

hours, then boil... tender, and get away... in the day, weigh... all), and to each... ture, add 1 1/2 lbs... until it jellies... transparent. This... gts., and is delici...

LEMON MARMALADE—Six lemons, 1 orange, 7 lbs. granulated sugar, 1 1/2 pts. water. Wash the lemons and cut in quarters and slice very thin... stand in the water over night... sugar and boil one hour, then add... or until it jellies, and turn into... they add much to the appearance of... the marmalade and give it tone.

BEAUTY-MAKING FOODS.—The best of all beauty-making foods are fresh fruits and fresh vegetables, said Prof. H. W. Wiley. They contain relatively little nourishment, but they are so rich in vitamins that they are so effective in their action... The fact is that most fresh vegetables and fruits are nearly pure water. Spinach is 92 1/2 per cent. water, cabbage is seventy-seven per cent. water, beets are eighty-eight per cent. water, carrots are ninety-one per cent. water, cucumbers are ninety-six per cent. water, egg plant is ninety-three per cent. water, onions are 87 1/2 per cent. water, tomatoes are ninety-six per cent. water, green corn (cut from the cob) is 81 1/2 per cent. water, and celery is 94 1/2 per cent. water. Fruits are pretty nearly all water, though the banana is relatively rich in starch.

HOUSEHOLD HINTS.—When icing a cake just a little dry flour over the top of it before putting on the icing. If this is done the icing is likely to run off, as it otherwise would. When black hair looks hopelessly rusty, wash it for some hours in cold vinegar and water, in the proportion of two tablespoonsful of the former to a pint of the latter; then rinse it in cold coffee and iron it while it is damp between two pieces of flannel. This process will give it a new and fresh-looking lease of life. Cold tea should not always be thrown away, for it is a good thing with which to wash oilcloth when it is diluted with water. It is also excellent for ferns. It is a capital plan to keep a piece of white oilcloth to spread over the table when cooking is going on, and a piece of floor-cloth to lay on the floor between the table and the range. Both can be so easily wiped clean when done with.

TO REMOVE FRUIT, tea, coffee, or chocolate stains from table napery spread the stained part over a towel and pour boiling water through the cloth from a height so that it will strike the stained place with force. To make the treatment more effective, add a little borax to the water. This is a good plan when a new Christmas bag has been bought, and before it is used, to rub a little sweet oil well into it, and then to polish it with a dry duster. This makes the leather soft and nice, and so the bag will never get to look as though it were ingrained with dust. When moth is in a carpet, turn it back and iron it on the tong with a good flat-iron. They sprinkle the floor underneath liberally with turpentine, pouring it into the cracks in the floor if there are any, and rubbing it well into the boards. This treatment should be repeated every two or three days for a fortnight.

IN KENTUCKY.—Dead men guard no falls. Order is heaven's first law. A poor feed is better than none. To shoot is human; to forgive, a crime. A gun in the hand is worth two in the hip pocket. Never put off until to-morrow the deed you can start to-day. God gave us bushes that there might be ambushes.

HORSE V. MULE.—After quarrelling over the respective strength of a horse and a mule two farmers at Segovia, Spain, decided to settle the matter by a tug of war. The animals were harnessed, one at each end of a cart. After a desperate struggle the mule triumphed, pulling the horse off its legs, and galloping away with it.

COSTLY TEETH.—Owing to an accident on horse back, the Sultan of Johore had all his incisors knocked out. They have been replaced by teeth of gold into each of which has been set a large diamond. The effect is very weird when the Sultan smiles, and the sunlight catches the stones.

