

HOW TO GAIN HEALTH.

A Simple Plan that Should Be Followed by All Who Are Sick.

If you could buy back your health on the installment plan—say 50 cents a week, for a limited number of weeks until cured—would you do it? Here is a plan worth trying—Taking into account their power to cure, Dr. Williams' Pink Pills, are the most economical medicine, without exception. These pills have effected cures in cases of rheumatism, partial paralysis, St. Vitus dance, indigestion, kidney trouble, anaemia, and other serious diseases of the blood and nerves. They have cured hundreds of cases where ordinary medicine had been tried and failed. They have restored helpless invalids to full use of limbs that had long been powerless. This is the best guarantee that these pills will not disappoint when used for simpler ailments. Taking one pill after each meal, (as required for minor troubles) a fifty-cent box of pills gives nearly two weeks' treatment. For chronic diseases, when the larger dose is required, the cost of treatment does not usually exceed fifty cents a week. If you are sick or ailing, is it not worth your while to give so effective a medicine as Dr. Williams' Pink Pills a trial? What the pills have done for other people they can do for you. Every dose makes the new-rich, red blood that brings robust health and strength. They are the best tonic medicine to take at this time of the year when the blood is sluggish and impoverished.

Do not waste money on ordinary medicines, or substitutes; see that the full name, "Dr. Williams' Pink Pills for Pale People," is printed on the wrapper around every box. Sold by all medicine dealers or sent post-paid at 50 cents a box, or six boxes for \$2.50, by addressing the "Dr. Williams' Medicine Co., Brockville, Ont.

THE TINDER BOX.

Necessary Utensil of Grandmother's Day.

Mention has been made of the decline of the manufacture of snuff-boxes, which in the early years of the last century was a prosperous industry. In this connection it is interesting to notice also the extinction of the tinder-box, which dates down to about the year 1830 to be found in almost every home in the land. The decline of these industries was, of course, not the effect of the same cause, for while snuff-taking is dying out with no other habit to replace it (unless it be that of smoking), the tinder-box was a contrivance which in the process of evolution had to give place to better inventions. Miller Christy, writing in the Burlington Magazine, says the disappearance of the tinder-box was extraordinarily sudden and complete after the introduction of the friction match. Less than a generation later—almost, in fact, within a decade—the tinder-box had become little more than a vague tradition of the past, and examples were to be looked for only in the cabinet of the antiquary, the cases of the museum-curator, or the shop of the curio-dealer. To-day the tinder-box is so unfamiliar an object that few persons can give an intelligible description of it, or the manner of its use.

Among the contents of the tinder-box the tinder, from which the box derives its name, deserves first notice. Tinder was made usually from some light, loosely-woven cotton of linen fabric—preferably the latter. The lighter and thinner the fabric the better the tinder; for tinders made from any thick, closely-woven fabric did not take fire readily. Rag-tinder was always home-made, or no shopkeeper but hawked ever sold the making of it was one of the minor domestic accomplishments of our grandmothers. It was under-taken weekly, or as often as required, and the operation consumed a considerable quantity of household linen. Many of the old tinder-boxes purchased nowadays will be found still to contain portions of the original rag-tinder.

SAVE THE BABY.

"I can truly say that had it not been for Baby's Own Tablets, I do not believe my baby would have been alive to-day." So writes Mrs. Albert Luddington, of St. Mary's River, N.S., and she adds:—"He is now growing nicely; is good-natured and is getting fat." It is gratifying to know that in all parts of Canada, Baby's Own Tablets are proving a real blessing to children and a boon to mothers. These Tablets are a speedy relief and prompt cure for constipation, sour stomach, wind colic, diarrhoea, worms, and simple fevers. They break up cold, prevent croup and allay the irritation accompanying the cutting of teeth. Baby's Own Tablets are good for children of all ages from birth upwards, and are guaranteed to contain no opiate or harmful drug. Sold by medicine dealers, or sent by mail post paid, at 25 cents a box, by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont.

Teeth of all kinds have been worshipped, and are, in fact, still venerated as relics in some religious shrines. Buddha's tooth is preserved in an Indian temple, the Chinese worship the tooth of a monkey, while the elephant's and shark's teeth serve a similar purpose among the Malabar and Tonga Islanders respectively. The Siamese were formerly the possessors of the tooth of a sacred monkey, which they valued very highly, but in a war with the Portuguese they lost it and had to pay \$3,500,000 to get it back again. It is now kept in a small gold box enclosed in six other boxes in one of the many temples of the Siamese capital.

TRAIN STOPPED BY GRASS-HOPPERS.

