EMIGRATION SWINDLES.

Serious Charges Against Agents in England.

There is something like a "boom" in Canada at present, and a number of more or less unscrupulous emigration agents in different parts of England are reaping a harvest therefrom, says the London Mail.

The methods adopted by these gentry were revealed the other day by the Commissioner of Emigration for Canada. The agents advertise their willingness to secure positions for intending emigrants on farms. When an applicant for information appears at an agent's office, he is interrogated as to his means, and the agent privately regulates his fee accordingly. The emigrant is promised a situation for sums varying from £2 10s to £5, or "a specially good berth" on a bonus arrangement, which may mean the payment by the emigrant to the agent of from £25 to £45 annually, extended over several years.

Another dodge is for the agent to promise the emigrant a position in agriculture on his arrival in Canada, for a remuneration frequently amounting to £50.

The Commissioner is anxious to make it known that emigrants need not go to any of this expense. The agent's aid is superfluous. Thousands of Englishmen able and willing to work are required on the farms in Canada. A letter of introduction which is given to the emigrant at the Commissioner's office, 17 Victoria street, W., will insure him a situation within 24 hours after his arrival in Canada. He need not have any knowledge of farm work.

People who propose to settle in Canada are warned against the steamship and railway fares demanded by certain emigration agents. The official steamship fare from Liverpool to Halifax, St. John or Quebec is £5 10s. Third class; thence the railway fare to Winnipeg is £2 10s.

Every steamship that arrives in Canada includes among its passengers emigrants who have paid exorbitant and unnecessary agent's fees. In many cases their contracts with agents handicap them for years.

Fifty thousand Englishmen are required in Canada this year, and if the present rate of emigration is maintained the number will be reached.

EXAMPLE TO RICH UNCLE.

Benjamin W. Gist, of Falls City, Nebraska, was recently left \$40,000 by an uncle. Being always a wealthy man, his nephews said he ought to divide the "bequest" among them. So insistent and irritating were their intrigues that he decided to get rid of the money. Drawing \$40,000 in gold from his bank, he hired a job and drove among the poor districts, distributing gold pieces until the money came to an end.

RICHES OF NATIONS.

England and the United States are credited with being the two richest nations in the world, but what exactly constitutes the real wealth of a nation passes the understanding of the average mortal, says London Tatler. A nation's wealth consists largely in its borrowing capacities, and in this respect England stands first, far beyond any other nation in the world. A Hill over two ago the United States possessed a larger amount of gold than that of any other country. In August, 1901, the United States Treasury had in its strong box a sum of \$504,354,295 in solid gold, but curiously enough this fact alone would by no means constitute the American republic the richest government in existence.

Schoolmaster—"Now, Robert, can you tell me how many pints are in a quart?" Publican's: "Hopful—Why, yes, sir. One and a half and the froth."

A MOTHER'S RESPONSIBILITY.
Every mother is responsible to some extent for the health of her little ones, and the prudent mother will always keep at hand the means for protecting the health of her children. For this purpose there is absolutely no medicine can compare with **Baby's Own Tablets**. These Tablets promptly relieve and promptly cure all stomach and bowel troubles, break up colds, check simple fevers, prevent croup, and cutting irritation accompanying the cutting of teeth. They are good for children of all ages from birth upwards, and are sold under a guarantee to contain no opiate or harmful drug. All mothers who have used **Baby's Own Tablets** praise them and keep them in the house. Mrs. John Weaver, Blissfield, N.B., says: "I have a family of six children and have used **Baby's Own Tablets** and know that they are the best medicine I have ever used for my little ones."

You can get **Baby's Own Tablets** from any druggist, or they will be sent by mail post paid, at 25 cents a box by writing to the Dr. Williams' Medicine Co., Brockville, Ont.

Ethelberta—"I want a pair of slippers for my number tens, please, and—squeaky." Genial Shopkeeper: "Squeaky, miss? I'm afraid we haven't any of that kind." Ethelberta:—"I'm so sorry. Couldn't you make him a squeaky pair? There is a certain young gentleman who visits me very frequently, and—and I would be very convenient for him to know just when you are coming downstairs."

ALL ACIES AND PAINS FROM A SUDDEN COLD.
When this difficulty gets a firm hold it is hard to shake it unless one acts promptly, and uses the right remedies, about which there is no uncertainty. "Something that will quickly drive out the cold, restore the blood to its normal condition, banish the aches and pains, and relieve the burning, itching head. There are only two remedies that will do this, and they must be used in conjunction, Dr. August Koening's Hamburg Brest Tea and Hamburg Drops, both old, tried German remedies, discovered by that great specialist, whose name they bear, more than 60 years ago. The former should be taken hot before going to bed, and the latter according to directions. Follow up the treatment until the cold is fairly broken up, then continue to take the Hamburg Drops, for a considerable period, until the blood becomes cool and healthy. The two remedies cost only 75 cents, get them from your druggist at once, have them in the house, and when you are about it, get a bottle of **St. Jacobs Oil**. It will always come handy in case of household accidents, sprains, bruises, cuts, burns, scalds, also for rheumatism, neuralgia, lumbago, toothache, stiffness of the joints, and all bodily aches and pains, where an outward application is usually applied.

