Miss Rose Peterson, Secretary Parkdale Tennis Club, Chicago, from experience advises all young girls who have pains and sickness peculiar to their sex, to use Lydia E. Pinkham's Vegetable Compound.

How many beautiful young girls develop into weak, nervous and hopeless women, simply because sufficient attention has not been paid to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally. Another woman.

Miss Hannah E. Mershon, Col. (husband), says: "I thought I would write and tell you that by following your kind advice I feel like a new person. I was always thin and delicate, and so weak I could hardly do anything. Menstruation was irregular. I tried a bottle of your Vegetable Compound and began to feel better. I continued its use, and my strength returned. I cannot say enough for what your medicine did for me." - Mrs. H. E. Mershon, Col. (husband).

Lydia E. Pinkham's Vegetable Compound will cure any woman in the land who suffers from monthly troubles, inflammation of the ovaries, and kidney troubles.

Lord Minto at Owen Sound.

Was accompanied by Lady Minto and Lady Eileen Elliott and Party. Given a Hearty Reception.

The first official function in the farewell tour of the Governor-General took place at Owen Sound on Saturday afternoon. The Governor-General's car and a Canadian Pacific Express, which passed through Markdale about 4 o'clock. The coming of the party to Owen Sound was widely known, and fully two thousand people were on the platform at the depot to welcome Lord and Lady Minto, Lady Eileen Elliott and party. The civic delegation consisted of Mayor Greer and the members of the town council and officials, members of the council of the Board of Trade, Judges Morrison and Hatton, T. I. Thompson, M. P., A. G. McKay, M. P., and others. The party entered the car, and headed by the 31st Regimental Band, a drive was taken through the business section of the town, which was gaily decorated in honor of the visit of His Excellency. At Queen's Park a civic address was presented, expressing the high appreciation of the citizens of Owen Sound of the distinguished service Lord Minto had rendered during his term of office. In reply, His Excellency expressed the pleasure which his brief visit to so progressive a centre gave himself, Lady Minto and Lady Eileen Elliott. He regretted that his term of office must terminate in the near future. Appointed by the late beloved Sovereign, he was proud to continue service under a ruler whose reign had already been passed in the cause of universal peace and the effort to bind together the various portions of the Empire. He referred to the progress of the Dominion, and assured those present that on his return to Great Britain his efforts on behalf of this country would be an unceasing pleasure and duty. Since coming to Ottawa he had seen much of Canada, and were just completing their first hundred thousand miles of travel.

Referring to the cordial greeting to Her Excellency and Lady Eileen, he said that the words which become prophetic that the latter, a Canadian-born, might some day fill an important station at Rideau Hall.

The drive around town was then continued until 7.30, when the party returned to the car. Owing to a break in a steam pipe on the steamer Midland, on which the party was to embark, that vessel was unable to take her trip, and the steamer Britannic took its place. The Vice-regal party left at midnight for the Sault.

The country causes the death of more people than smallpox and yellow fever combined. In an army it is dreaded more than a battle. It requires prompt and effective treatment. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been used in nine epidemics of dysentery in the United States with perfect success, and has cured the most malignant cases, both of children and adults, and under the most trying conditions. Every household should have a bottle at hand. Get it to-day. It may save a life. Sold by R. L. Stephen.

The Deviation Once More.

EDITOR OF THE STANDARD:
Dear Sir,—In reply to an article written by one Ratemeyer on August 15, I wish to make clear to the public my dealings with the council of Holland in regard to the roadway across my place. Mr. Ratemeyer seems to think my terms were so outrageous that I raised public prejudice strong enough to compel the council to take the action they did. I don't think it is British fair play to judge a man or condemn him before he is heard. Now, I will give facts of the matter, and it is a free country and every man can judge for himself.

