Another loan has been made, amounting to \$10,000,000, in furtherance of the plan of helping coffee merchants of this country and Europe to assist the coffee crop of Brazil in profitably marketing the great excess of coffee raised within the last year or two.

As was the case in previous loans, the money is paid directly to São Paulo, one of the coffee States, but instead of the loan being made with coffee, it is given to the bankers making the loan have their own ease of mind. Standard Trust Company, the most important railroads of São Paulo, has announced in the coffee press yesterday that the most recent loan of \$10,000,000 will be made by the Dresdner Bank of Germany at the rate of 5 per cent.

A notorious crackman, a man of sin-

gularly fine physique, known to the "Blue

Diamonds" has reason to regret his visit

to that busy centre of the cut-throat trade.

Equipped with all the latest scientific

implements, he broke into a gentleman's

house, and soon succeeded in acquiring

a choice collection of valuables. Just as

he was preparing to depart, the door

opened and a little gentleman attire'd in

a dressing-gown, confronted him.

"Give up your weapons, if you are armed,"

said the gentleman, and go quietly in

front of me to the cellar, where I

shall see you till the police arrive."

"I don't want to hurt you, but if you in-

terfere or attempt to shoot I'll cut you."

The little gentleman never flinched,

even when the powerful burglar lifted

his mighty arm with the intention of

giving a knock-out blow. He skil-

fully decided to avoid the blow, and

directly afterwards the Blue Dragon

was lying writhing on the floor, screaming in agony, "Police!" and "Murder!"

The gentleman, who was an expert Jui-Jitsu exponent, had locked

him in an embrace which threatened to

dislocate his shoulder and leg. The

Blue Dragon is at present enjoying his

rehabilitated health, and notwithstanding

that teaching Jui-Jitsu ought to be
