

BROWING FORAGE CROPS

FEEDERS SHOULD PREPARE FOR SUMMER DROUGHTS.

Dominion Department of Agriculture Gives Some Good Advice.

Nearly every summer we hear the same old story of midsummer droughts and consequently scanty pastures. Many of our best farmers have learned to guard against loss by having a supply of succulent feed to fall back upon in case the pasture fails. A small silo, filled especially for summer use, will go a long way to meet the difficulty and a partial system of soiling has also proved favor among progressive stockmen. The Live Stock Commissioner, Mr. W. F. Hodson, has frequently drawn attention to the advisability of growing some green crops for summer feeding, and has recommended a number of such crops as suitable for general growth, but only personal experience will enable a farmer to select the varieties of fodder plants best suited to his requirements. It will be necessary to consider the most suitable crops to grow and the periods during which each will be available. Rye, clover, rape, peas and oats, vetches, millet, sorghum and corn will afford a satisfactory supply of green feed all through the summer if sowings are made at suitable intervals.

RYE SOWN IN THE FALL
will furnish the earliest feed in the spring, but as grass is usually abundant at that time, this crop is not likely to be needed unless a complete system of soiling be practiced. The clovers where they grow well come next on the list and will provide an abundance of good feed during the latter half of June. Where it is possible to grow lucerne or alfalfa, it will be found the best of all soiling crops. It can be cut in the spring almost as early as rye, and yields at least three crops per season of rich feed. It is readily eaten by all kinds of live stock, but like other clovers it is apt to cause bloating if carelessly pastured. In Southern Ontario it usually stands the winter well and lasts for years without reseeded. It should be sown in the spring, either alone or with a light nurse crop of barley, wheat or oats, and at least twenty pounds of fresh good seed per acre. It is slow to gain a foothold and should not be pastured the first year, but after that is very tenacious of life, and withstands droughts particularly well.

Rape may be sown about the first of May for early feeding, and additional sowings may be made at intervals as desired. It is advisable to sow rape in drills about two feet apart on rich, well prepared land, and to cultivate as for turnips. If drilled in, only two pounds of seed should be sown per acre, but if sown broadcast, double the amount. Dwarf Essex is the best variety. Rape produces large quantities of green feed, and it is one of the best foods for keeping pigs, sheep and calves in good condition. It is not satisfactory for milch cows, owing to its tendency to injure the favor of the milk.

OATS AND PEAS make one of the very best soiling crops for general growth, particularly for feeding dairy cows. They should be sown as early as possible in the spring, and at intervals thereafter, at the rate of about three bushels per acre, (equal parts, or two bushels oats to one of peas).

VETCHES OR TARES are now grown in Canada to a considerable extent, particularly by dairy farmers. They are likely to prove of value in nearly all the provinces. The common spring vetch has been most generally grown, but recent experiments have shown that the hairy vetch will yield a much larger amount of green fodder per acre in Ontario. The latter is very desirable for soiling especially in dry districts, and appears to be relished by all classes of farm stock. Owing to the high price of the seed, it will probably be found best to sow vetches along with peas at the rate of one bushel vetch to one bushel peas, and two bushels of oats per acre. This mixture will produce an

STRONG PRAISE.
From One Who Has Proved the Value of Dr. Williams' Pink Pills.
"We have used Dr. Williams' Pink Pills in our home for the past eight years for various troubles, and have always found them successful." Thus writes Mrs. E. Hevener of West Greenburg, Ont., and she adds: "At the age of eight years, my little boy was attacked with grippe, and the trouble developed into St. Vitus' dance, from which he suffered in a severe form. He was under several doctors at different times, but none of them helped him. Then I decided to try Dr. Williams' Pink Pills, and they restored him to perfect health, and there has not since been any return of the trouble. More recently I have used the pills myself for muscular rheumatism, and they were equally successful in effecting a cure. The pills have saved me many a dollar in doctor's bills, and I would like every one who is sick to try them."
Dr. Williams' Pink Pills cure all troubles due to poor or watery blood, or weak nerves, and that is the reason why they are the most popular medicine in the world, and have a much larger sale than any other remedy. They cure such troubles as rheumatism; sciatica; partial paralysis; St. Vitus' dance; anæmia; indigestion; neuralgia; heart troubles; and the ailments common to women, simply because they make the rich red blood, strengthen the nerves, and drive disease from the body. You can get the pills from any dealer, or they will be sent you for \$2.50 by enclosing the Dr. Williams' Medicine Co., Brockville, Ont. See that the full name Dr. Williams' Pink Pills for Pale People is printed on the wrapper and on every box.