Now, when I went before the council of Holland they said I had a perfect right to get paid for the property. I asked the sum of \$60 per acre, which when I paid for putting on 480 rods of a fence and the inconvenience it put me to, I would not have much for the land. The council offered me \$20 per acre. I thought it was not enough and said if we could not agree to the price I was willing to throw myself overboard, and if they would do the same and leave to arbitration, and three reeves or ex-reeves outside the townships of Holland or Glenelg, the townships choose one man, I choose another and those two men choose a third, to say what I should have for the road. But they would not do it, and then they recinded their motion and offered me \$20 per acre, providing I got it surveyed and give them a plan and a clear deed of the road. When I would do all this and fence it was there any reason with it. If those public would look into the transactions of Holland council and see what they have been paying for deviations. Mr. Foster, your reeve in the chair, had no trouble to get \$20 per acre for a road across his farm, and others that I know of. I

don't think those public or the council are fair minded or they would not talk and do as they have done. I have it from good authority that one of the councillors made his boast in Markdale that it did not matter much if they did spend some of the township's money as long as Walker did not have much out of it anyway. In order to protect my property to keep some of those public from robbing me of the grass that they used for years, I had to fence; and then the council came and pulled it down and destroyed it and left the place open again. Was I used right? Hence the steps I had to take to defend myself and property. And now they won't arbitrate as agreed to in Owen Sound. Take one part of the Judge's decision, and the other part they ignore. Did you ever see anything so dishonorable? I have given them all the chance that a man could give them. Mr. Ratemeyer said I was opposed to the same deviation. It is false. I hadn't anything to do with it, good, bad or indifferent, and I defy any man to prove that I had.

Mr. Editor, I would like to say a few words about Glenelg council. When I presented the matter before them they treated me as a gentleman and agreed to pay a just portion of the road, looking for quiet titles; but I could not say that Holland council used me like a gentleman.

Church Union.

Wednesday, Thursday, and Friday, November 9th, 10th and 11th, will see gathered in Toronto the most unique religious conference ever held in that city. These dates were chosen by Rev. Dr. Warden, general agent of the Presbyterian Church in Canada, and Rev. Dr. Carman, for the Methodist body, as the time for the meeting of the church union committees of the Presbyterian, Methodist and Congregationalists.

There will be present about sixty of the most prominent clergy and lay delegates from the Presbyterian and Methodist Churches, and about half that number from the Congregationalists. The joint committee will hold three sessions daily, and is hoped that some basis of organic union will be arrived at which will not leave the proposed united Church open to a similar dispossession of property and funds to that which recently occurred in the case of the United Free Church in Scotland.

The place of meeting has not been definitely arranged, but it is probable that Knox church will be selected.

A Man Hates Himself

When he wakes up with headache and bad taste in the mouth. Something is needed to settle the stomach, clear away the dull heavy feeling and create a little appetite. Just get a tumbler of water, some sugar, and pour in a stiff dose of Nerviline. You'll pick up immediately and feel tip-top in a few minutes. Nerviline hasn't an equal for a condition of this kind. It stimulates, cures the headache, relieves the sick feeling and fits you for a hard day's work. Try Nerviline. Large bottles cost 25c.

Reading the Bible.

How long will it take a person to read the Old Testament, with its 692,439 words, or the 181,253 words of the New Testament? And how long to read the 773,692 words of both? A man can read understandingly 100 words every minute. By hurrying a man can read 160 words, or probably more. I will assume that a man can read critically—that is, carefully and understandingly—at least sixty words a minute. That is slow reading, being only 3,600 words an hour. Suppose a man should devote an hour a day to the Bible.

At this rate he would read 108,000 words in thirty days, or in a month's time. He would therefore read the Old Testament in less than six months, and he would finish the New Testament in less than two months.

Hunting on Treacherous Soil.

Snipe shooting on an Irish bog is an excellent test of a gunner's skill and enthusiasm. An experienced bog shooter if he finds himself going down throws himself flat on his side or back and at the same time throws his gun to his attendant, generally an unshod "gossamer," who rarely fails to catch it. The sensation of being bogged is very unpleasant, but if a man throws himself on his side or back there is strength enough in the feat to support his body.—"Forty-Five Years of Sport."

A Horse's Strength.

The average weight of a horse is 1,000 pounds; his strength is equivalent to that of five men. In a horse mill moving at three feet per second, track twenty-five feet diameter, he exerts with the machine the power of four and a half horses. The greatest amount a horse can pull in a horizontal line is 900 pounds, but he can only do this momentarily; in continued exertion probably half of this is the limit.
