Heart Strength Richly

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Postitively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power; more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Bloop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting Merke centers. It builds it strengthens; it offers roal, genuine heart help:

If you would have strong Hearts, strong decision, strengthen these merves—re-establish them as needed, with
