

Children's Attire.

Munyon's Remedies for Children

"Train mothers to intelligently look after the health of their families and the well-being of a nation is assured."

Munyon.

It has surely been a labor of love for me to study the diseases of children with a view to their relief and cure. Many grown people will stubbornly cling to the debilitating drugs and instruments that are relics of barbarism, but it is also an abomination to give two children at the risk of physical degeneration. My remedies for children's diseases are effective and powerful, but they are entirely harmless. Munyon Family Medicine Chest, and Munyon's Cold Cure prevent pneumonia and break up a cold in a few days. Personal letters addressed to Prof. Munyon, Philadelphia, S. A., containing details of sickness, will be answered promptly and free advice as to treatment will be given.

SERVANTS IN ECUADOR.

The Traveler Is Forced to Hire Many to Serve Him.

If you're living in Ecuador and wished to hire a servant you could hardly get one by himself, or herself, but would be compelled to take up with a drove of them, probably outnumbering your own family, says a correspondent of the Philadelphia Record. For example, with cook you would have to receive her husband and children, and perhaps also her father and mother, to your house to bed and board, and each would bring along all his or her portable property, consisting mainly in domestic pets, such as dogs, chickens, rabbits, dogs, and other live stock. The husband may have some trade which he follows during the day, but at meal times and when night comes he returns to the bosom of his family and yours. It would be considered downright inhumanity to refuse their nod and shelter, and not a servant in Ecuador would work for so meager a master, or mistress. The children of your cook may be utilized for gratis services, such as running errands, sweeping the garden and tending the baby; but the numerous road is apt to be "light fingered," and certain to be "lousy, dirty and probably diseased." There is no help for it, however, because "el costume" has decreed that for every servant you hire you must expect at least a dozen extra mouths to feed. Now is this the worst of it. Occasionally the cook's relatives from another village come to pay her a visit of a fortnight or two-lasting longer if you will tolerate it. Women and children, bringing with them pigs, chickens, etc., to be housed and fed. Fortunately, they are not accustomed to "downy as of rice" or sumptuous living, and consider themselves in clover if plentifully supplied with beans, cornmeal and potato soup, and will eat contentedly on the stones of bread or the straw of the stable. The danger is that some of these strangers hangers-on may not be honest as the cook herself is supposed to be, and cases are known where thievery and even murders are gained admission to the inside of the case with disastrous results.

COLORS OF FLOWERS.
The same species of flower never grows more than two of the three red, yellow, and blue. Roses, instance, are found red and yellow, never blue; verbena are blue, but not yellow; some are yellow and blue, but not red.

Study and Worry over Examinations—Dr. Chase's Nerve Food.

In this preparation we are more pleased with the improvement that has been made in her health, losing one hundred per cent; better her nerves are steadier, she is bothered with headaches and is not increasing in flesh, and is.

J. R. Wardrobe, 267 Sherbrooke Street, Peterborough, Ont., states: "One of my children has suffered a deal with nervous headaches, pains and sleeplessness, and, in fact, was run down, pale and thin. These troubles were attributed to over-study and confinement to school. She began using Dr. Chase's Nerve Food, and I can say we have found this treatment truly helpful. It has relieved the headaches, steadied her nerves, built up her system wonderfully, and see a great change in her, as color is returning to her face, she is gaining in flesh, and is."

THE VICTORIA STRIKE.

Bill to Suppress It Receives Second Reading.

A Melbourne, Victoria, despatch says: In the Legislative Assembly on Wednesday Premier Irvine made a speech on the subject of the strike. He said the country faced a long-mediated revolt against established authority. The issue concerned every country. The strike had thrown the State into confusion, and it would be a fight to a finish.

The Premier then moved the second reading of a bill providing for the suppression of the strike, which is not retrospective, and which will not remain in force after the termination of the strike. It provides that an employee leaving his work without giving four nights' notice is to be assumed to have joined the strike, and will incur the penalty of \$500 fine or a year's imprisonment with loss of pension, and will be ineligible in the future for Government employ. The bill also forbids interference with employees, the collection of strike funds or encouraging the strike in any manner.

The bill further empowers the police to destroy documents, encouraging the strike, make printers thereof offenders against the law, and declares meetings to be unlawful if four strikers are present. All persons refusing to disperse are liable to arrest without warrants, and the police are empowered to forcibly enter meetings.