Struggling Merchant—"If you don't attend to business better, I reduce your income by one-half." Chief Clerk—"Oh? Only yesterday you said you thought of taking me into partnership." Struggling Merchant—"That's what I mean."

SOMETHING NEW.
Probably the best invention in the agricultural implement world for 1908 is the new oiling device on the Massey-Harris Mower Pitman. A roomy oil chamber is placed in each end of the pitman, and the natural action of the pitman throws the oil up through the oil hole and gives thorough and constant lubrication without waste.

Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, it swells and closes off the passage, and when it is closed, hearing is lost. It is not until the inflammation can be taken out that hearing can be restored. If you are afflicted with deafness, your hearing will be destroyed forever by Catarrh, which is nothing but an inflamed condition of the mucous membrane.

Sunlight Soap will not burn the nap off woollens nor the surface off linens.

SMOKE AFTER SIX.
In a certain London office a club has been formed of smokers who have pledged themselves not to use tobacco in any form till after office hours. The club is called the "After Six Smokers," that being the hour fixed for a general light up. Members may abstain till later. If they like, but it has been observed so far that the striking of the hour is the signal for the striking of matches. No exception is made of Saturday or Sunday.

HAVE YOU CRIMINAL YES?
A Russian savant lays claim to a discovery for detecting criminals. According to M. Karloff, you can tell a criminal by the color of his eyes. Murderers and thieves have maroon or reddish brown eyes. Tramps light blue, and so forth. M. Karloff has classified eyes into families and has drawn up rules which he declares to be infallible. Honest folk have dark gray or blue eyes.

A PLAGUE OF SEALS.
The fisheries of Northern Norway have come to a standstill, owing to a tremendous influx of seals along the coast and in the fjords. The seals, which come from the White Sea, have been fought without avail. The large fishing population has petitioned the Government for help to exterminate the plague, which is partly eating and partly hunting all fish away.

The Young Man—"I have known for a long time past that you cared for me. The Lady—"Really? How is that?" The Young Man:—"From the fact that your people put themselves out of their way to snub me."

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

"I'm sure we shall be on good terms," said the man who had just moved into the neighborhood to the grocer at the corner. "No doubt of it, sir. Especially," he added, as an afterthought, "if terms are cash."

Dear Sirs,—This is to certify that I have been troubled with a lame back for fifteen years. I have used three bottles of your **MINARD'S LINIMENT** and am completely cured. It gives me great pleasure to recommend it, and you are at liberty to use this in any way to further the use of your valuable medicine.

Two Rivers. ROBERT ROSS.

HIS IDEA.
Hundstevill—"It seems that in all railroad accidents the first and last cars are always the ones that are injured."
O'Rourke—"Shure, an' I wonder why they don't have them two cars off the train entirely?"

Citizen—"Well, you see how it is yourself, Mr. Plumber. The girl left the washhouse room window open; thermometer touched zero, water-pipe froze, then burst, and as no one knew how to shut off the plaguey thing the water ran half the night." Plumber—"Yes, I see; very bad break. Wants new plumbing throughout; wonder it didn't happen long ago." "How much is it going to cost to put it right?" "Well, I don't know; but I think I'll take the house in part payment."

"How do you tell the age of a horse, I wonder?" "Oh, ask the dealer, and multiply by three!"

"What Luck!"
LIBBY LUNCHEONS made ready in a few moments. The Water Sliced Smoked Beef, Pork and Beans, Veal Loin, Potatoes, Chicken, and lots of good things to eat.

England is not the only country where towns are growing at the expense of country districts. Thirty years ago Franke had an urban population of 144 millions. Now it has reached 16 millions. In the same time Germany's towns have increased by nearly 16 millions.

Minard's Liniment Cures Colds, etc.
Mrs. Planet—"Before we were married my husband and I used to sit and watch the stars for hours." Friend—"Yes, Mrs. Planet." Now he tells me that he cultivated a taste for astronomy in those days, and that he stays out late taking observations with "several learned friends."

WEALTH FOR YOU BECAUSE HEALTH FOR YOU.
Only 50 cents for bottle and tube, and is worth as much as your life is worth. Catarrh kills thousands through colds, bronchitis, pneumonia and consumption, and Dr. Agnew's Catarrhal Powder cures all of them when other prescriptions have failed. It will relieve colds and catarrh and cure headache in ten minutes.

Fred H. Heller, Jr., the well known dealer of Railroad, York Co., Pa., states: "I have had catarrh of the head and stomach for two years in the worst form. I tried all the medicines I ever heard of, but without relief. I used two bottles of Dr. Agnew's Catarrhal Powder. It cured me entirely. I am now a well man."