WEAK AND FAINTING

THE SAD FLIGHT OF ANAEMIC PEOPLE.—They Have Headaches and Backaches—Are Languid and Unable to Stand Exertion. From the Sun, Orangeville, Ont. You can always tell anaemic men and women. They are pale, weak and languid. They have headaches and backaches. They can't eat—or can't digest what little they do eat. And it all comes from poor blood. And it is all caused by the anemia at once by enriching your blood and toning up your nerves with Dr. Williams' Pink Pills. Thousands of grateful women have said that these pills have restored them after all other means tried had failed. Mrs. Josias McIlroy, of Orangeville, Ont., was a great sufferer for several years and spent much money looking for a cure. To a reporter of the Sun Mrs. McIlroy said: "Several years ago my health gave out completely. I was so weak that I could do no housework. If I went upstairs my heart would palpitate violently, and sometimes I would faint away through weakness. My nerves were unstrung, and I suffered much from dizziness. I tried many remedies, but they did not help me. Then I was advised to try Dr. Williams' Pink Pills and decided to do so. I am glad I did for the pills soon built me up and made me a well woman. My health remained good until last spring, when I was again taken with weakness. I now know by experience the value of Dr. Williams' Pink Pills and at once got a supply. The result was as beneficial as before and I can conscientiously say the pills have done me untold good. I am grateful for this and hope my experience will benefit some other sufferer."

Dr. Williams' Pink Pills have cured more sickly, pale-faced girls and women than any other medicine ever discovered, for they supply new, rich red blood and so strengthen every part of the body. They are equally suitable for men, women and children, and cure not only anemia, but define, consumption, indigestion, rheumatism, St. Vitus' dance, and the special ailments which all women dread. These pills can be had through any druggist, or will be sent post paid at 50c, a box or six boxes for \$2.50 by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont. Look for the full name on every box, so that no worthless substitute may be palmed off on you.

MATTERS MATRIMONIAL.

In Denmark a girl of twelve and a boy of fourteen can marry. In most places the limit for age is eighteen for men and sixteen for women. In Germany a man can only contract marriage before his twenty-first year, when he is specially declared of age, and this can only be done when he has completed his eighteenth year. In several parts of America it is unlawful for white persons to marry black ones. The law of France is specially notable for stipulating about the legal rights of each party, and the relations of each to the earnings of the other. It is literally true that the man who marries a French woman becomes by French law liable to be called upon for the support of his wife's near relatives if they are in need. The relations created by a betrothal in Hungary are expressly declared to give no right to demand the conclusion of a marriage.

A SHOCK FOR THE DOCTOR.

In Norfolk, England, it is customary to speak of attending a funeral as "following" the remains. A young medical man from London, who had taken a practice in Norfolk, was sadly nonplussed the other morning on receiving a letter from a disconsolate widow announcing the death of her husband, and adding as a postscript: "We all hope you will follow him."

THE DANGERS OF CHILDHOOD.

Summer is the most deadly season of the year for little ones. The little life, hanged by a mere thread, diarrhoea, infant cholera and other hot weather ailments come quickly and sometimes in a few hours, extinguish a bright little life. Every mother should be in a position to guard against, or cure these troubles and there is no medicine known to medical science will act so surely, so speedily and so safely as Baby's Own Tablets. A box of the Tablets should be kept in every home where there are little ones, and by giving an occasional Tablet, hot weather ailments can be prevented, and your little one will be kept well and happy. Don't wait until the trouble comes—that may be too late. Remember that these ailments can be prevented by keeping the stomach and bowels right. Mrs. A. Vanderveer, Port Colborne, Ont., says: "My baby was cross, restless and had diarrhoea. I gave her Baby's Own Tablets and they helped her almost at once. I think the Tablets a splendid medicine for children."

The Tablets are guaranteed to cure all the minor ailments of little ones; they contain no opiate or poisonous drug, and can be given safely to a new born babe. Sold by medicine dealers, or mailed at 25 cents a box by writing to the Dr. Williams Medicine Co., Brockville, Ont. Schoolmaster— "Now, Smithson, that we have perused of the principled reigning monarchs of the world, call me which ruler inspires the most respect and fear." Smithson (thinking of his knuckles, still sore) "The one on your desk, sir."

Mirand's Liniment for sale everywhere

NOSEBLEED.

