### Editorial Notes.

On 22 steamships due to arrive in New York this week from Great Britain and the Continent is the biggest crowd of immigrants ever scheduled to enter during such a period of time, umbering nearly 25,000.

Claude D. McPhee, of Amprior is n a fair way to make a fortune from his invention for the prevention of train ollisions on railways, an electrical device upon which he has been working for the past seven years. Amerian and Canadian companies have been ormed, the former capitalized at 35,000,000, the atter at \$1,000,000, andle the invention, which is said to e a most valuable one, as independontly of the train crew it prevents collisions and the running into open witches.
