YUKON'S BIGGEST NUGGET MAY BE PRESENTED TO RING FOR HIS CROWN.

Weighs Over Seven Pounds, and Has An Intrinsic Value of \$1,280.

A scheme to advertise Dawson of throughout the civilized world where mewspapers are read and exchanges of the rounds and by other pressions, has been suggested and discontinuous and by the pression means; has been suggested and discontinuous and by the pression and discontinuous and the pression and the means man mean seem and make cussed at Grand Forks and in Dawcussed as verand roles and in Dawpiere of pure gold, mammoth nugge 1d. taken from No. 0 French Gulch. The scheme is to buy the rugget by popular subscription, and send it to king Edward, monarch of the greatest kingdom the world has known, to be used in making a new crown

Those who have suggested the movement say that not only would the King feel highly ponored the King teet mignly ponored by such recognition from his people and his adulters and empire builders in what is the empire's farthest north, but every publication the world round would give the Yukon a measure of recognition that it could not obtain otherwise without the expen-

Gidles of plaited lace are also a lad with the fashionable girl. They look charming indeed with an evening gown of soft silk or chisson. A lace like thiny is generally used, and the pairting is done with water colors. After the lace is painted, the colors are fixed with a solution of ammonia and the white of egg, which will prevent them from fading. Of course, when the painted face is used for the high girdle, the foundation of the girlle is first covered with silk, and then the lace tightly drawn over it so that the painted design will plainly show.