Trains have often been stopped by swarms of locusts getting on the track and clogging the wheels of the engine and coaches so that they no longer get a grip on the rails, and revolve without moving forward. From Jibutit comes the report that a train has been stopped near Chelob by a grasshopper swarm. The train came to a halt. By putting sand and pebbles on the rails the officials got the train at length to continue its journey, but near Holholm, the locomotive again stopped on an incline and the train ran backwards through the brake mechanism being clogged with the insects.

STATE OF OHIO, CITY OF TOLEDO, Lucas County.

FRANK J. CHENEY makes oath that he is senior partner of the firm of F. J. CHENEY & CO., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE.

I, FRANK J. CHENEY, do hereby certify in presence of this City of Toledo, A.D. 1902.

A. W. GLEASON, Notary Public.

HALL'S CATARRH CURE

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Sold by F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c.

Hall's Family Pills are the best.

Wife—"Do you love me as much as I love you?" "I reckon so." "Will I always be the dearest thing in the world to you?" "Husband—"I am sure you will, unless the landlord ricks the rent!"

A new arrival had come into the family circle, and Tom, aged five, was taken to see the "little stranger." He looked the infant over with a calm, critical regard, and then, turning to the maid who accompanied him, he said, very decidedly: "Jane, you can keep that in the kitchen."

The Doctor Leads Him by the Nose

Ninety-nine hearts out of a hundred are failing to do their work. There may be no pain there, but it is a matter for some organ is robbed of its proper need of blood by its insidious heart failure, and distress follows. Common sense says, cure where the trouble and pain begin. Use

DR. AGNEW'S HEART CURE, because it begins at the blood's distributing organ, healing that rapidly and making it strong and able, quickly sends strength and health to every other organ. It is the only way that combines science and sense and believes and cures.

HENRY ARKLE, of Peterboro, Ont., writes:—"I suffered with my heart nerves and general debility. The best doctors said I must die within a month. On my wife's advice I tried DR. AGNEW'S HEART CURE. Relief from the first dose of an fully cured. Weighted 128 pounds, now 109 pounds."

DR. AGNEW'S DISTRICT will drive pills away forever. Sells on the instant. Speedily removes all skin blemishes and pimples, cures, salt rheum, etc. Price, 50c.

DR. HAMMOND'S OPINION.

Expert Testimony on Wheeling—The Revival.

Dr. Hammond, one of New York's most foremost physicians, and an active member of the New York Athletic Club, was recently interviewed by a representative of the New York press, and asked his opinion as to the merits of cycling as exercise. The doctor stated very decidedly that he considered it absolutely the best possible, if taken with discretion. He of course excluded all persons with very weak hearts, or people of extremely delicate constitutions, but said that nearly every patient, going through his hands rode a bicycle when convalescent, and that it was remarkable what progress they made towards health.

In Canada there has been an unprecedented revival in wheeling, and it can be traced to no better cause than to the introduction of the Hygienic Cushion Frame. To use the words of the advertiser, "It is to wheeling what the Pullman is to railroading," and these words put the argument in the proverbial nutshell. It allows the rider to hold a uniform position, while the wheels accommodate themselves to the roadbed. It has made bicycling an absolutely pleasant and healthy form of outing. "Massey-Harris," "Cleveland," "Brantford" and "Perfect" bicycles have this cushion frame.

Germany at present possesses eight million men who have been through the ranks or are at present in her army.

TRADE AND INDUSTRY.

The glass factories of Sweden have formed a trust.

Bank deposits have increased 85 per cent. in ten years.

The bicycle factory in Japan, is about to start with large capital.

There is a platinum famine, and industry demands loudly the discovery of new deposits of the precious metal.

England buys eggs and butter from France and Denmark, chickens from Scandinavia and Russia, and her green vegetables from Holland.

The yearly gross earnings of the United States Steel Corporation are approximately equal to the gross revenue received by the United States Government.

Seventy French firms manufacture motor cars and their combined output last year was 12,000 cars. The industry employed 180,000 workmen, earning on an average of \$390 a year each.

A direct weekly train from Moscow to Leningrad on the Yellow Sea has just been installed. The time is three and a half days, with two days steamer added to Shanghai and one and a half added to Nagasaki, Japan.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects it.

Divers' boots weigh 20 pounds apiece. The helmet weighs 40 pounds, and the diver carries 80 pounds weight besides.

Treherne, Jan. 6, 1902.

Massey-Harris Co., Limited, Winnipeg, Man.

Gentlemen—It gives me very much pleasure to inform you that the No. 1 Binder which I purchased from your Agent, here last summer, has given the very best of satisfaction, doing its work to perfection, and drawing light—very much lighter than I expected. My crop was very heavy, and some of it very badly down, but your binder did its work splendidly. I had no trouble whatever. I hope you will sell lots of binders for 1903 and save my brother farmers lots of trouble. I wish you every success.

