Stray Shots from Solomon.

KEEP SWEET. Solomon says: "Keep thy heart with all diligence for out of it are the issues of life." | Plenty of men can keep their months and restrain the expression that their lips would sometimes give to the rowardness of their secret thoughts. Many seem to be able to compel their minds to follow certain channels and so discipline them as to keep them employed in the particular direction they choose. How few, however, give heed to the controlling of their deeper self, which is the mainspring of thought, word and act. The secret of keeping sweet is little understood, on at all events little practised. There are, however, some who seem to have brought the art to some degree of perfection. We all know people whose presence to us is a calm, peaceful influence which banishes unrest, distrust and evil as with a magic spell. A man thus poised is fit for any position in life. ! At the bottom of such a condition of heart must be personal truth, charity for others, and a desire to do good unto all men. A man may never be great in