A little Sunlight Soap will clean cut glass and other articles until they shine and sparkle. Sunlight Soap will wash other things than clothes.

excellent crop for July and August feeding, and if cut early will afford good pasture afterwards. Millet is another plant that particularly exceeds as a catch crop. It can sometimes be sown after a forage crop of peas and oats has been taken off the ground, and if there is moisture enough to start it, will yield a fair crop. If sown early in June, at the rate of about thirty pounds per acre, it will furnish a large crop of good fodder by the middle of August. The Japanese Barnyard and Japanese Panic are the best varieties, the former preferring a moist soil.

Corn is sown in most localities, the great standby for fall feeding. Another very valuable fall fodder plant for the Southern parts of Canada is sorghum. The Early Amber is the variety best suited to our latitude. It should not be sown until the weather has become settled and warm on land that has been prepared in the same way as for corn. If sown in drills, three pecks of seed will be ample for an acre, but if broadcast, more will be required. It is slow in starting, but after it has attained a height of a few inches, growth is very rapid and the crop heavy. It is greedily eaten by stock, but like corn it is carbonaceous in its nature, and some additional feed such as clover or oilcake should be added to balance the ration.

Soja or soy beans are also likely to prove valuable in the Southern districts. They produce a large amount of forage of excellent character if sown on land prepared as for corn at the rate of two to four pecks per acre. The Yellow Soy is the best variety for Canada and is worthy of trial.

Department of Agriculture, Ottawa.

WEAKLY CHILDREN.
Stunted, weakly children are those whose food does them no good, because they do not digest it properly. Keep the child's digestive organs right and it will grow up strong and healthy, and it will not cause mother much trouble while it is growing up. It is the weak children—the play children—that wear the mother out caring for them day and night. All this is changed when Baby's Own Tablets are used. They promote digestion, they give sound, natural sleep, they keep baby bright and cheerful. They are good for older children, too, and cure all their minor ailments. It costs only 25 cents to prove the truth of these statements, and you will be thankful afterwards. Mrs. Archibald Sweeney, Carleton Place, Ont., writes: "I have given my little one Baby's Own Tablets, and am more than pleased with the results. I can recommend them to every mother." That's the way all mothers, who have used the Tablets, talk. That's the way you will talk if you will try them. You can get the Tablets from any dealer, or they will be sent by mail at 25c. a box by writing to Dr. Williams' Medicine Co., Brockville, Ont.

Stranger—"Are there any gossips in this village?" Postmaster—"Well, the last census gives us a population of seven hundred."
"Did you say you caught this fish this morning?" asked the wife, with her nose in the air. "Yes," replied the unsuccessful angler, who had stopped at the market on his way home. "Why?" "Well, I'm glad you didn't wait until to-morrow morning."

A VICE-REGAL VISIT.
Lord and Lady Minto at the Massey-Harris Company Works.
The Governor-General and Countess of Minto spent a couple of hours visiting the immense Massey-Harris works this morning.
At the special request of their Excellencies the visit was kept private; it being their wish to view the great works while in operation, and the men actively engaged in performing their accustomed duties.
Notwithstanding the care exercised by the officials and superintendents of the company to this end, the familiar features of the Vice-Regal party were soon recognized by the employees, and cheer after cheer rang through the building and flags and bits of bunting appeared on the scene in a moment to give the party a royal welcome.
Captain Hall was with their Excellencies, and the party were escorted through the plant by Messrs. C. D. Massey, Hon. President; Hon. L. Melvin-Jones, President and General Manager; J. Kerr Osborne, Vice-President and Assistant General Manager; R. H. Vorley, General Superintendent, and O. J. Love, Superintendent Toronto Factory.
Their Excellencies experienced keen delight in watching the various wonderful methods of manufacture employed to produce the world-renowned Massey-Harris implements—Toronto Star, June 9, 1909.

Mrs. Suburb (joyously)—"My dear, I've succeeded in getting a servant girl at last. Go to the kitchen and kiss her." Mr. Suburb—"Kiss her?" Mrs. Suburb—"Certainly. I had to promise that she should be treated as one of the family."

SALADA

IN CASE OF POISON.
When any one is accidentally poisoned and you are not sure of the antidote, give an emetic of some kind immediately. Mustard and salt are two things found in every household, but a bottle of ipecac costs little and is better than either and should always be kept in the house. If mustard is to be used, put a dessertspoonful in a glass of like-warm water and make the patient take two or three glasses; then by tickling the throat with the finger vomiting is certain. The dose should be repeated in about ten minutes, so that the stomach may be thoroughly emptied. No matter what the poison, remember the thing you should do is to give an emetic.