Usually Very Simple Remedies Will Stop It. Bleeding from the nose may be caused by an injury, such as a violent blow, or sneezing too hard, or smothering irritating substances up the nostrils, or it may occur as a symptom of constitutional disease. In the latter case it may be the result of any one of several causes. In advanced adult life, for instance, it sometimes means that the person is suffering from Bright's disease or from heart trouble, causing the vessels that feed the brain to become overdistended with blood. Some people suffer from nosebleed when they climb mountains, or when they first go to live at a much greater altitude than that to which they have been accustomed. In these cases, and in all cases caused by overdistention and pressure, the attack of nosebleed is a direct effort on the part of nature to relieve the system, and is therefore a blessing in disguise. In young people who are making blood very fast—faster than the system requires—there often occur violent attacks which must be, of course, suitably treated, but need cause no great alarm unless they prove very obstinate to simple remedies. This form of nosebleed will disappear as the patient approaches adult life, and the whole system finds its balance. Certain diseases, such as scarlet fever, typhoid fever, blood-poisoning and erysipelas, are often accompanied by attacks of nosebleed. These attacks are then only one of the symptoms of a serious disorder, and as such would naturally be dealt with by the physician in attendance. In the ordinary cases of bleeding from the nose in children or young adults, very simple household remedies are generally all that will be needed. It is only when these attacks become too frequent, or when enough blood is lost to make the sufferer white and weak, that more energetic measures will be needed. There is an old wives' theory that the dropping of a large cold nose-bleed down the back will stop nose-bleed. This theory has, as usual, its little germ of truth. If a door-key is the biggest and coldest thing at hand, it would be well to use it in this way. As the virtue, however, does not lie in the key, but in its coldness, cold water compresses applied to the back of the neck and the forehead would do the work quicker and more scientifically. If this has no effect, the sufferer should lie down with the nostrils compressed and the arms raised above the head. Sometimes plugging the nostrils with absorbent cotton soaked in some astringent, such as alum or tannic acid, will be found necessary.—Youth's Companion.

PRINCIPLE OF LEGITIMACY.

Nicholas I. declared that he could not, without ignoring the principle of legitimacy, which is the fundamental basis of the monarchical system, recognize as a king and a brother sovereign, a prince who owed his crown to a revolution. The same Emperor Nicholas, at first refused to recognize Napoleon III. as a brother sovereign, taking exception to the revolution and sanguinary coup d'etat, by means of which he had obtained possession of the imperial crown of France, while Queen Victoria, availing herself of her constitutional prerogative, dismissed Lord Palmerston from the office of Secretary of State for Foreign Affairs for having directed the British ambassador at Paris to recognize Louis Napoleon as Emperor without having previously obtained her consent. Nor was it until after the Crimean war and death of Nicholas I. that the new Czar of Russia could be induced to address Napoleon III. as "mon frere."

WOULDN'T RECOGNIZE 'EM.

Russia as well as Prussia declined for many years to recognize either Isabella as Queen Regent of Spain or Maria della Gloria as sovereign of Portugal, on the ground that they had usurped the legitimate rights of their respective uncles, the late Don Carlos and the late Dpm Miguel, to their thrones; nor was it until after 1870 that Emperor Alexander II. consented to recognize Victor Emanuel as King of Italy, having up to that time refused to acknowledge his annexation of the kingdoms of Naples and the two Sicilies, obtained through Garibaldi's insurrection of 43 years ago. In more recent times we find not only the late Emperor of Russia, but likewise the present Czar declining to recognize Prince Ferdinand as ruler of Bulgaria, on the ground that he had violated his pledged word, given to Alexander III. Nor was it until Ferdinand had submitted to the most humiliating terms imposed by the court of St. Petersburg, including, among other things, the conversion of his eldest boy, Boris, from the Roman Catholic church to the orthodox rite, that he at length secured recognition by Nicholas II. as Prince of Bulgaria.

KING OF SERBIA IGNORED.

PETER KARAGEORJEVITCH BEYOND THE PALE. His "Brothers" Will Not Speak to Him While Under a Cloud. King Edward's action in withdrawing his Minister Plenipotentiary from Belgrade appears to be the subject of widespread misapprehension. It does not necessarily mean that all intercourse between the Governments of Great Britain and Serbia has been severed, or even that England declines to recognize the de facto Government at Belgrade, but that Edward VII., who, by virtue of the constitution, is in supreme control of England's foreign policy, does not feel inclined to maintain with Serbia's new executive the relations of friendship that characterize his intercourse with other courts until Peter Karageorjevitch has taken some steps to dissociate himself from the assassins of his predecessor and to clear himself of all complicity and complicity in the tragedy. Sir George Bonham is quitting Belgrade by direction of his sovereign, did not intrust the care of British interests in Serbia to the convey of some foreign power, as would have been the case had there been a complete rupture, but confided their representation to the Hon. W. G. Thesiger, the English Consul. The latter as such will transact all necessary business with the Serbian Government, but will hold aloof from the court of Belgrade.

