ARBAT VALUE OF HUNUS

A SOIL COMPONENT OF A VERY HIGH ORDER. Experiments by Professor Shutt, of the Experimental Farm,

(Concluded). The chief value of green manuring; cay in the soil of the turned-under growth and harvesting of the nitrogen consumers leave the soil poorer and other legumes, even when the crop has been harvested and the roots only left, leaves the soil invariably richer in that constituent. There are other advantages though of lesser importance accruing from this method. Humus in large amounts is formed in the soil from the organic matter of the clover. In addition to the functions of manuring with clover there is the mechanical as well as the chemical improvement of the soil, the addi-

tion of food materials, and the encouragement of microbic life within the soil. Then, too, considerable amounts of potash, phosphoric acid, store of available plant food, and light, and have frequently to be read lime are absorbed and built up the land is into its tissues during the growth of clover. These in part are obtained from depths of the soil not reached by the roots of other farm crops; therefore the turned-under clover crops can be considered as adding largely to the mineral supply of the superficial soil layer. The feature specially worthy of note, though, in this connection is that this mineral food now offered as humates for the use of succeeding crops is much more available than before the clover appropriated it; it has practically been already digested, and is, there-

MORE EASY OF ASSIMILATION. To these benefits must be added the good work that clover does as a 'catch" crop, preventing the loss of soluble nitrates and other plant food through the leaching action of fall

Since the spring of 1893 systematic investigatory work to determine ment of farming lands. fertilizing value of the clover crop has been prosecuted in the Central Experimental Farm at Ottawa, under the direction of Dr. W Saunders, experiments on the branch farms having been started some three years later. In most of these trials the clover has been sown with and this has always resulted in a good stand of clover before the close ploughing-under of the clover is done ate in the autumn; if a crop of vices in connection with steam en potatoes or Indian corn is to be gines. grown the next season the clover is left till the following spring, when about the second or third week in May the clover will be quite heavy and furnish a large amount of material for turning-under.

Help Little Babies and Big Children in All Their Minor Illnesses. terial for turning-under.

urged that the bury in a measure may be true if the farmer have sufficient stock to consume

A GRATEFUL TRIBUTE.

FROM A MAN WHO LOOKED UP-ON HIS CASE AS HOPELESS.

Portors Diagnosed His Case as Catarrh of the Stomach, but Failed to Help Him-Many Remedies Were Tried Before a Cure, Was Found.

From the Bulletin, Bridgewater, N. S.

restored to health and strength through 'the use of Dr. Williams' Pink Pills. There are many such cases here in Bridgewater and its vicinity, and we are this week given permission to record one for the benefit of similar sufferers. The case well known in this vicinity and the tenacity of the disorder was remarkable: For six years Alfred Vei not, a surveyor of lumber for the great lumber firm of Davison & Sons, was a victim of a serious disorder of the stomach. His sufferings were excruciating and he had wasted to a shadow. Doctors prepains remained. Many remedies the over 110 pounds. The French ful, life a burden. The trouble went on for nearly six years, then a good Samaritan advised the use of Dr. Williams' Pink Pills. The pills were given a fair, patient trial, Mr. Veinot using about a dozen boxes, and before they were all gone a permanent cure was effected. Mr. Veinot is now able to attend to his business when it looked as if he was doomed

when it looked as if he was doomed to die. He is grateful to this great medicine for his cure and has no hesitation in saying so.

Because of their thorough and prompt action on the blood and nerves these pills speedily cure annemia, rheumatism, sciatica, partial paralysis, St. Vitus' dance, scrofula and cruptions of the skin, crysipolas, kidney and liver troubles, and the same of the functional ailments which make the lives of so many women a source of constant misery. Get the genuine with the full banner. In williams Pink Pills for Pace People on the State aforesaid, and that said firm will and cruptions of the skin, crysipolas, kidney and liver troubles, and the sum of ONE HUNDRED DOLLARS of CATARRH THESE of CATARRH THESE of CHENEY.

CONSIDERABLY ENRICHED.

If it behoves the Western farmer, nigh for everwho has tilled but for a quarter of a century one of the most fertile soils in the world, to pay attention to the restoration of the nitrogen, humus, and available mineral food how much more important is this subject to the farmers of Eastern Canada, where for the most part the soil has been much longer tilled, and where originally it was not of that extreme richness to be found in the Northwest. The average yield in all our Eastern Provinces would be onsiderably increased by the more extensive and regular growth of one the legumes. Of improved me-

none give better promise of fruitful results than that which exemplifies the value of humus for the enrich-

TOWN TREASURER

QUEBEC MUNICIPAL OFFICER GIVES IMPORTANT EVI-DENCE.

Without Fear, Favor, or Affection, He Speaks Plainly His Honest Sentiments, Adding Some Words of Advice.

Wolfestown, Que., Sept. 8 (Special).—Mr. R. Boulanger, Secretary and Treasurer of this town, is num bered among the most prominent and highly respected citizens of the country.

Time and again he has been hon-ored by appointments to offices of public trust and there is no man in our community who commands the universal respect and esteem of all classes of citizens more than Mr. Boulanger.

Those who know him well are aware that for some time he was very ill and they also know that he was restored to good health, but many of them may not be aware of the means used by Mr. Boulanger in accomplishing the wonderful recovery which he has been fortunate mough to bring about.

Dodd's Kidney Pills cured him and he has made this fact public in a "I desire to say that I was com-pletely cured of Kidney Disease and

Urinary Trouble by Dodd's Kidney "I was so bad that I was obliged to urinate often, with much pain They have relieved me of the pair the results in every way are
