How to Get Consumption.

Ninety per cent of the "lungers" contract consumption by allowing power of resistance to fall so low that a favorable condition for the development of the baccilli is provided. In a healthy system consumption can't take root. But where there is weakness and debility, there you find tuber-colis. For developing strength and building up the weak, nothing equals Ferrozone. It makes the blood nutritious and the nerves enduring. The way it converts food into nutriment, the appetite it gives is surprising. Just what the man verging on consumption needs,—that's Ferrozone. If tired and weak don't put off. Fifty cents buys a box of fifty tablets—at all dealers.