R. M. FERRIS.

A weak but ingenious young guy was induced to believe he could fly. So he built a machine. That required gasoline. And he then flew a trifle too high.

Minard's Liniment for sale everywhere.

"Young man," said the pompous individual, "I did not always have this carriage. When I first started in life I had to walk." "You were lucky!" chuckled the youth. "When I first started in life I couldn't walk."

For Over Sixty Years.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gum, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It is pleasant to the taste, and never injures the system. Twenty-five cents a bottle. Its value is incalculable. Beware and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

The sunniest part of the British Isles is the Channel Islands. There the sun shines four hours out of every ten it is above the horizon.

Minard's Liniment Cures Burns, etc.

Only 49,746 acres of flax were grown in Ireland last year. This is a decrease of 10.3 per cent. on the figures for 1901.

Oil City, Feb. 5, 1903.

Massey-Harris Co., Limited, Toronto, Ont.

Gentlemen—Please send me one of your 1903 catalogues of farm machinery. I have used no machinery that gives as much satisfaction as Massey-Harris.

"My queen!" fondly exclaimed the infatuated youth. "My Jack!" softly responded the blushing maiden. But all the same there will be "no cards" at the wedding.

VALUE OF A SERMON.

It is conceivable that a sermon may have a legitimate commercial value of its own, and Queen Alexandra has lately sent out cheques for £15 each to two charitable institutions, the money being the product of a year's sales of a sermon preached before Her Majesty, at Sandringham. The sermon was preached ten years ago, and was printed by command of the Queen for the benefit of the Gordon Boys' Home and the British Home for Incurables, which have received from this source altogether more than \$7,500.

VOICE FROM THE PRAIRIES

TELLS OF THE GREAT WORK DONE BY DODD'S KIDNEY PILLS.

Thos. I. Hubbs Tells How His Kidney Strain Vanished When He Used the Great Kidney Remedy.

Kenlis, N.W.T., April 13.—(Special)—In this new country where medical attendance is often hard to get, the action of special preparations is carefully watched and the results are carefully noted. Consequently, conclusions arrived at that are of value to the public, and the almost unanimous conclusion is that as a family medicine there is nothing to compare with Dodd's Kidney Pills.

As a tonic it has made a name for itself, while its cure of all stages of Kidney Disease from Bright's Disease to Backache might be considered miraculous if their frequency did not make them almost common.

The following story told by Thos. I. Hubbs, a farmer in Indian Head municipality, is one of the many that have given Dodd's Kidney Pills their reputation.

"About one year ago," says Mr. Hubbs, "I was thrown from a wagon, causing some strain on my kidneys. I tried several medicines but could get no relief till I was induced to try Dodd's Kidney Pills. 'Dodd's Kidney Pills' relieved me almost from the start and by the time I had finished one box my pains were gone. They have not come back either."

TO PREVENT PNEUMONIA.

Now this means a lot. Pneumonia once established, must run its course and when statistics show us that more people die annually throughout the Northern, Middle and Western States from this, than from any other disease, it becomes us to stir ourselves and ascertain what remedies we can adopt to prevent a cold developing into pneumonia. I give you these right here—Dr. August Koenig's, Rubbing Breast Tea and Hot on the approach of the first symptoms of a cold or pneumonia does not come first, it is a neglected cold and exposure that precedes pneumonia. In conjunction apply St. Jacobs Oil across the top portion of the chest and throat, cover with oil skin, on top of which put hot flannel cloths; place feet in hot mustard and water, take a hot lemons with a dash of Jamaica, (not Medford, oh, dear no) rum, and you will be all right, most likely in a day or two.

"What is ability?" "Ability is that to which a man owes his own success. And what is luck?" "Luck is that to which all others owe their success."

Minard's Liniment Cures Dandruff.

The world's stock of unmanufactured copper in the hands of dealers usually stands at about 90,000 tons.

I know MINARD'S LINIMENT will cure Diphtheria.

JOHN D. BOUTILLIER, French Village.

I know MINARD'S LINIMENT will cure Croup.

J. F. CUNNINGHAM, Cape Island.

I know MINARD'S LINIMENT is the best remedy on earth.

