Notice to the Public. We are to the interest of the public in the matter of the well drilling.

Young people should be taught the habit of correct speaking, and abandon it early as possible. Use of slang words and phrases longer you put this off, the more difficult the acquirement of language will be; and if the acquisition of language, by the abuse, the unfortunate student most probably be doomed to a life for life. You have merely the slang you hear to form an agreement with the speaker and in the country.
