This is the first time in history that the Province has divided into party lines.

"The Record" states that the other night, when one of the young men of Moore, with his best girl, was driving home, the conversation drifted to the subject of fortune telling. The young man asked her if she believed in palmistry. She looked at him with a dove-like expression upon her face and said, "I think I could foretell more pleasure if I could see the lines in one of your hands." The young man remained in deep thought until several miles had been travelled, when an expansive smile illuminated his face, he took the lines in one hand and grasped the situation. (Kansas City) Journal.

Its Announcement.

An excellent sample of typographic and lithographic art has been sent us by the London Printing and Litho Co. The little booklet is an exponent of the Deering Machine Co., that has recently been opened at Hamilton. The frontispiece shows a young British boy supporting the Union Jack, and surrounded with warships; and the outside cover contains portraits of Queen Victoria, King Edward and Queen Alexandra, the Prince and Princess of Wales, and Prince Edward of Cornwall and York. This is artistically lithographed in colors. The inside pages are illustrated throughout.

About Shade Trees.

There is altogether too much liberty taken with the trees, which beautify the landscape. It is a popular error that shade-trees in the streets are the property of the corporation, and thus they can be mutilated or removed without let or hindrance from the owner of the adjacent property. When any tree butcher or other person comes along with designs on your shade-trees just quote sub-sections 3 and 4 of section 1 chapter 243, S. O., which says:—Every tree on the street shall be deemed to be the property of the owner of the lands adjacent, and every growing tree planted or left standing shall be deemed the property of the owner of land adjacent.

The Orange Grand Master.

The Daily Globe of Tuesday gives a good out of Dr. Sproule and the following: The Grand Orange Lodge of British America opens in Winnipeg tomorrow under the Presidency of Dr. Sproule, M. P., who succeeded the late Mr. Clarke Wallace as Grand Sovereign. Dr. Sproule though not yet sixty, for he was born in December, 1843, in King township is one of the oldest of Canada's Parliamentarians. He entered the House of Commons as Conservative member for East Grey in 1878, and has held his seat continuously for a quarter of a century. That same tenacity is observable in the doctor's character through-out. He is decidedly argumentative, as his fellow members in Commons know, but, politics apart, is popular in his riding. His grip of the Orange Order was greatly strengthened by reason of the fact that he put up a vigorous fight against the remedial bill in 1896. His attitude in regard to the great Manitoba issue has not changed, and he emphasized it while touring in the west with Mr. Borden last year by failing to visit St. Boniface with the other Conservative leaders.

Midsummer Cookery.

The Delineator for July offers a number of features of interest to the culinary department of the household. Miles Bradford's entertaining paper in the "Carlotta and I" series. An "Emergency Luncheon" includes some admirable suggestions for the utilizing of left-overs. A feature of special timeliness is the two pages portraying hot weather beverages, daintily arranged on trays for serving and with the recipes for the same. Fruit salads is the subject of a paper; tempting ways of serving tomatoes are given in another, and the preparation of tomatoes, both plain and sweet, is also explained. Hot After Them.

The hotel-keepers of Wingham had an unexpected visit from the Inspector last Thursday evening, and on Friday the five of them were up for selling after hours. Hotelkeepers who will persist in breaking the law, after they have been notified as to the inspector's intention of carrying out the law to the letter, can only blame themselves, if they wake up some morning and find a summons awaiting them. Mr. Paisley is hot after them, which is his instructions, and would advise the closing up of the place at the hours called for. The county and province is richer by the above amount to the extent of \$125.—Clinton Era.

Cruelty to Horses.

The campaign against the over-work check for horses, which has been waged for many years with spasmodic vigor, is about to be renewed and a fresh protest made against the use of this cruel device. To keep an over-work check on a horse that is working all day is little short of inhuman and indefensible from any point of view. The animal tires hours sooner under this treatment, the neck and shoulder muscles become numbed, and general exhaustion follows. The only real defence of the device is that it keeps hard-mouthed horse from getting his head down on his chest, and becoming unmanageable, and that it discourages kicking and applies also to the ordinary side check which was designed as an answer just this purpose. It may be noted, however, that a loose over-work check does not cause greater misery than a tight side check. Any big checking of a working horse's head is a cruelty that should be stopped, and we are pleased to see the Humane Society taking the matter up and vigorously advocating that the unnecessary torture to "man's best friend" be put an end to.

Grey Election.

The nomination for a reeve for township took place on Monday, with the following result: H. G. Scott, John Hudson, Dr. Softly, Angus Cameron, Joseph W. Gamey. The names resigned. The election place on June 15th. Mr. G. Scott lauded in his resignation Saturday, May 30th, has moved to the Northwest.

The Hon. J. R. Stratton recently presented a bill to the Legislature to compel counties to erect houses of refuge before the first of January, 1903, which has passed. We take it for granted that Mr. Stratton "forgot" to present the bill to the Legislature before Grey County decided to build a house for indigents, but we are just far enough ahead now to say that we were not compelled. Some 21 Ontario counties will be effected by the bill, which will compel them to build houses of refuge within the next three years.

The annual convention of the Sunday School Association of Euphrasia will be held in Ebenezer Methodist church, on line, on Tuesday, the 16th inst., beginning at 1.30 p.m. and 6.30 p.m. Refreshments will be served by the ladies of the congregation.