DISASTER AT FRANK

Volcanic Eruption in Town and

A despatch from Winnipeg says: special on Wednesday afternoon from Calgary says seventy-five are dead as a result of a volcanic eruption at Frank. The cause of the disaster is reported to be an earthquake or a volcanic eruption, but supposed to be the latter. Telegraph wires are down, and only the Canadian Pacific telegraph is in communication with the superintendent at Frank. The despatch says that seven or five people were killed outright, and that about twenty or thirty men were injured. Almost instantaneously a great volume of ash was hurled into the air, and a five and six feet diameter of ash fell on the town. The fire was then extinguished from the mouth of the mine. In an incredibly short time a row of houses was developed. It was then reported that they have either been buried or burned. The following despatch received direct from Frank, stating that in some instances the public communication had been stored:

"Franklin has been a disaster. A volcanic eruption has taken place over a mile wide, and immediately after it appeared to be volcanic. The eruption took place on the top of the Mountain, which overflows the town, throwing millions of tons of ash out and covering the houses and buildings and laying the roads of feet deep. All the employed about the mine were stantly killed, and over twenty are imprisoned in the mine. The loss of life is estimated at a hundred, mostly women and children. The mountain is still rising up rock."

The town of Frank is in the bridge section of the Canadian Pacific Railway. It is situated within view of the Rocky Mountains. It is the name of a mining town which has grown rapidly, and the despatch literature to be found elsewhere. In the last issue of the paper appeared: "That Frank is a busy place this summer, and double itself in size. Long a population, its daily growth who have taken the mining into the large amount of work is to be done this year."

SAFE.

A message received at Winnipeg Monday from Frank says: "The seventeen options of the mine are out without injury, and the dead from suffocation. One unnamed found his house with rock and his wife and son killed. It proved that the mine were safer than the town. The inside workings of the mine are intact. No explosion or sign of gas was felt by the trapped miners until 2 o'clock. They worked until 2 o'clock, then they went out through the shaft. The air is now going into the mine. Assistant General Manager of the Canadian Pacific Railway, said he had 111 of the despatches which had been received. There was no loss of life. The trouble was caused by a volcanic eruption. A fan-roaching effect. The mine was completely blocked, and that the top of the mine was burning. I am afraid that the despatches indicated, but the shaft is being taken. The mine has sent out letters to doctors, nurses and hospitals to give the necessary aid. Our agent at Cranbrook is on the railway track is covered for a distance of two miles east of the mine, and at the time this despatch was received, the rock was coming down the mountain, and a mouth of the mine in the town. We purchase mineral water for our purposes. We have about 700 tons per day. A special train left Calgary on Wednesday for the scene of the disaster. This action was taken pursuant of instructions issued by the Commissioner of the Canadian Pacific Railway. James Smart, who was on board twenty members of the Northwest Mounted Police, will preserve order in the town.

EATER.

A despatch from Ottawa says: "The Minister of the Interior, Mr. W. L. Mackenzie, yesterday acted for the Government and decided what relief measures should be arranged, as follows: "Frank, N. W. T., April 30. Fifty-three killed, of whom about fifteen are women, and fifteen children.

All the employed about the mine were stantly killed, and over twenty are imprisoned in the mine. The loss of life is estimated at a hundred, mostly women and children. The mountain is still rising up rock."

The town of Frank is in the bridge section of the Canadian Pacific Railway. It is situated within view of the Rocky Mountains. It is the name of a mining town which has grown rapidly, and the despatch literature to be found elsewhere. In the last issue of the paper appeared: "That Frank is a busy place this summer, and double itself in size. Long a population, its daily growth who have taken the mining into the large amount of work is to be done this year."

SAFE.

A message received at Winnipeg Monday from Frank says: "The seventeen options of the mine are out without injury, and the dead from suffocation. One unnamed found his house with rock and his wife and son killed. It proved that the mine were safer than the town. The inside workings of the mine are intact. No explosion or sign of gas was felt by the trapped miners until 2 o'clock. They worked until 2 o'clock, then they went out through the shaft. The air is now going into the mine. Assistant General Manager of the Canadian Pacific Railway, said he had 111 of the despatches which had been received. There was no loss of life. The trouble was caused by a volcanic eruption. A fan-roaching effect. The mine was completely blocked, and that the top of the mine was burning. I am afraid that the despatches indicated, but the shaft is being taken. The mine has sent out letters to doctors, nurses and hospitals to give the necessary aid. Our agent at Cranbrook is on the railway track is covered for a distance of two miles east of the mine, and at the time this despatch was received, the rock was coming down the mountain, and a mouth of the mine in the town. We purchase mineral water for our purposes. We have about 700 tons per day. A special train left Calgary on Wednesday for the scene of the disaster. This action was taken pursuant of instructions issued by the Commissioner of the Canadian Pacific Railway. James Smart, who was on board twenty members of the Northwest Mounted Police, will preserve order in the town.

EATER.

A despatch from Ottawa says: "The Minister of the Interior, Mr. W. L. Mackenzie, yesterday acted for the Government and decided what relief measures should be arranged, as follows: "Frank, N. W. T., April 30. Fifty-three killed, of whom about fifteen are women, and fifteen children.
