Objections to Legislation for Protection to Wool Growers.

The objections to the proposed Government Bill are rather strongly put by the Textile World, a paper judging from its name, which has the bill becomes law no fabric containing the slightest proportion of manufacturer of goods containing States, known to of the wool in a fabric has and how much has not been publicated to a manufacturing process before it It was last This. I am informed, is incorrect. The Bradford Conditioning House can determine what any fabric is

made of by actual percentages. officials can distinguish cotton, lin- of foreign, low-grade Kempy wool, from wool and woollen shoddy; but ed, would not make a cloth to de they refer are in a town hall ; the they will be forced either to refuse ceive anyone, and therefore would admission to the goods or accept not compete with any except the long-yet some can climb them sevthe statement of the importer as to adulterated goods. how much wool shoddy there is in the cloth.

THE NEXT OBJECTION all goods manufactured prior to the passed out of the hands of the manufacturer and the ingredients of which are not known, shall be labelled "Manufactured prior to the Pure Fibre Act; composition not known. The article in question contends that the manufactured goods thus placed under a ban would approach in value \$850,000,000, and by labelling them they would be cast under suspicion regardless of merit. This, take it, could be minimto:

by postponing the bill extent coming into operation until a year or so had elapsed from its becoming law. When margarine was sold as butter a great hue and cry was raised, the cow, and now, forseoth, because simple microscopic examination (as is the case with margarine) will be made to protect the public and be more truthfully designated if callensure their being able to purchase ed low-priced goods. It is contenda pure woollen garment. Difficul- ed that even if the price were some-We should down and this problem.

Another difficulty that the writers goods containing 90 per cent. of wool would tag them as mixed or shoddy goods, whilst the dishonest valuable information supplied to me.

NEURALGIC PAINS

Perpetual Motion,

When George Stephenson was asked, "Do you believe in perpetual motion?" he replied, "Yes, if you lift yourself by the waist-band of the trousers, and carry yourself three times round the room."

Just so, and a woman would fust as soon believe that she has not to pay dearly for common premium soaps, in the low quality of soap, in ruined hands and clothes. She would be kept in perpetual motion trying to do with common soap tts sympathies mainly with the what she could so easily do with manufacturers. They state that if Sunlight Scap—Octagon Bar. 216

> come into the United 90 per cent. of shoddy would tag there is no method them as all wool. This difficulty man of determining how may arise, but I am under the impression that to work up 90 per cent. of shoddy a considerable amount of cotton must be used, and reached the mill where the dishonest manufacturer would me yet ! You have heard the exprobably find himself

MULCTED IN A HEAVY FINE. As before stated, undoubtedly some

shoddy is far better, and would It is stated that the Custom House make a better cloth than some sorts That there are many difficulties in

tion on the subject cannot be dehas reference to the enactment that nied, but the importance of promotized countries, because, as a matter of fact, it really concerns the masses of the people more than the sheep men who are directly interested, because under present conditions all the poorer classes are entirely clad in the adulterated goods.

There can be no question that the majority of men and women who go into a shop to purchase woollen goods have no knowledge of the extensive fraud daily perpetrated in selling them goods largely composed of substitutes for wool, and that 90 feel all the exhibitantion and buoyper cent. of the buyers have no idea that when asking for woollen goods spicuous by its absence.

this article that no attempt must called cheap goods, but which would ties were made to be overcome, and what enhanced, the genuine woollen not be content to sit garment would give a greater comtake it as an accepted fort and health, wear much longer. fact that there is no solution of and in the end prove much more economical than adulterated goods. In conclusion I beg to express my

THE WORLD'S COAL.

The mechanics of civilization are upon the metal produced with such at present so firmly based on coal upon the metal produced with such at present so urmly based on the metal produced with such at present so urmly based on the metal produced with such at statistics of the production of valuable word has already learned mangled by a victous horse. I stilled These Pains From the System—Read the Proof.

A high medical authority has defined neuralgia as "a cry of the latest contrary, absorb heat pire are running a close race in coal and the British Empire are running a close race in coal and the latest for oneself—but respect for one for the form of the form of

ST. JACOBS OIL For Stiff and Swollen Necks.

Mr. Hooper, 57 Grosvenor street,

are not a few people who take a pitiable and morbid delight in believing that they are assailed by an incurable disease which must nortly close their careers," observed the doctor.

"I am sure there is something the matter with my lungs. Please tell me the truth," said a very anxious old lady to her physician the other The latter made a careful examina

tion, and replied: "I find that your lungs are in normal condition. The patient, with a deep sigh o esignation, asked: "And about how long can I expect to live with them in that state?"

A POSITIVE MAN.

HE SEEMS ABLE TO PROVE THE TRUTH OF WHAT HE SAYS

Mr. Chalker Makes Some Very Strong Statements - Explains That He is Prepared to Prove the Truth of Every Assertion He Makes.

Housey's Rapids, Oct., Sept. 22.-(Special)-Mr. George C. Chalker, a well known resident of this place, as authorized the publication of a letter containing some very startling statements. Those who know Mr. Chalker will

ince those who do not know him, at rared to substantiate in every tail, the truth of his published statement, which is as follows :--"It is with pleasure that I certify,

very common spectacle. One woman to the merits of Dodd's Kidney Pills. sore, I had heavy aching arms, dull bloated eyes. I was very weak and much reduced in weigh "After I had used six boxes of Dodd's Kidney Pills I was ten

pounds heavier. I biten wonder about the powerful virtue of this medicine. I do not know anything about what Dodd's Kiliney Pills are said to cure but I know a great deal about what they will actually do for Lame Back and Kidney Trouble, and I can prove it. They are worth their weight in

gold to any one suffering as I suffered. The six boxes of Hodd's Kidney Pills cured me completely and there has been no return of my old trouble. That is over three years ago, and I still enjoy good health."
This, is, indeed, a very strong testimonial for Dodd's Kidney Pills and one which will have very great weight with all who have the pleasure of Mr. Chalker's acquaintance or friendship.

Dodd's Kidney Pills have made many friends and are to-day, with-out doubt, the most popular family medicine.
