made till next court.

Magistrate VanDusen was again on the bench on Saturday last investigating two charges of assault laid by Robt. Scully against William and Thomas Phillips. The former pleaded guilty, and was fined \$1.00 and costs, in all \$1.35. The latter pleaded not guilty, but from the evidence, though there was much that was conflicting, the magistrate decided that he was, and imposed \$2.00 and costs, in all \$2.35. The alleged assaults took place on the 20th ult. at the Maxwell hotel during the disorderly conduct for which both parties were fined as reported by us last week.

The judging of Live Stock at the East Grey exhibition will this year be in the hands of expert judges who by appointment of the Provincial Pairs' Associations are to do the work. Fifteen judges in all have been appointed in trios to circuits of leading fairs throughout the province, and East Grey Fair is one of them. The three who are to be on duty here on October 1st, the second day of the Fair, are: H. G. Reid, V. S., of Georgetown, who will judge horses; John Campbell, of Woodville, beef cattle and sheep; R. McCulloch, of Snelgrove, dairy cattle and swine. This is a forward move and should be educative in its character, as the judges will, we understand, give short lectures and point out to exhibitors and spectators the points of merit in the animal on which they base their decision.

Mr. and Mrs. Jos. Cornfield, of this place, were bereft of their youngest child, 8 months old, on Saturday morning last, and have many friends to sympathize with them in their loss. Interment took place at Mt. Zion on Sunday afternoon.

Evangelist T. A. Rodger, of Hamilton, who is here assisting Rev. L. W. Thom in special services at Eugenia, occupied the Presbyterian pulpit on Sunday afternoon and preached in his usual effective manner to a deeply interested congregation. Mr. Rodger and Mr. Thom were at Arthur on Monday evening giving addresses at the annual meeting of the W.M.F.S. there.

"The Devil in Ink," was Rev. Wilson's subject in the Methodist church on Sunday evening last. In a brief introduction the press was given due credit for its achievements, its educative influence and power for good in the land. But as the negative of this was the subject in hand, that which is law and sensational in some of the daily papers untruthful reports, detailed accounts of all kinds of crime as well as the manner of executions, and works of trashy fiction which poison the minds of the reader, were all dealt with in a trenchant manner, receiving the speaker's unqualified denunciation.

Mrs. W. Trimble and Miss Hannah Bellamy each gave a lawn party last week to a goodly number of their juvenile friends who enjoyed to the full the seasons of pleasure they had together. At Miss Bellamy's artist Bulmer photographed the group with a number of adult friends and succeeded in getting a nice picture of the group, the cottage and surroundings.

Valuable Advice to Mothers.

If your child comes in from play coughing or showing evidences of an approaching attack of Croup, Sore Throat, or sickness of any kind, first get out your bottle of Nerviline. Rub the chest and neck with Nerviline, and give internal doses of ten drops of Nerviline in sweetened water every two hours. This will prevent any serious trouble. No liniment or pain-reliever equals Polson's Nerviline, which is a necessity in every household. Large bottles cost only 25c.

Proposed Legislation re so-called "Woollen Goods."

With this object in view, the Hon. Chas. R. Crossenor, at the request of the National Live Stock Association, recently introduced into the House of Representatives of the United States, a bill to provide for federal inspection of mixed goods and the proper marking of the same, which is known as H. R. 6565. The purpose of this Bill is to make it possible for the consumer to know what he is purchasing by having the goods stamped so as to indicate whether it is all-wool, or if not, then the percentage of shoddy or waste. There is no objection made to the use of cotton waste, mungo, shoddy, etc., in the manufacture of textile fabrics, when the fact is made known to the consumer, and where fraud is not perpetrated by selling these mixtures as all-wool fabrics.

As an epitome of the measure, the following is extracted: "All manufacturers of goods or fabrics of any kind whatsoever made in imitation of woollen goods or fabrics, or goods which when so made are calculated or intended to be sold as woollens or woollen goods, not-made wholly of new, or unused sheep's wool, shall so mark, label or tag such goods, as that they may be readily distinguished from genuine wools or woollens, as defined in the first section of this Act. That such mark, label or tag shall be so attached to such goods or fabrics so that it cannot be detached except by design, and such label shall accurately set in plain printed letters or figures the constituent fibres or other materials or substances of which it is composed, or the relative proportion per cent of each."

The penalty of non-compliance with the provisions of the proposed law are thus set forth: "That any manufacturer, merchant, importer, or other person who shall wilfully, recklessly or carelessly mark incorrectly any cloths, goods or fabrics, so as to show a larger per cent of wool or a smaller per cent of smaller or cheaper fibre or material, in any manner that will, or is calculated to, deceive or mislead the purchaser thereof, shall be guilty of a misdemeanor, and shall be fined not less than \$50.00, and not more than \$5,000.00 for each offence."

The National Live Stock Association points out that "There are several classes of shoddy. The best is made from sweepings of tailor shops, and the emptying of rag bales in civilized countries. The worst, which constitutes the greater part used in America, is from the rotten cast off rags of beggars and the lazar and pest houses of Europe, having in them all kinds and amounts of filth and disease. These are gathered by rag pickers from the slums and alleys and sent to America in shiploads, where they are purchased by a certain class of manufacturers, who, in order to take the curse off the name, term the stuff 're used wool fibre.' It must be remembered, however, that in most instances, when tearing this shoddy to pieces, preparatory to again weaving it into cloth, it is found to be so rotten and dead, that nothing is produced but dust, and in order to get two ends, so that it can be spun, a minimum portion of wool or cotton is mixed with it, in order that it may be held together. The next step after weaving carries it to unscrupulous dealers, who sell this production to the labouring men, and in fact to all classes of society, for 'pure wool,' thus getting for a suit worth three or four dollars, more than three times this amount. To encourage such a fraud is simply putting the lousy rags of European paupers in competition with the sheep and wool growers of America and elsewhere, and robbing the consumers who wear woollen garments by selling them the stuff under a misrepresentation."

If the foregoing statements are facts, and it is scarcely likely that the Live Stock Association would publicly state them