MUST PROVE INNOCENCE.

Monarchs in the old world, in addressing one another use the word "brother," and look upon them

"Pure soap" You've heard the words. In Sunlight Soap you have the fact.

SUNLIGHT SOAP REDUCES EXPENSE.

Asks for the Octagon Mark. It is a species of fraternity bound together by "esprit de corps," and, to put the matter bluntly, King Edward does not feel inclined to treat King Peter as a "brother" until he is assured that he is innocent of all connection with the peculiarly horrible murder of King Alexander and Queen Draga at Belgrade.

In order to discover a precedent for King Edward's action it is necessary to recall the attitude of the Russian Government with regard to King Louis Philippe. The latter, it may be remembered, owed his throne to the revolution of 1830 at Paris, in which he was implicated, and which resulted in the overthrow and exile of his cousin and benefactor, King Charles X. Amperor Nicholas I. declined either to visit Paris or to accredit an Ambassador to the court of the Tuileries, having officially by a mere change of affairs, who treated not with the King but with the Minister of Foreign Affairs while unofficially Russian views were promoted by the famous Princess Lieven, who was the political Egeria of Guizot, the most influential political adviser of the bourgeoisie king.

PLAN NOW FOR SUMMER TOURS. No matter where you are going, if in the United States, get the Road, P. E. Exc. and Lackawanna Railroad, Buffalo, N. Y., for rates and routes. Very cheap excursions during the summer to Atlantic City, Boston and New York. Excursion rates now in effect to all resorts. "Plan now!" Undertaker (to gentleman)—"Are you one of the mourners?" Gentleman, (sadly)—"Yes; he owed me one hundred dollars."

Warranted the most wonderful English Cure ever known. Lincolnshire has the biggest English farm. Over 2,000 acres are under plough. The second largest is near Coldstream, in Northumberland.

85 1/2 million pounds of tobacco passed last year through the Custom House for home consumption in the United Kingdom. Mirand's Liniment Relieves Neuralgia. 975 persons out of 1,000 inoculated for hydrophobia after being bitten by a mad dog are saved from death.

ANOTHER CALIFORNIA EXCURSION.

On July 31st to August 13th inclusive, the Wabash will sell round trip tickets to San Francisco or Los Angeles, Cal., at the lowest rate ever made from Canada, tickets good to return until October 15th. All tickets show good value. Detroit and over the great Wabash line, short and true, out to Pacific Coast points. This will be the last, best and cheapest excursion to California this season, do not miss it. For full particulars address J. A. Richardson, District Passenger Agent, Northeast corner King and Yonge streets, Toronto.

INFANTS' DELIGHT Toilet Soap.

Best for Big Folks & Little Folks. JOHN TAYLOR & CO. Perfumers and Soap Makers TORONTO. ISSUE NO. 30-03

THE CURE OF STINGS.

All sorts of stings—whether from wasps, bees, hornets or bumblebees—should be sucked to remove as much poison as possible; then have a slice of acid fruit, apple, tomato or peach, or a crushed berry or grape, either ripe or green, bound lightly to the wound. If the pain is very severe after a minute take off the fruit, wash the sting in warm water and bathe it well in alcohol. Then wet a folded linen rag in either alcohol or vinegar, and bind on the sting. If neither alcohol, vinegar nor fruit of any sort is at hand, try a bruised plantain leaf. Change the application, whatever it is, every ten minutes until the pain subsides.

MARK TWAIN'S GALLANTRY.

Mark Twain was once standing in a crowded street car clinging to a strap. As the car swung round a corner the strap broke, dumping him into the lap of a well-dressed woman. Mark rose and bowed. "Madam," said he, "this is the first time the street-car company ever conferred a favor on me."

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or the perfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Causes of deafness are, catarrh of the Eustachian Tube, which is nothing but an inflamed condition of the mucous membrane. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. P. J. CHENEY & CO., Toledo, O. Sold by Druggists. "An eye for an eye" is the best.

A full-grown whale weighs 100 tons; that is, as much as 80 elephants or 400 bears. Seventy feet is the utmost length of a whale.
