An Explanation.

Wodehouse, August 19, 1904. Editor MAREDALE STANDARD:-

There has been so much gossip and idle talk concerning the unfortunate difficulty between Wm. Thompson and myself, that with your kind permission would like to briefly state the facts. The difficulty arose out of Mr. T.'s

sheep breaking into my fields from the public road and destroying my crop In the spring when my crop was about two mches high, the sheep repeatedly broke into my fields. and we were compelled to drive them out, and time and again we drove them to Mr. T.'s own gate and turned them into his lane. Notwithstanding this T. turned them on the road. Later on the sheep again were on the road and were annoying me. Abaut five weeks ago Sunday my son drove the sheep out of the crop and brought them to T.'s gate. Mr. T. was in his field near the lane in full view of the sheep and the boy. When spoken to he looked at my boy but did not reply. Later on during the day we turned them out of my crop several times, some of T,'s family seeing us doing it. In the evening of same Sunday after again taking them from my crop and putting them in their owner's lane, they were immediately turned

EVERYONE CAN HELP THE

CONSUMPTIVE. The New Free Consumptive Hospital Will Admit Consumptives Absolutely

Without Charge. The appeal being made on behalf of the new Free Consumptive Hospital, built under the auspices of the National Sanitarium Association—the first Free Consumptive Hospital in Canada—is one that touches closely the heart-strings of every man, woman, and child the broad Dominactive citizenship again.

One important step in this direction has been taken in the erection of the new Free Consumptive Hospital, due to the beneficence of two Toronto citizens, and which is now nearly completed. When the workmen go out of the building, and that will be almost immediately, all that is wanted to make it ready to receive the consumptive is that it be supplied with beds and other furnishing appointments, no charge whatever being made for

The National Sanitarium Association are already carrying too heavy a debt to undertake the furnishing themselves, but the way is open for each one to help in raising the \$10,000 needed for this purpose. The sum is not a large one. Ten thousand individual contributions of \$1.00 each out of a population of nearly 6,000,000 people would accomplish this end. Some, of course, with their hearts racked by the sufferings of relatives, dollars will furnish a bed. What is needed is that the amount be raised quickly, that the many knocking at the doors of the

National Sanitarium Association may find a place open for them.

Contributions for this purpose, \$1.00 or more, will be received by Sir Wm. B. Meredith, Chief Justice, 4 Lamport Ave., Toronto; W. J. Gage, Esq., 54 Front St. West, Toronto; or National Trust Co., Limited, Treasurer, 22 King St. East, Toronto. Fifty dollars will furnish a

Shaving In Egypt. The earliest reference to shaving of the beard is found in Genesis xli, 14, where we read that Joseph on being summoned before the king shaved himself. There are several references as to shaving in Leviticus, and the practice is alluded to in many other parts of the Bible. However, Egypt is the only country mentioned in the Bible where shaving was practiced. In all other countries at that time such an act would have been considered ignominious. Herodotus mentions that the Egyptians allowed their beards to grow when they were in mourning. So particular were they as to shaving at all other times that to have neglected it was to make oneself the butt of coarse and ridiculous

Even in this day and age when the Egyptian wants to convey the idea of a man of low condition and slovenly habits he always pictures to you a man with a full beard, This notion is very ancient, a fact attested by works of art found in burial monuments dating back thousands of years.
