FIRE AT ORANGEVILLE

Three Shops and a Hotel Totally Destroyed-Loss Will be About , \$40,000.

One of the most disastrous fires that has ever been witnessed in Orangoville occurred at an early hour Thesday morning of this week. From 2.30 drug store. until a clock the fire fiend held high carnival, and as a result the fine build. ings fronting on South Broadway, the main business street of the town, from Mill street east for fully two hundred feet, are a mass of charred and smoking

The fire originated in Jackson, Brett & Co. s large hardware store, and was discovered between 2 and 3 o'clock in the morning. At that hour Mr. G. A. Holland, manager of the Bank of Commerce, while going along Broadway on his way home from an assembly in the Town Hall, noticed smoke issuing from the store. Running across the street he looked through the window, but al. though there was every evidence of intense heat, the only place flames The rear of the store. Mr. Holland at once sounded the alarm, but had only left the window for a couple of minutes. when the force of the pent-up heat blew out the plate glass front: In an instant the whole interior was a mass of flames, and a little later the explosion of a quantity of gunpowder added to the fury of the devastating element.

E. Booth's liquor store and Mercer Robinson's harness emporium were destroyed as well as the Gordon House, three story brick structure, which in two hours was completely gutted from roof to cellar. The rear of the Grand Central Hotel on the east caught fire but the brigade was fortunately able to extinguish the flames before much damage was done. The total loss is estimated from \$35,000 to \$40,000. The rigin of the fire is unknown.

COMPLIMENTARY TO CANADA

(From the New York Times.) Disgusted comment by ourselves and others on the new two centestamp has inspired one of dar readers to send us for comparison a United States and a Canadian postal card, with a request for an expression of opinion as to their

respective merits. Compliance with this request involves pain and humiliation, but it may be profitable. The Canadian card worthily represents in its humble way a prosperous and selfrespecting people. The paper is firm. accurately and smoothly cut, well calendered and agreeably tinted. The designation of its origion and purpose is clearly printed with good ink, and in the upper right hand corner is a handsomely engraved reproduction of the Canadian penny stamp, properly colored, in accordance with the infernational regulations. It is a postal card in every way satisfactory. And what a difference when one turns to the other card. The material is but little better than blotting paper, the edges look as if they had been bent over and torn off, the printing of the inscription is that of the job office in a backwoods village, and the two vignettes are not much removed from criminal libels, the one upon President Mc-Kinley and the other upon the national escutcheon. In every detail the United States postal card is as bad as the Canadian card is good, and in every detail it speaks either mean economy on the Government's part or insolent greed on the part of the contractor. It is a disgrace to the country, and convicting evidence of incompetency, or worse, in the Post Office Department.
