## HOG PROFITS

The hog is a machine to make pounds of pork. In raising hogs for the market, the profit is rapid and healthy growth. Feeding to simply sustain life makes you no profit. A food that will fatten your hogs in the shortest time, and with the least waste, is the profit maker. To get the best good out of the food, the hog must thoroughly digest and assimilate it. It is the assimilated food that makes the pounds of pork. The addition of Clydesdale Stock Food will enable it to do this. It creates an appetite for a full ration. Men find it difficult to let the hog "root" for itself. There is no better money maker on the farm if given half a chance. Clydesdale Stock Food will enable you to get your hogs to the market at least thirty days sooner than this is money saved. Mr. A. D. McDonald, Jericho, Ont., says: "I fed it to six fattening hogs as a test and found the hogs that received Clydesdale Stock Food made a decided gain over those that received none." This is "WISE FEEDING." Don't neglect the "RUNTS," they can be made to grow, and be kept growing, by using Clydesdale Stock Food. It will also keep your hogs in such healthy condition as will enable them to withstand Hog Cholera the greatest menace to hog raising. Keep your hogs and pens clean by using Carboline Antiseptic; as hogs thrive better when clean. If not satisfied after using, your money will be cheerfully refunded by our dealers in your district name:

## Free, to any Woman who bakes her own Bread

Thousands of women are writing in every week for the "Royal Household" Recipes—they explain the new and easier way of making bread. Make a trial with the new Royal Household Flour, which is purified by electricity—you would not believe there could be such a difference in flour—these receipts are certainly worth asking for. Send a postal card to-day.

HERE IS JUST ONE TESTIMONIAL OUT OF MANY THOUSANDS RECEIVED.

SARAH, Terre-Maine, Quebec, B.C., November 20, 1901.  
I have been using your flour exclusively since I came to Canada, fourteen years ago, and have been using "Royal Household" since its introduction. To show you how I value it my grocer lately could not supply me with it, and when I went to another brand, even temporarily, I sent to Kamloops, B.C., and had it sent to me. I have never had a better flour, and I have tried many others, but I charge rather than use an inferior brand. In fact, if I could not get it otherwise, I would ship it direct from the mills. I can always rely on having good bread when using it and nothing tends more to keep harmony in a home.

(Signed) MRS. T. SMITH.

## Opportunity.

Lord Strathcona, the grand old man of Canada, in the course of an interview

which appears in the Young Man gives the following practical advice to young fellows starting in life: "Be content with your present lot, but always be fitting yourself for something higher. Do not despise what you are. Be satisfied for the time, not grumbling and finding fault. If you want to get higher, to a better position; only cheerful perseverance will bring you there; grumbling will not help you on an inch. Your future really depends almost entirely on yourself, and is what you like to make it; I would like to impress this fact upon you. Do the work yourself; don't wait for your friends to use their influence in your behalf; don't depend on the help of others. Of course opportunity is a great thing, and it comes to some men more frequently than to others. But there are very few whom it does not visit at one time or another, and if you are ready for it and have not prepared to welcome it, that is your fault, and you are the loser. Apart from that which we call genius, I believe that one man is able to do as well as any other, provided the opportunity presents itself, and he is blessed with good health. Much of what I would advise you young men to do is contained in the old counsel, "Trust in Providence and keep your powder dry."

## A Fatal Vice.

When you find yourself leaning in the direction of a leather cushioned chair or an air filled settee look out. The fellow who is always looking for a nice place to sit down will have no place to rest his weary end in a short while. It makes one sick to walk into some places to see able bodied men trying to do business with all their energies bent on getting the soft side of a chair. When a man gets the "sit down" disease before he is fifty it is all up with him. Laziness is fatal. You can almost any other kind of vice. A drunkard may brace up, a man may get rid of a hot temper, a wild boy may settle down, but a lazy man is a hopeless proposition. Get someone to give you a swift kick every time you feel yourself gravitating towards the cushion. Nip the thing in the bud. If you are an employer don't keep a sanitarium for the cure of the malady. Let somebody else do the nursing. Give the lazy man his walking ticket. That will do him more good than all the preaching you can put into his head, and there is more money in it for you.
