## Oxomulsion

DR. SLOCUM'S GREAT SCIENTIFIC  
EMULSION OF COD LIVER OIL.

The greatest food and tissue builder known. It has no equal as a cure for all wasting diseases, and those of child and lung troubles. It is a strong and strength producing, and restoring the vital elements. It is a perfect food and valuable medicine combined. It is pleasant to take, is predigested and easily digestible by the most delicate stomach.

### DOCTORS Prescribe it

One of the most prominent medical men in their regular practice to all others. Dr. Allen of Toronto says: "A doctor in wasting diseases, God send him the best of health, and the most successful tests have proved, while retaining all the medicinal properties of the oil, that it is a perfect Oxomulsion perfect."

It affords extreme pleasure to be able to prescribe it, and to know that it is of great benefit to invalids affected with consumption, or wasting diseases of any kind.

It was almost thirty years ago a widow and one lived in Montreal for and resided at No. 43

### MYSTERICUS SERVIAN.

The Inspector's

matter slipped the Inspector's

memory until some weeks later a man

was found dead in his bed in a lodg-

ing in Clarke Street, and a post-

man proved that he had come to his

death by the driving of a long, fine needle

through the temple, deep into the brain.

## AVE CER'S LONG CHASE

### SOME RECORD JOURNEYS WITH GRIM ENDINGS.

Strange cases of Round-the-World Ro-  
vings Which Have Come to Light.

A number of miners in a South Wales colliery had a very narrow escape from a few years ago. An old man was tapped, and tons of water flooded the lower galleries. A man sellers who was working in the roof, and hanging there darkness for five hours till the water was pumped out. Who was responsible for the accident was not known. It was Evans by name. Two days later a second accident in the same pit. A great mass rock fell from the roof in one workings. Sellers was again the victim. Evans was killed on the spot. The man whose pick had tapped the workings previously, was caught by the falling rocks and seriously injured. They carried him to the surface, and there before he died, he told a strange story. It appears that he had been a partner in smuggling dia-  
monds out of Kimberley. Sellers, whose name was Alleyne, was caught by B. detective, and he gave his evidence. The criminals were never found.

### THE GOVERNMENT AND ZAM-BUK

#### SURVEY OUT FROM FORT WILLIAM TAKES A SUPPLY OF THIS USEFUL BALM.

Zam-Buk, the favorite household balm and salve, is now adopted as "the Doctor's remedy" by leading parties engaged in surveying various parts of the Dominion.

M. Henry Hall, writing from Fort William, says: "Having proved that Zam-Buk cures skin injuries and diseases, I determined to keep a supply handy. Being engaged to go on a survey, I thought it would be a most useful thing to take along. I obtained a supply in Fort William, and very well it did so. I may say that pretty nearly every day it was applied to various cuts, sores, abrasions, etc. As an application it relieves rheumatism, neuralgia, and sciatica. All druggists and apothecaries will be pleased to furnish it." The advertisement is to

the public that Dr. Williams' Pink Pills, for the cure of epilepsy, are to be had at the Chemist's.

### WHICH IS THE SUPERIOR?

How Men and Women Differ in Their Ways of Doing Things.

Man is a creature of cast-iron habits;

women adapt themselves to circumstances;

this is the foundation of the moral dif-

ference between them.

A man doesn't attempt to drive a

car unless he has a hammer;

a woman does not hesitate to utilize anything

she can lay her hands on.

and a pocket knife;

she has a pocket book and a purse.
