THE BALTIC PROVINCES

The Whole Population is Defying the Russian Authorities.

SERIOUS SITUATION.

despatch from St. Petersburg and have six latest pattern. manded the Cossacks in Manchuria, has arrived in Moscow from the Far East. He had a narrow escape from capture. It is reported that he will stated here that the crews of the immediately be employed in an im- Russian warships at Libau, who portant capacity, probably to re were ordered to proceed to Riga to press the rebellion in the Baltic proquell the revolt there, mutinied and vinces, whither the First Army Corps refused to work. Consequently the in Manchuria will be sent when it ar- ships have not started.

rives shortly. happenings in those provinces, but it is believed that, so far as Russian domination and unity are concerned, the situation there is far more serious than it is in Moscow, the trouble in the latter place being merely bloody rioting by a minority of en-thusiasts and a number of hoodlums, while in the Baltic provinces practi-cally the whole population is delying the authorities, bent upon an absolute and final separation. This is equally true of Finland, with the absence thus far of bloodshed and exrioting in the Baltic provinces while the Caucasus apparently must be entirely reconquered or lost to Russia. The Slove declares it has learned that the bloodshed at Moscow has been frightful, that the casualties will reach 15,000, and that about 100 Red Cross workers have been despatched from St. Petersburg to Moscow to assist in caring fore

THREE "ARMIES" BUSY.

A message from Moscow says that during the night the artillery worked at destroying the barricades. The revolutionists, this message, says, are divided into three "armies," the volutionists, this message, says, came guns and 250,000 rounds of petroleum and fatural gas fields of the armost three "armies," the ammunition. They were attacked province by E. T. Corkill, and a review inch thick, and bake for an hour and a province by E. T. Corkill, and a review inch thick, and bake for an hour and the moment they left the train. The industry of Ontario by the moment they left the train. The industry of Ontario by the gological features in the Sadovaia, Arbat, and Tversum and gricultural resources of the Abillibit for the features are still fighting, and cavalry are being employed though they are apparently losing and Archibald Henderson, and the iron against this force. · ESTIMATED TIMBER CUT.

Eight Hundred Million, Feet Board hol) with grated cheese Measure-Railway Ties Wanted.

A Toronto despatch says: From the reports of the Provincial Crown lands agents it is estimated that the aggregate imber cut this senson, will be 800,000,000 feet board measure; that 125,000 cords of pulpwood will be taken out and 2.500.000 railwhy ties. Last season 1.986.000 railwhy ties were actually cut. The great an ount of railway construction now in progress has made the demand for ties very brisk. The estimate of the timber out is larger than at the corresponding period of last season, the actual cut of which is not yet obtain-

NEW BRUNSWICK FINANCES.

Deficit Shown by Statement For Fiscal Year-Loans Effected.

A St. John, N. B., despatch says Provincial accounts for the fiscal year closing with the month of October were given out on Wednesday evening.

Ordinary receipts are declared to be: \$860,000; ordinary expenditures, \$874,-000. But, in addition, two loans were made and apparently expended for what the Government calls permanent bridges. These were for \$175,000 and \$125,000. An advance of \$35,000 in bonds was made for railways. At the close of the year a loan of \$550,000 was obtained from the Credit Foncier.

ATE HIS OIL COAT.

Harrowing Experience of a St. John's

Shipwrecked Sailor. despatch from Tampa, Florida, says: The three-masted schooner Sawrecked, and its entire crew of at least seven men drowned, except Mate J. F. Williams of St. John, N. B. The wreck was reported by Captain Lermond of To renovate a shiny coat.—Rub well the schooner Helen Thomas, which are with a little turpentine. Sometimes ficer and five men to the wreck. The mate found Mate Williams clinging to tic vessel, and he had been without food or drink for four days. Hunger had forced him to eat a portion of his oil coat. William's has practically recovered from his experience.

TEA TABLETS FOR ARMY. Novel Experiment for Supplying Tea in

Compressed Form.

A Washington despatch says: The latest novel experiment to be made by the United States Department of Agri-Baron Rothschild to Pay Expenses of culture is that of compressing tea into camphorated chalk should be avoided tablets, one of which will make a deli-tablets, one of which will make a deli-tablets one of which will method be placed in a space about the size of a safety match box.

DOMESTIC RECIPES.

Bread Cake.—On baking day take from your dough a piece large enough to make a loaf. Add to it a coffee cupful of sugar, a cup of raising and currants mixed; butter the size of an egg; a tablespoonful of caraway seeds, or leaspoonful of cinnamon extract. Mix all together into a solid loaf, and let it rise. Then mold out and let it rise again. Bake about thirty minutes.

lce Cream. One quart of cream, one cupful of sugar, flavoring to taste. Whip the cream until you have taken off a quart of froth; mix the sugar and flavoring with the whipped cream; strain into the freeezer. When partly frozen add the whipped cream and freeze again until stiff. Baked Beans with Tomato Sauce.

Rub as much dry buckwheat flour upon the oil or grease spot as it will take, surroundng and covering it entirely; let it remain a few days, then brush off. A second application is seldom needed.

To Clean Burned Dishes. Baking dishes that become burned in the oven and plates and platters that become blackened with the food scorched upon them, should not go through the tedious process of scraping. , Simply put a little water and ashes in the dis become warm, and the burnt and discolored portions may be easily cleaned without injuring the dish.

In case of a sudden leak, and when it is quite ovident that the plumber will not be as impatient to get to you as you three months. are to have him, mix some yellow soap and whiting with enough water to make a thick paste and stor up the leak your-self. This will answer temporarily as well as solder. Dents in fine polished furniture may

be removed in the following manner Lay a number of layers of moistened brown paper over the dent and put a warm iron over them. The steam will generally cause the wood to swell and fill up the dent. It sometimes takes patience, but slight dents, which are a considerable mar to furniture, may be raised in this way.

Virtues of Turpentine.—When applied

to burns it gives immediate relief. For blisters on the hands it is of great value, searing down the skin and preventing soreness. It is a sure preventive against moths also. By sprinkling a few drops in the bottoms of chests, drawers, and cupboards, it will render the garments secure from injury during the summer. Its pungent odor is retained for a longlime, and " injures neither furniture nor clothing.

INCREASE OF SMALLPOX.

There are Nearly Two Hundred Case
