

FEET SWOLLEN. Could Not Walk
I have had Rheumatism for
years, principally in the legs,
which necessitated standing by myself.
About six weeks ago all
particularly badly affected; my legs
were swollen up so that I
hardly put my shoes on. I secured
a vial of Munyon's Rheumatism
and it was wonderful the relief
I have not suffered a bit since.
"J. B. Robinson, 35 Chancery
Street, Ottawa.
Rheumatism Cure: ask him about it."

a hoo. It is excellent to clean
grass growing close to walls, fence
weeds which grow or trees
between the houses of wooden walk, when
books choked with plants, thorough
sprinkling with water, sulphate of copper
reduced. Is the most convenient

THE FOWL OF THE FUTURE
must be the fowl that will furnish
the best meat and the most eggs.
The "fancy" is all right so far as it
tends to keep a breed true to feathered
exclusively for the show room
bound to degenerate in vigor and
usefulness. Fine feathers, without
other good qualities, are useless
practically. We want more good
fowl, and less fine feathers and high
scores. And the trend of opinion
that way. More eggs, more market
poultry, and less purely fancy

DO UNTO OTHERS.

A good many people think that
owning land, they have a right to do whatever they like with it. This
is true only in a measure. They
owe something to society and to
their neighbors. Every man must
conform more or less to the best in
interests of the community. For instance, no man has any right to
grow some weed, or to neglect to
suppress it, the seeds of which may
become scattered over his neighbor's
fields. And this holds good on the
broader field of plant and animal
disease. A man's duty to his com-
munity forbids that he should com-
mit a wrong to his own place, if such
a wrong will tend to injure his neighbor.

THE BEST BEEF

can only be made during the period
of a steer's most rapid growth. In
intensity your feeding; this is the way
and the only way to make it profit-
able on high-priced land. It is long
years since we learned to feed pigs
this way. You know how we
used to let the hogs run until they
were a year old and older, and then
fatten them. Nobody feeds hogs in
that way now. Take a lesson from
our pig feeding and apply to your
cattle feeding. That is all you have
to do.

DESTROYING LICE ON HOGS.

Where there is a large herd, the
best way is to spray with kerosene
emulsion. This will not only
destroy the parasites, but will also
leave the hogs as well. If only a
few are left, a thorough washing
with warm water and soap and the
use of the scrubbing brush is ex-
ceptionally effective.

A TIME LIMIT.

A Scottish hotel-keeper was one
day buying a squatish wisp of an
Englishman concerning his bill. The
man said it was a gross im-
position he could live cheaper in
a best hotel in London. The High-
land landlord replied:—
"Oh, ma doot, sir, nae doot; but
nae the ken of the reason?"
"Not a bit of it," replied the
lander, hastily.
"Well, then," replied the host, "as
seem to be a sensible bit gallant
I'll tell ye. There's three hundred
sixty-five days in the Lunnon
calendar, but we have
three months here. Pee yo
leander me, noo, freen?"
"We mak' huk in the blaw's when
sun shines, for it's unco seldom
dost."

It is a good spring tonic a medium
garded spade is not so bad.

in the Spring
natural Result of Exhausted
Dr. Chase's Nerve Food.

M. A. Sharp, 316 Dublin
Peterborough, Ont., writes:
"For some years I was troubled
by indigestion, which developed
into nervous dyspepsia, and besides
being from nervousness, strange
sights would come over me.
One of the good results obtained
from Dr. Chase's Nerve Food, I
decided to try it. After a pretty
rough test of this medicine I can
say that I never used anything that
was so much good. It seemed to
be the very treatment that I needed,
as a result of its use, I am
restored to health."

Noting your increase in weight
by using this great food cure you
prove that new, firm flesh
is being added to the body.
Appetite is sharpened, digestion
assimilation are improved, the
rinds out, the ruddy glow
to the cheeks, and in every
there is evidence that the sys-
tem is being restored and built up.

To protect you against
aliens, the portrait and signature
of Dr. A. W. Chase, the famous
book author, are on every

A company has been organized at
Winnipeg to conduct what will, it is
said, be one of the largest dairy
farms in America. 1,750 acres of
land on the south bank of the river
just one-half mile from the city limits
have been secured. This land is
one solid block and is well adapted
for the purposes of this new company
to keep 300 cows, a large percentage
of which will be Holsteins. The
next largest farm to this in
size to be in New Jersey, where 500
tows are kept.

BEAUTY'S CHARM.

Clear Skin, Rosy Cheeks and
Bright Eyes Compel Admira-
tion.

No woman needs to be told the
charm of a clear complexion. No
man can be blind to the beauty of
rosy cheeks, or the power of
sparkling eyes. And every woman
no matter what her features may be,
can have a perfect complexion.
From pure blood—and
the satisfaction of having the
washing done early in the day,
and well done, belongs to every
user of Sunlight Soap.
