Seventy-One Indians Perish in Woods Surrounding Lake Mistassini.

A despatch from Quebec says: Further details reached town on Tuesday in regard to the death from starvation of a party of twenty-one Indians in the woods, while en route from Lake Mistassini to Reservoir. On the 22nd of March last an Indian named John Boston found the remains of three of the victims. Thomas, Buzil, Miller, and Big John, about a hundred miles from Lake Mistassini. He inferred the bodies where they were found. Another party of Indians from Mistassini is expected at Pointe Bleue, the Indians reserve near Reservoir, this week. More further details of the terrible tragedy are expected. Thomas Buzil was a Montagnais Indian, Pointe Bleue, where he leaves a wife and child. Miller was the son of a former chief of the Hudson's Bay post at Mistassini, while Big John belonged to the head of the mississippi.

### GROWTH OF MANUFACTURES.

Six and a Half Millions Is the Population of Canada.

A despatch from Ottawa says: A bulletin was issued on Wednesday morning by the Bureau of Census and Statistics, showing the growth of Canada's manufacturing establishments during the past six years, and giving the comparative average production per establishment in 1901, 1902 and 1903. The various industries are divided into three groups: First, those with products of between \$200,000 and \$1,000,000 per establishment; second, those with products of between \$200,000 and \$1,000,000 per establishment; and third, those running over one million dollars per establishment.

Compared with the census of 1901, which was for the calendar year 1900, there were, in the first class 176 works producing each \$600,000 and over in 1903, as against 72 in 1901. In the second class, there were 62 works producing \$750,000 and over in 1903, as against 27 in 1901. In the third class there were 17 works producing each \$50,000 and over, whereas not one factory had reached the amount in 1900.

SOME GREAT PRODUCERS.

### EVERY LITTLE THING.

Conjugal silk made charming evening gowns under transparent over-skirt of pale d'espri, net or organdie tulle, a pink or white lace border.

There is something of rather yellowish green, known as "tulip," seen in many of the new summer silks. Underskirts are made of lace and brocade, and lace-trimmed hats and caps are an important part in them. Many are made of deep silk fabrics, while white batiste petticoats are much-trimmed with insertions of lace and minutely plaited batiste and mouse-skin doilies.

Trimming of alternate rows of ribbon and lace insertion is seen on some of the late summer silk models.

New trimming for afternoon or evening dresses is of chenille flowers, especially in white, in combination with silver, as, for example, silver outer petals, silver berries or silver foliage.

For indoor gowns or elaborate tea gowns the broken or primitive Greek pattern is much used as a trimming.

Some of the new batiste can truly be considered as jewelry. One of the novelties was a large head of tortoise shell set with amethysts and diamonds. Still another was inlaid with turquoise and diamonds.