THE DESIGNING FRIEND.
Hicks—"We had a great time at the club last night. Sorry not to see you there, Charley."
Mrs. Potter (after Hicks had gone)—"Why, Charley, you told me you spent the whole of last evening at the club."
Mr. Potter (with great presence of mind)—"So I did, dear. The reason Hicks did not see me was because he wasn't there himself. Trying to deceive his wife, probably."
Mrs. Potter—"The wretch! And he would try to rob me of the confidence I have in you! I always did see something about that man. I didn't like."

How's This!
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
P. J. CHENEY & Co., Toledo, O. We, the undersigned, have known Mr. J. Cheney for the last 15 years, and he is a man perfectly honorable in all his business transactions, and is entirely able to carry out any obligations made by him.

Bottle 25c. and 50c.

SHOES FOR PET DOGS.

In the window and outside showcase of a New York saddle-maker there are to be seen exhibited, with dog-collars of all kinds, different patterns and sizes of shoes. The most expensive are made of the saddle-maker's own particular leather pigskin. A set of four shoes of this leather, which is soft and pliable, have corrugated rubber soles, and are laced up round the ankles with leather thong. These sell at \$5 a pair. Calfskin shoes are made on the same last, and have light-colored heavy leather soles. These shoes cost \$4.50 a pair, and others of marocco, which are recommended as being the best liked by the elite of dogdom, cost the same. It was from France that the idea of dog-boots first came.

JOHANNESBURG'S DISCOVERER
In a sense the discoverer of Johannesburg was the late Sir Hercules Robinson (Lord Rosmead). Riding over the primeval Rand during his first sojourn in South Africa, he suddenly said to his companion, "There's gold underneath here, and plenty of it, too, if I am not mistaken." He had not been here for several years, and his keen eye had detected certain superficial geographical indications that carried his mind back to the gold fields of the Antipodes.

WELL EARNED POPULARITY
J. J. BURNS SAYS DODD'S KIDNEY PILLS SAVED HIS LIFE.

Could Scarcely Sit, Sleep or Walk When He Started To Use Them. His Trouble Gone For Good.
Darnley, P. E. L., June 1st (Special).—The popularity of Dodd's Kidney Pills in Prince Edward Island has been earned by cures complete and permanent. John J. Burns, Lot 18, Darnley, is one of the cured, and his story is a splendid example of the work Dodd's Kidney Pills are doing.
"For over eight years," says Mr. Burns. "I suffered from what the doctors pronounced Chronic Inflammation of the Loins and Kidneys. In the year 1898 it got so bad that I could scarcely walk, sit or sleep. I was about to give up when an advertisement led me to try Dodd's Kidney Pills and they did a wonderful work for me.
"Dodd's Kidney Pills saved my life and though years have elapsed since my cure I have had no trouble since I used them.
"I belong to the I. O. F. and any member can vouch for my condition and that Dodd's Kidney Pills cured me."
Dodd's Kidney Pills never fail to cure any form of Kidney Disease (once and for all).

CHEAP EXCURSION TO DENVER.
The Washburn will sell round trip tickets to Denver, Colorado Springs or Pueblo, Col., at less than the one way fare. Tickets on sale July 6th, 7th and 8th, good to return any time before August 31st, 1909.
Passengers going via Detroit and over the great Washburn line, can go via Chicago and Omaha, return through Kansas City and St. Louis without extra charge. This will give passengers the grand opportunity of seeing the World's Fair buildings at St. Louis. All Washburn trains stop at the Fair grounds.
For full particulars address J. A. Richardson, District Passenger Agent, northeast corner King and Yonge streets, Toronto.

A man of an inquiring turn of mind wrote to the editor of a daily paper, "Will you please tell me how many kinds of typewriters there are?" The next issue of the paper contained this reply: "Two—male and female!"

Minard's Liniment Cures Distemper.
She—"But, papa, why do you speak of the proprietor as the 'Old War Horse'?" He—"Because, my dear, he is such a frightful charger."

Minard's Liniment Cures Diptheria.
SOON CURES DEAFNESS.
Pretended deafness is readily exposed by a simple device which is often resorted to by the Parisian authorities. Six men there recently tried to escape conscription, but they subsequently betrayed themselves. One man was informed that he might stroll about the barracks with stone. A few minutes later a coin was adroitly dropped behind him, and its musical tinkle caused him to turn to look for it. The same trick was tried with each of the other five, and succeeded in every case.

