WAYS OF FIRE MAKING

OLDER METHODS OF STRIKING A LIGHT IN PRIMITIVE TIMES

The Friction of Sticks Gradually Gave Way to the Use of Flint and Steel.

It is a fact that in the civilized world today, one's imagination rarely fails to picture a line of ready means of striking a light available. Yet it is certain that in the past, the art of lighting a fire was a matter of no small importance, and it is interesting to note how the art has developed through the centuries.

In the primitive state, the art of lighting a fire was a matter of no small importance, and it is interesting to note how the art has developed through the centuries.

The first method of striking a light was by the friction of sticks. This method was used by the primitive man, and it was a very simple and effective method. The sticks were rubbed together, and the friction produced a spark which lit the fire.

As the art of lighting a fire developed, the method of striking a light by the friction of sticks was gradually abandoned. The use of flint and steel was introduced, and this method was found to be much more effective and convenient than the friction of sticks.

The use of flint and steel was a great improvement on the friction of sticks. It was a much more reliable method, and it was much easier to use. The flint and steel were struck together, and the spark produced was much brighter and more intense than the spark produced by the friction of sticks.

COMPLETELY MONEY MAD

WAY COUSIN JONATHAN SPENDS HIS MILLIONS

Some Methods of United States Millionaires to Make Themselves Famous.

Recently President Roosevelt has been making a study of the lives of the millionaires of his country. To his mind, the life of a millionaire is a life of complete madness. He has become the overpowered passion of the American, but it will be interesting to observe how he spends it when he has got it, says London Answers.

To sober Englishmen the follies of the millionaires are almost beyond belief. The life of a millionaire is a life of complete madness. He has become the overpowered passion of the American, but it will be interesting to observe how he spends it when he has got it, says London Answers.

PEACE IN THE MENAGERIE

THE BEAR AND THE LION IN A FOND EMBRACE

And The Peace of Asia Secured by the Treaty Recently Signed in St. Petersburg.

The peace of Asia is the correct description of the momentous agreement which was signed at St. Petersburg last week between Great Britain and Russia. It is a genuinely self-denying ordinance on both sides, and it removes at least for a considerable time to come one of the greatest dangers which have threatened the world.

A SHORT HISTORY

A Serious Case of Chronic Cataract Gradually Overcome By Pe-rina.

A REMARKABLE CASE.

Mr. Arthur Fremblay, 8 St. Mont Pleasant, Montreal, P. Q., Canada.

Mr. Fremblay writes: "I have been suffering from a serious case of chronic cataract for many years. The vision in my right eye was almost entirely lost, and I was unable to do my work. I had tried many different treatments, but none had any effect. I was advised to try Pe-rina, and I did so. After a few days, I noticed a marked improvement in my vision. After a few weeks, my vision was almost entirely restored. I am now able to do my work as usual, and I am very grateful to Pe-rina for what it has done for me."

AT A CHARITY FAIR.

How a Dutch Farmer Contributed to the Funds.

Among her memories of colonial life, Lady Broome tells in her recent book, "The Dutch in the East," the story of a charity fair in the South African War, and the part played by the Dutch settlers who were here, and the part played by the Dutch settlers who were here, and the part played by the Dutch settlers who were here.

Stops Colic

Nurses' and Mothers' Treasure

25c - 6 bottles \$1.25.
National Drug & Chemical Co., Limited, Montreal.

VERY UNPLEASANT.
How long the day seems when you are short of money!
The morning is a tie, it is seldom long-lived.
Many a man who looks wise can't make a living at it.
One method of dodging popularity is to give your neighbors advice.
When a woman marries a man, to reform him she tells him what it is to lead a strenuous life.
It's astonishing what comfort some people get wearing over their neighbors who live beyond their incomes.

The Farmer's Rivalry. Canadian agriculture is a business, and it is a business that is being run on the old-fashioned plan. The farmer is a man who is not a businessman, and he is not a businessman who is not a farmer. The farmer is a man who is not a businessman, and he is not a businessman who is not a farmer.

TCM. Mania, Petria Scratches and every form of contagious skin on human or animal cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold by all druggists.
