She Was Wild With Pain.

From Wilfrid Creek, Ont., Miss E. Diegel writes: "A few years ago I was drenched with rain and got lumbago; it was like a steel rod piercing my back. I also had an ache and was just wild with pain. I applied batting soaked with Nerviline to my ear and rubbed on Nerviline for the lumbago. That rubbing relieved and in a few hours I was well. Nothing other liniment could do this." It's the penetrating power of Nerviline that makes it superior to all other liniments. Nothing beats it; 25c at all dealers.

Ever Her Blood Turned to Water.

When ... of Pernicious Anaemia ... was Saved by Ferrozone.

Probably very few cases are on record in which an absolute cure has been made of pernicious anaemia.

But Ferrozone did cure Miss Elaine Stanhope—cured her absolutely, and her mother Mrs. G. Stanhope of Rothesay, Ont., says the following:

"My daughter complained of feeling tired. She was very pale and listless, and kept losing strength till too weak to attend school. The doctors prescribed different bottles of medicine but Elaine kept getting worse instead of better. She had anaemia and we were afraid for a while that she might never rally. We read of a similar case that of Miss Dent of Stirling, Ont., being cured by Ferrozone, and this induced us to get it for Elaine. It took three boxes of Ferrozone to make any decided improvement, but when my daughter was her old self again. It did not take much longer to make a complete cure, and I am convinced that there is no better blood maker than Ferrozone. It has made a new girl of Elaine. She has gained ten pounds in weight and looks the picture of health. She is stronger and enjoys the best of spirits. The credit of her recovery is entirely due to Ferrozone."

Every grown man and young woman can make herself strong and healthy with Ferrozone.

EUGENIA

Married On June 5th, at the home of the bride's parents, Miss Bella, daughter of Mr. and Mrs. Solomon Turner, of Eugenia, to Mr. George McGruther, of Orange, New Jersey, The Rev. Mr. Wilson, of Markdale, tied the bridal knot. A large number of guests were present to witness the happy event. The groom's present to the bride was a handsome gold watch and chain. The young couple will reside at Orange, New Jersey. As the bride was one of our most popular young ladies the presents were both costly and useful. The best wishes of their many friends accompany them to their new home, wishing them every happiness.

Mrs. W. Purvis has returned from the city where she has been visiting friends for the winter.

Our volunteers left this morning for camp at Niagara.

Our football teams are having hot times at their games this season. They had better change the program to something else.

Barely Lived Through It.

A terrible experience had Edw. J. O'Connor of Sault Ste Marie. "From boyhood" he writes, "I have been a constant sufferer from asthma and catarrh. My nose and throat was always stopped up and I had droppings in the throat. When attacks came on I thought I couldn't live through the night. I would sit up gasp for breath and endure great distress. Catarrhozone made me entirely well." No stronger proof is required. Asthma is curable, so is catrh. Use "Catarrhozone" and your recovery is guaranteed Two sizes, 25c and $1.00 at all dealers.

TWO LITTLE GIRLS' HOLIDAY TRIP.

We started out a-driving
On the twenty-fourth of May,
To take in all the visions
We could see along our way.
The first town that we came to
Was the town of Kimberley,
The houses all look very old,
And the sidewalks torn away.

And then we climbed a great big hill
And away around a wind,
Leaving lots of rocks and gulleys
Out of sight behind;
Until we reached the water-fall,
That is a lovely sight;
But why do people go out there,
Their names beneath to write?

And then we saw the tunnel,
A big hole under ground;
You couldn't see a man in there
Or hear the slightest sound.
There is a notice at the door:
"Keep out—beware of danger!"
Six very brave men work in there
Yet warn the careless stranger.

Why do those brave men venture
Under ground so far?
For the light we saw appeared to be
Just like a little star.
And then we came to Flesherton,
A town that looks so bright.
We could tell by its appearance
That everything's kept right.

But when we got to Aunty's house,
She lives so near the track,
We never got a bit of rest
Until we landed back.
And then they told us little kids,
I think it's to arouse us,
We didn't see the town atall,
'Twas just a lot of houses.

Florence E. Gardner,
Heathcote.

Facts Worth Considering.

About the poorest economy our farmers can practice is to give up raising their own wheat, and to spend their money for Manitoba flour. It is downright extravagance for they lose money both ways. In the first place, there is a steadily growing demand for blended flours, which are milled of Ontario wheat and Manitoba wheat.

No flour, milled of a single kind of wheat, can be as good as a blended flour. For instance, Ontario wheat lacks strength, although it makes very fine white bread and light pastry. Manitoba wheat makes a big loaf that is very nutritious, but the bread is coarse and yellow. But a blended flour—containing both Ontario and Manitoba wheat—supplies what each single kind of wheat lacks, and contains the good qualities of both.

Then, look at it in another way. If our own farmers buy Manitoba flour, they are making another province rich at the expense of our own. The money, which they earn in Ontario, is turned over to the farmers and millers of Manitoba.

What all our farmers, and all our housewives, should do, is to get together on this flour question. Every farmer in Ontario should raise winter wheat—as big a crop as his farm will justify. He should not only raise Ontario wheat, but he also should make it a point to buy a blended flour, made of this same home-grown wheat.

The money is made here—the money should be spent here and kept here.

Our women-folk can help this cause along by using blended flour for all their baking. The more they use, the greater will be the demand for Ontario wheat. As this increases, naturally the farmers will go in for more wheat. Everybody will thus share in the rejuvenation of a failing industry, and rejoice in the greater prosperity of our farming population.

SHELBURNE

The weather keeps fine but cool and crops are doing nicely.

Mrs. Galbraith of this place had two cows killed by a freight train which was coming into this station about 4.30 on Wednesday afternoon of last week. One cow being cut in pieces and strewn along the track for about 300 yards. Two other young cattle belonging to the same person were hurt considerably at the same time, but escaped being killed. It is a big loss for the old lady as we understand she refused an offer of $56 for one of the cows killed.

Captain Gabriel with his Company, together with the 36th regiment Band, left for camp this morning. There was a goodly number at the station to see them off.

Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.