PAPER STOCKINGS.
Paper gloves and stockings are now being manufactured in Europe. As to the manner in which the former are made little is known, but the stockings have been carefully examined by experts, and they are loud in their praise of them. It is claimed that they will last almost as long as ordinary stockings. The reason, they point out, is because the paper of which they are made was during the process of manufacture transformed into a substance resembling wool, and was then woven and otherwise treated as ordinary wool.

CHAPTER VI.
"Let me see," said his mother to herself, as he pushed beside the Marble Arch, at Hyde Park, and loaned his head against the rail of that structure. "Mr. Aubrey has been ordered two boys to be sent to him to-morrow forenoon—that is, the (chuckling got the better of him here)—very good. An mother has ordered one of the boys to go, while a tall Irishman has ordered the other. Now, the question is, which of the boys am I to send? Of the two both of the boys will do; but then, which of them will get the situation? The granchilder for you, Mr. Aubrey. You'll have to fill your house with an apprentice and set him to work over again before you'll throw up on that point. Sit still! I should like to see you in a predicament like that in for both situations. It is to be managed. The first boy you take a well-paid situation for, the second boy you might as well chuck, and the night-watchman at a bank (chuckling again interrupted the flow of thought). "Praps the situations might be got in the same place of business; that would be handy! Oh! if one of the boys could only be a girl, what a life that would be—sk! ha! ha!"
He was interrupted at this point by a knock, who remarked, "his companion, Bob, here's a letter." "A letter! Bob! and got out of a letter, a letter at nothink fit to be himself!"
So Willie resumed his walk, chuckle that fully confirmed a member of the black brigade opinion.
He went home chuckling, and to bed chuckling, without interrupting a mother of the cause of his own. Chuckling he arose on the following morning, and, chuckling still, at noon to Beverly Square, which discovered Mr. Aubrey standing gawd and forlorn, in the midst of the ruins of his once elegant mansion.

AT THE PO... OR, THE WA...

CHAPTER VI.
"Let me see," said his mother to herself, as he pushed beside the Marble Arch, at Hyde Park, and loaned his head against the rail of that structure. "Mr. Aubrey has been ordered two boys to be sent to him to-morrow forenoon—that is, the (chuckling got the better of him here)—very good. An mother has ordered one of the boys to go, while a tall Irishman has ordered the other. Now, the question is, which of the boys am I to send? Of the two both of the boys will do; but then, which of them will get the situation? The granchilder for you, Mr. Aubrey. You'll have to fill your house with an apprentice and set him to work over again before you'll throw up on that point. Sit still! I should like to see you in a predicament like that in for both situations. It is to be managed. The first boy you take a well-paid situation for, the second boy you might as well chuck, and the night-watchman at a bank (chuckling again interrupted the flow of thought). "Praps the situations might be got in the same place of business; that would be handy! Oh! if one of the boys could only be a girl, what a life that would be—sk! ha! ha!"
He was interrupted at this point by a knock, who remarked, "his companion, Bob, here's a letter." "A letter! Bob! and got out of a letter, a letter at nothink fit to be himself!"
So Willie resumed his walk, chuckle that fully confirmed a member of the black brigade opinion.
He went home chuckling, and to bed chuckling, without interrupting a mother of the cause of his own. Chuckling he arose on the following morning, and, chuckling still, at noon to Beverly Square, which discovered Mr. Aubrey standing gawd and forlorn, in the midst of the ruins of his once elegant mansion.

CHAPTER VI.
"Well boy, what do you have you anything to say to me?" Mr. Aubrey turned sharply to Willie, whose gaze had gone beyond the length of simple conversation. In fact, he was awe-struck at the sight of such a very tall and dignified man standing so grandly in the midst of such dreadful destruction.
"Please, sir, I was just sent to sir, by—"
"Oh, you're the boy, the boy that is to say you were sent by your mother," said Mr. Aubrey with a frown.
"Well, sir," replied Willie, "I was sent by my mother."
"Ah, I see," interrupted Mr. Aubrey with a smile that was not to be gratified. "You were sent by a friend; you are not the man; you're the other boy."
"Poor Willie, being of a possible nature, found it hard to maintain himself on hearing the words of the previous evening, which he had so unexpectedly. He became red, and he took refuge in blushing his nose, during which time he observed that the sight of Mr. Aubrey's face—the resolution of the other boy."
"Yes, sir," he said, "I was sent by my mother."
"I am the other boy."
Mr. Aubrey smiled again, and said that the friend was a brave fellow, and that he had his daughter's life, and that he was very glad to do anything that he had the power to do. Willie was understood that Mr. Aubrey's man's brother, to which he replied that he was.
"Well, then, come this way," said Mr. Aubrey, leading Willie into the library of the old house, which his friend had put in his disposal, and seating him at a writing table. "You want a
