THE CREATOR'S CARE

RAILWAY TO HUDSON BAY

WILL OPEN UP A WONDERFUL
LY RICH DISTRICT.

Divine Love Has Not Been Revealed to
Encourage Human Laziness.

A dispatch from Brooklyn, N. Y., says: "Rev. Dr. Newell Dwight Hillis has the following text: 'Know ye that the Lord he is God, it is he that hath made us; we are his people, and the sheep of his pasture.'

The world may think that it is growing weak, and it may boast of its decadence, but it still remains that there is an ever-increasing multitude of people who truly say, "I have found the strength of the Lord in the shadows of death." The strength of the Providence of God may make little appeal to one when the sky is clear and the hand is on the tiller, but only he who reads the secrets of all lives knows how this hope has given new heart to those who have been tossed by the dark waters of trouble.

But how true we know that, this doctrine of Providence has any root other than our desire for divine assistance? Was not Jesus mistaken when he talked of one who cared for the very sparrows? Were not these little birds deluded? Must we not each fight our own battles, all alone, care for our own fortunes?

In going over the ancient conception of God as an all glorious, all powerful Being, we do not also, cut

out the Hebrew faith in the way going, "Like as a father loves his children so the

Lord loves him that fears him?"

It is a good thing to lose faith in Providence if we have been resting in the shelter of his wings, but the exercise of our own energies when a man allows himself to be pampered by his faith in Providence, the experience of poverty may teach him.

A GOOD LESSON.

It has not been revealed to human laziness. There is no greater sin than that of failing to trust in Providence with folded hands and eyes shut.

Too many people willing to wait for wages they have never earned and harvests never sown or cultivated.

Men are not to be blamed for the loss of their children, but the sheep of his

people are his people; therefore, this means more than

grief and paths of peace.

It means weary ways, toil,

tear, pain, dark nights with stars.

It means ways we understand. Our plans have

been overruled and prosperity; it

has been taken up my fire, water, wind, rain, and lightning.

River, which is as large as the St. Lawrence, is the outlet of Lake Winnipeg, Lake Manitoba, Lake of the Woods and other large bodies of fresh water.

Hudson Bay is just large as the

Mediterranean—a great inland sea

and its fisheries, which have never

been developed, are as valuable as

those of Labrador.

It is in the frozen zone.

The winters are cold, but not so cold or stormy as along

the Atlantic coast of upper Canada

and the United States.

On its shores are immense bodies of timber

which have never even been touched,

and to the westward are mountains

believed to be the Rockies.

RICH IN MINERALS AS THE

KLONDIKE.

The best thing that you can do for

a sheep may be to put it into the

richest pastures; here may be some

people for whom the all wise

can do nothing better. But for a man,

his people, the best thing you

can do is to throw him out into the

barren fields, where he must dig and

toil, to tear down his arbors of

sorrows, and learn to build better.

The saddest, dreariest life of all would

be the one for which so many of us are

ever praying, the one unmixed with

sorrow or disappointments.

The divine purposes are the best

promises of Providence.

The infinitely wise and good will not be con-

tent with anything short of perfection.

If we are His creation we can

be sure of His care.

THE CARE THAT EDUCATES,

disciplines, and perfects. All na-

ture certifies to this assurance; it is

as true as the record of the

ancient conception of God as an

all glorious, all powerful Being.
