### House of Refuge Notes.

(By an Inmate.) Errata.—In last week's issue of THE STANDARD we noticed two or three slight errors in the House of Refuge notes; whether they were slips of the pen or typographical errors we cannot say.

The following is a correction: In references to the Matron's aged parent the name should have been Mrs. Simons, not Jackson. The average age of the male inmates should have read 71-10-12 years, not 71-19-12 years.

Some of our village people are likely to get into trouble by their dogs worrying sheep in the near vicinity. Sheep and lambs have been rescued more than once from dogs belonging to at least three families in town.
