MARKDALE, ONTARIO, THURSDAY, NOVEMBER 2, 1905.

Not a ray of disappointment appeared upon the faces of the large audience which attended the concert in the Markdale Methodist Church Thanksgiving evening under the auspices of the Epworth League. The program was one of rare merit and was fully sustained throughout. The solos, duetts, quartettes and the readings were all splendidly rendered and the performers were recalled after Mr. R. H. McNaily has purchased every number. Mr. Hi Ruthven McDonald of Toronto received an enthusiastic welcome and his singing delighted everyone: This was Mr. McDouald's first appearance in Markdale. Christ Church Literary.

Last Friday evening Christ Church

Literary Society was organized for the

season. After choir practice a goodly

number of young people and others

were present in the church, when the

Rev. Mr. Newell was asked to take the

chair. There was a discussion as to

whether the Literary Society should

be revived or the Young People's

of the Literary Society carried the day.

Several cases of diphtheria in town were located last Thursday by our physicians, and strict measures have been adopted to stay the spread of the disease. Every house affected has been quarantined, and it is hoped the unwelcome visitation may be speedily stamped out.

The Owen Sound Sun says, "The liquor business of Owen Sound got its first black eye last Monday night." when a local option petition with 1109 signers was presented to the council, and one with 989 signers in opposition. The question of submitting a by-law to a vote will be decided on November 13.

After reading Mr. Ford's open letter of last week, which I fully appreciated, I would like if he would explain the reason why we do not get as good flour from Ontario wheat as we used to fifteen years or so ago? why Manitoba wheat is so much better than ours? why flour is not as good after new crop?

A Farmer, The angels of destruction, sometimes also called the birds of prey, were out in small numbers on Halloween night, and the damage done was much below the average. The warnings issued by P. C. McCutcheon dampened the ardor of these Bedouins of the Night, and their lawless turbulence was restrained to a few minor turnovers which created amusement rather than anger. The patrol system was increased for the night, but their services were not much to answer questions concerning his anniversaries. Ceylon may be justly in demand. The necture-honored own aleatory experiences. The idea is proud of this gallant and venerable Halloween is waning.

Mr. Alexander McRae, Sr., of Ceylon, in Many Engagements.—Received His Naval Training On Board Nelson's Flagship, "The Victory."

(By our House of Refuge Cor.)

We noticed in the Toronto Daily News of the 23rd October that Belleville claimed the monor of having citizen who served as a boy on the training ship "Victory" (Lord Nelson's flagship at Trafalgar). Ceylon, six miles below Markdale, can claim something more than that in the person of Mr. Alexander McRae, sr., an old and esteemed friend of the writer. Mr. McRae net only received his first naval training and outfit for sea on board the "Victory," but served on the renowned "Agamemnon" in her operations in the Black Sea and the Sea of Azov, as well as taking a most conspicuous part'in the bombardment and fall of Sebastopol, in which the 'Agamemnon" and her crew bore the brunt of the battle with severe loss. Mr. McRae witnessed from the yards of his ship the battle of Alma, the guns of his ship having covered the march of the troops to the scene of action.
